

Exam Questions PL-500

Microsoft Power Automate RPA Developer

<https://www.2passeasy.com/dumps/PL-500/>

NEW QUESTION 1

- (Exam Topic 1)

You need to determine the causes for the reported issues.

What are the causes? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

| Answer Area | |
|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Issue | Cause |
| New environment | <div>Flow checker did not run.</div> <div>Admin mode is turned on.</div> <div>Admin mode is turned off.</div> <div>A connector was added to a DLP policy.</div> |
| FlowA | <div>The user is in the wrong environment.</div> <div>The user does not have the correct permissions.</div> |
| Dataverse error | <div>There is no Microsoft Dataverse database provisioned.</div> <div>The user did not sign into Power Automate by using a Microsoft work account.</div> <div>Microsoft Dataverse was not shared with the user from the development environment.</div> |

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

| Answer Area | |
|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Issue | Cause |
| New environment | <div>Flow checker did not run.</div> <div>Admin mode is turned on.</div> <div>Admin mode is turned off.</div> <div>A connector was added to a DLP policy.</div> |
| FlowA | <div>The user is in the wrong environment.</div> <div>The user does not have the correct permissions.</div> |
| Dataverse error | <div>There is no Microsoft Dataverse database provisioned.</div> <div>The user did not sign into Power Automate by using a Microsoft work account.</div> <div>Microsoft Dataverse was not shared with the user from the development environment.</div> |

NEW QUESTION 2

- (Exam Topic 1)

You need to implement security to resolve the invoice data issue

Which three actions should you perform? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

- A. Select the Finance role, select Core Records, and then navigate to the table.
- B. Clear the Create and Delete permission
- C. Set the Read permission and Write permission values to Business unit D
- D. In Microsoft Power Platform admin center, navigate to the Security roles section.
- E. In Microsoft Power Platform admin center, navigate to the Users section.
- F. Select the Finance role, select Custom Entities and navigate to the table.
- G. Clear the Create and Delete permission
- H. Set the Read permission and Write permission values to Organization.

Answer: ACF

NEW QUESTION 3

- (Exam Topic 2)

You need to configure the desktop action for the MaintenanceScheduler cloud flow. Which two actions should you perform? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

- A. Select machine settings in Power Automate for desktop.
- B. Select the Timeout property and update the duration to PT20M.
- C. Select the Timeout property and update the duration to P20M.
- D. Launch Power Automate for desktop.
- E. Navigate to Desktop flow action settings in the cloud flow.

Answer: AD

NEW QUESTION 4

- (Exam Topic 2)

You need to resolve the issue with the DataCollector flow.

What are two possible ways to achieve the goal? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point

- A. Add an If web page contains action to determine whether a field exists and write data only when true.
- B. Configure the Populate text field on a web page actions to continue running the flow in case of error.
- C. Replace the Populate text field on a web page action with the Send keys action to write data.
- D. Remove the Focus text field on a web page actions that precede actions which write data to text fields.
- E. Modify selectors to ensure that field attributes are mapped correctly.

Answer: BCE

NEW QUESTION 5

- (Exam Topic 2)

You need to identify the actions that PipelineManager1 can perform.

Which three actions can PipelineManager1 perform? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- A. Override the DLP policy.
- B. Modify or delete a flow.
- C. Modify the owner's connection credentials.
- D. View the run history.
- E. Set the cloud flow priority.
- F. Add or remove other owners.

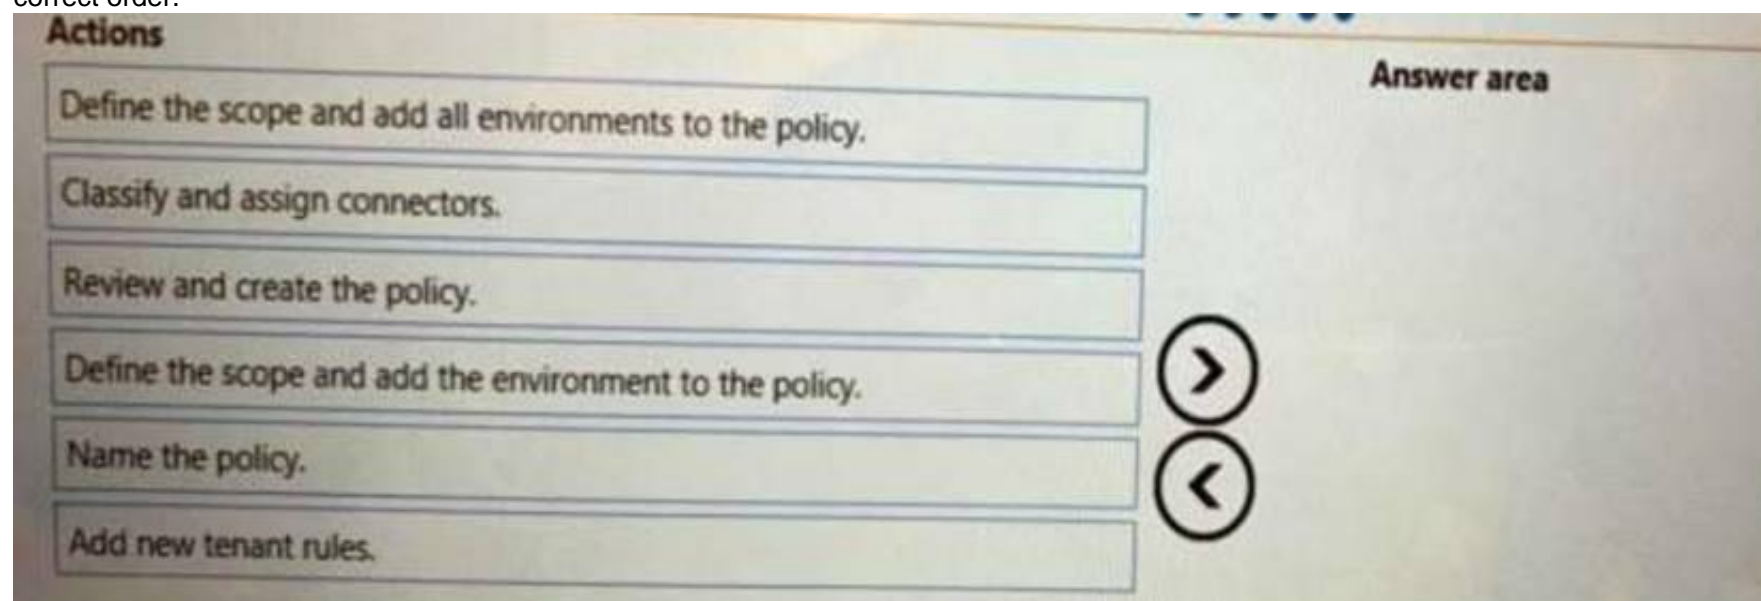

Answer: CDF

NEW QUESTION 6

- (Exam Topic 3)

You plan to implement a data loss prevention (DLP) policy for a production environment. You need to define the policy.

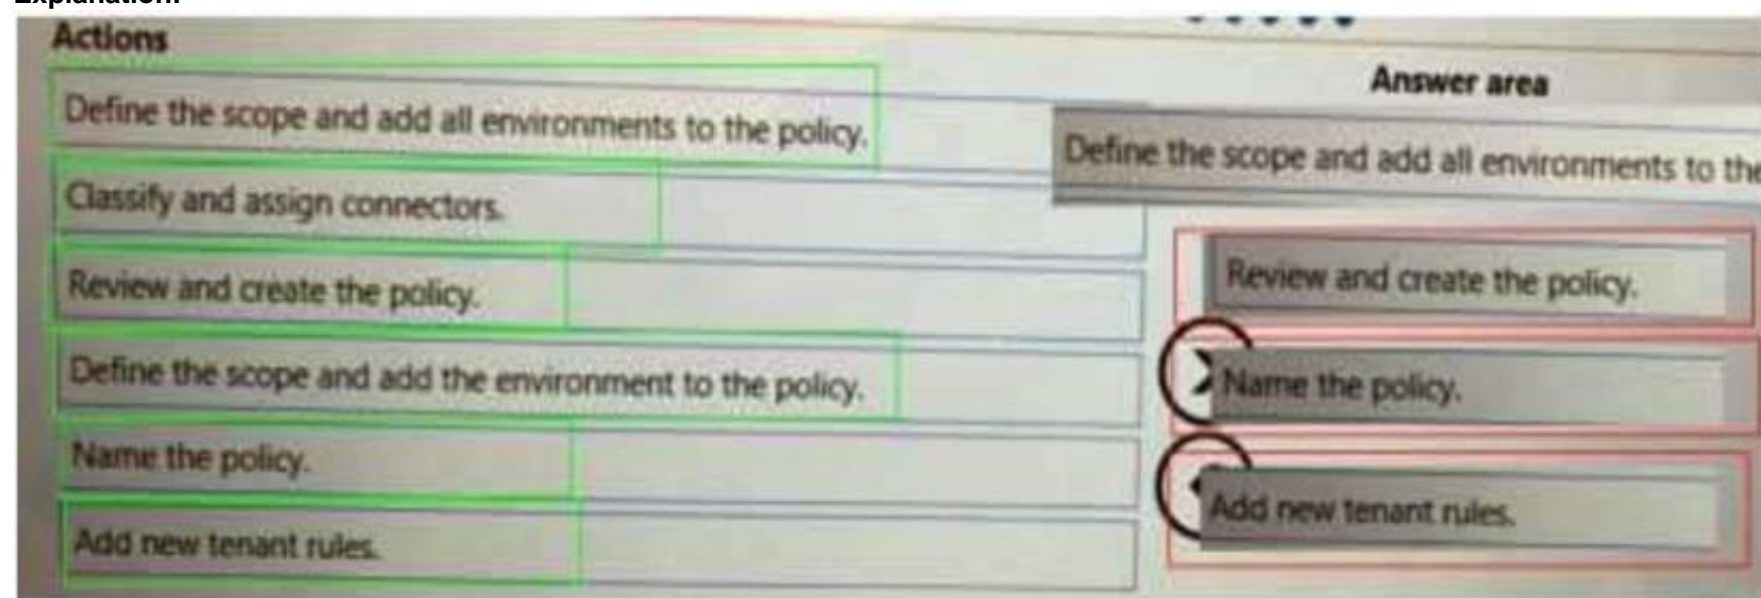

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

NEW QUESTION 7

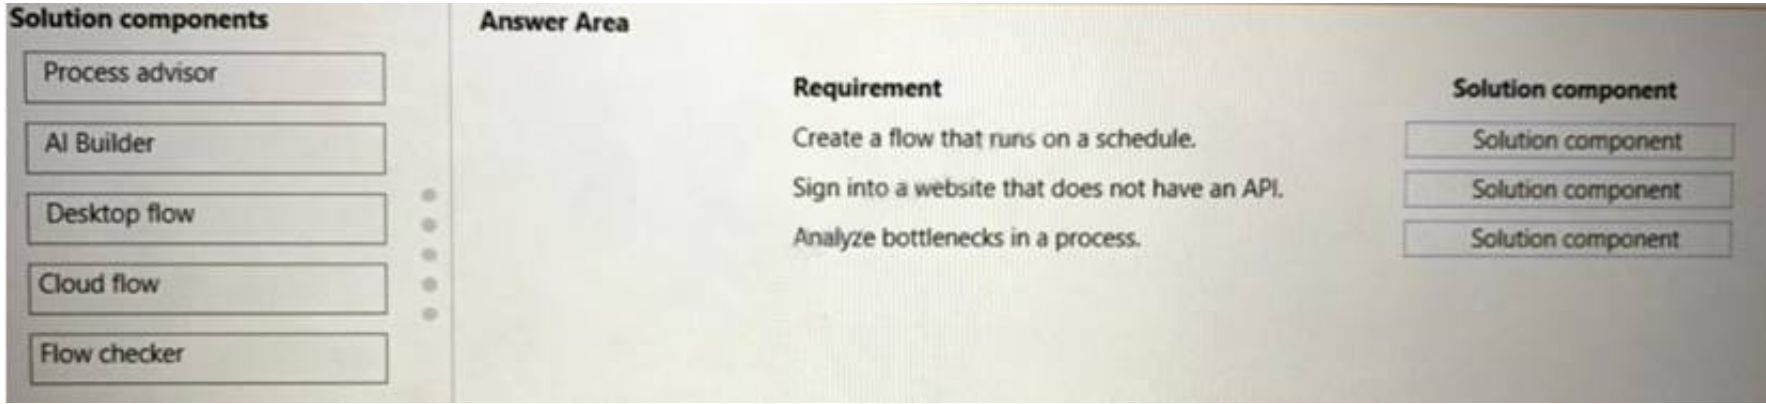

- (Exam Topic 3)

You are developing automation solutions.

You need to select solution components for each scenario.

Which solution components should you use? To answer, drag the appropriate solution components to the correct requirements. Each solution component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

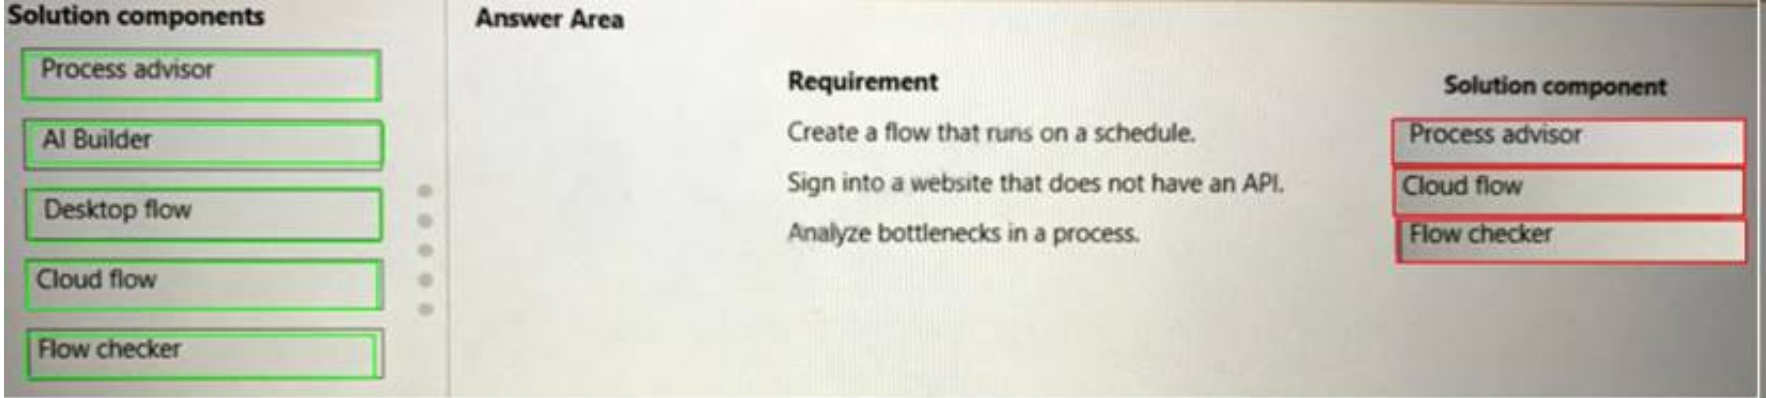

NOTE: Each correct selection is worth one point.

- A. Mastered
- B. Not Mastered

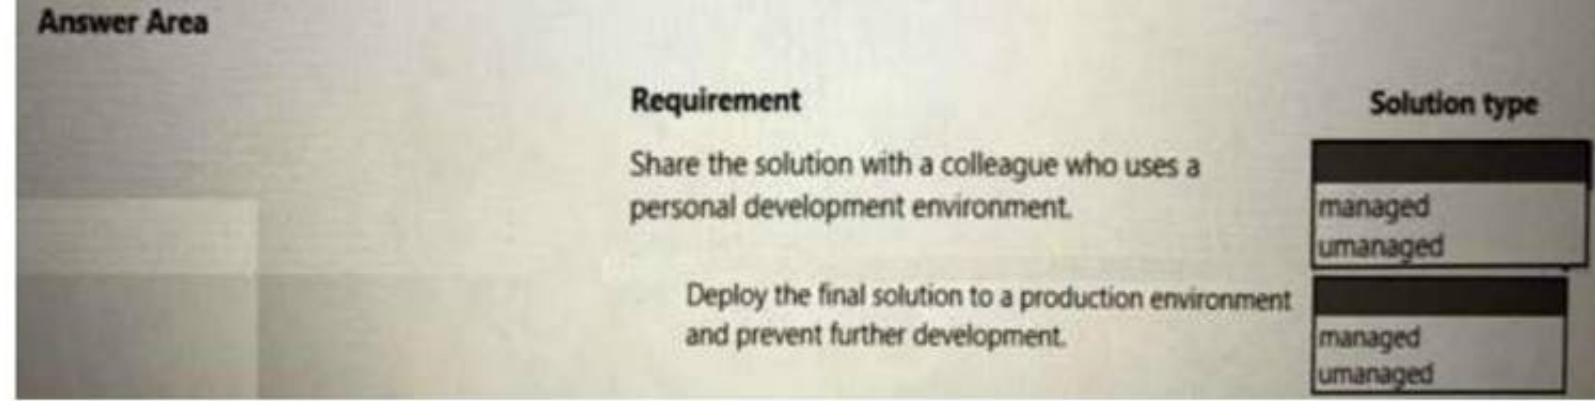

Answer: A

Explanation:

NEW QUESTION 8

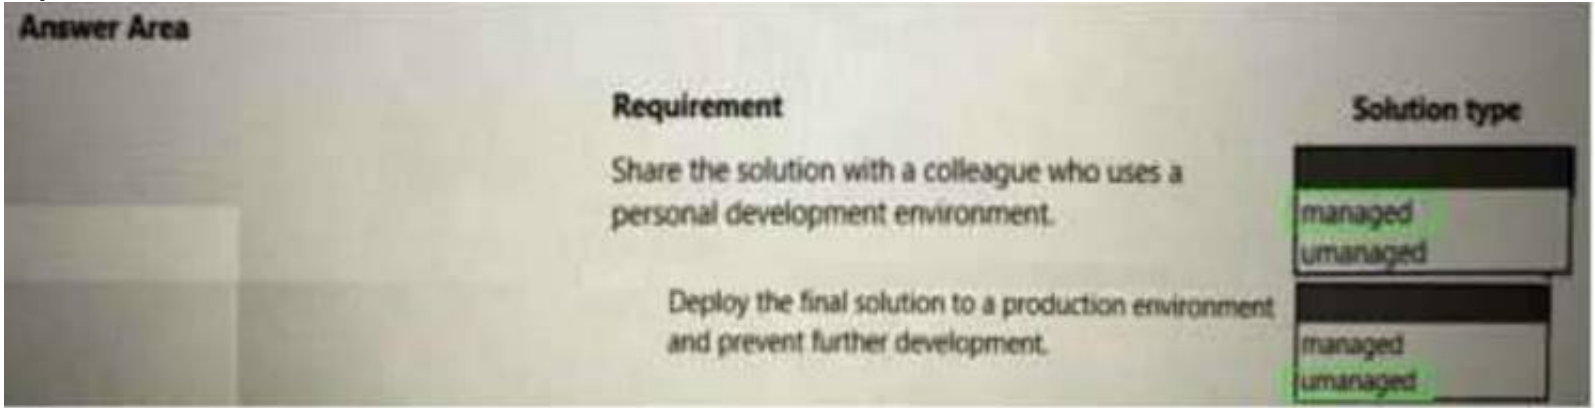

- (Exam Topic 3)
You develop automation solutions for a company. You need to package the solutions.
What should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

NEW QUESTION 9

- (Exam Topic 3)
You are developing a custom connector.
You need to create the definition for the connector.
Which features should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Answer Area

| Scenario | Feature |
|---------------------------------------------------------|-------------------------------------|
| Define operations that users can perform. | Code Action Policy Trigger |
| Define actions that will be invoked by events. | Code Action Policy Trigger |
| Change the host URL for specific actions. | Code Action Policy Trigger |
| Extract data from responses by using regex expressions. | Code Action Policy Trigger |

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Answer Area

| Scenario | Feature |
|---------------------------------------------------------|-------------------------------------|
| Define operations that users can perform. | Code Action Policy Trigger |
| Define actions that will be invoked by events. | Code Action Policy Trigger |
| Change the host URL for specific actions. | Code Action Policy Trigger |
| Extract data from responses by using regex expressions. | Code Action Policy Trigger |

NEW QUESTION 10

- (Exam Topic 3)

You are developing automation solutions for a company.

You need to use Microsoft Office scripts in a cloud flow to calculate the number of business days between two dates.

Which three actions should you perform in sequence?

To order, answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Answer area

In the Excel desktop app, navigate to the Automate tab.

Create and save a script.

Add and configure a Run script action.

Add a Compose action and use an expression.

In Microsoft Excel on the web, navigate to the Automate tab.

Answer: A

Explanation:

NEW QUESTION 10

- (Exam Topic 3)

You develop a desktop flow. You need to debug the flow.

Which three tools can you use? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

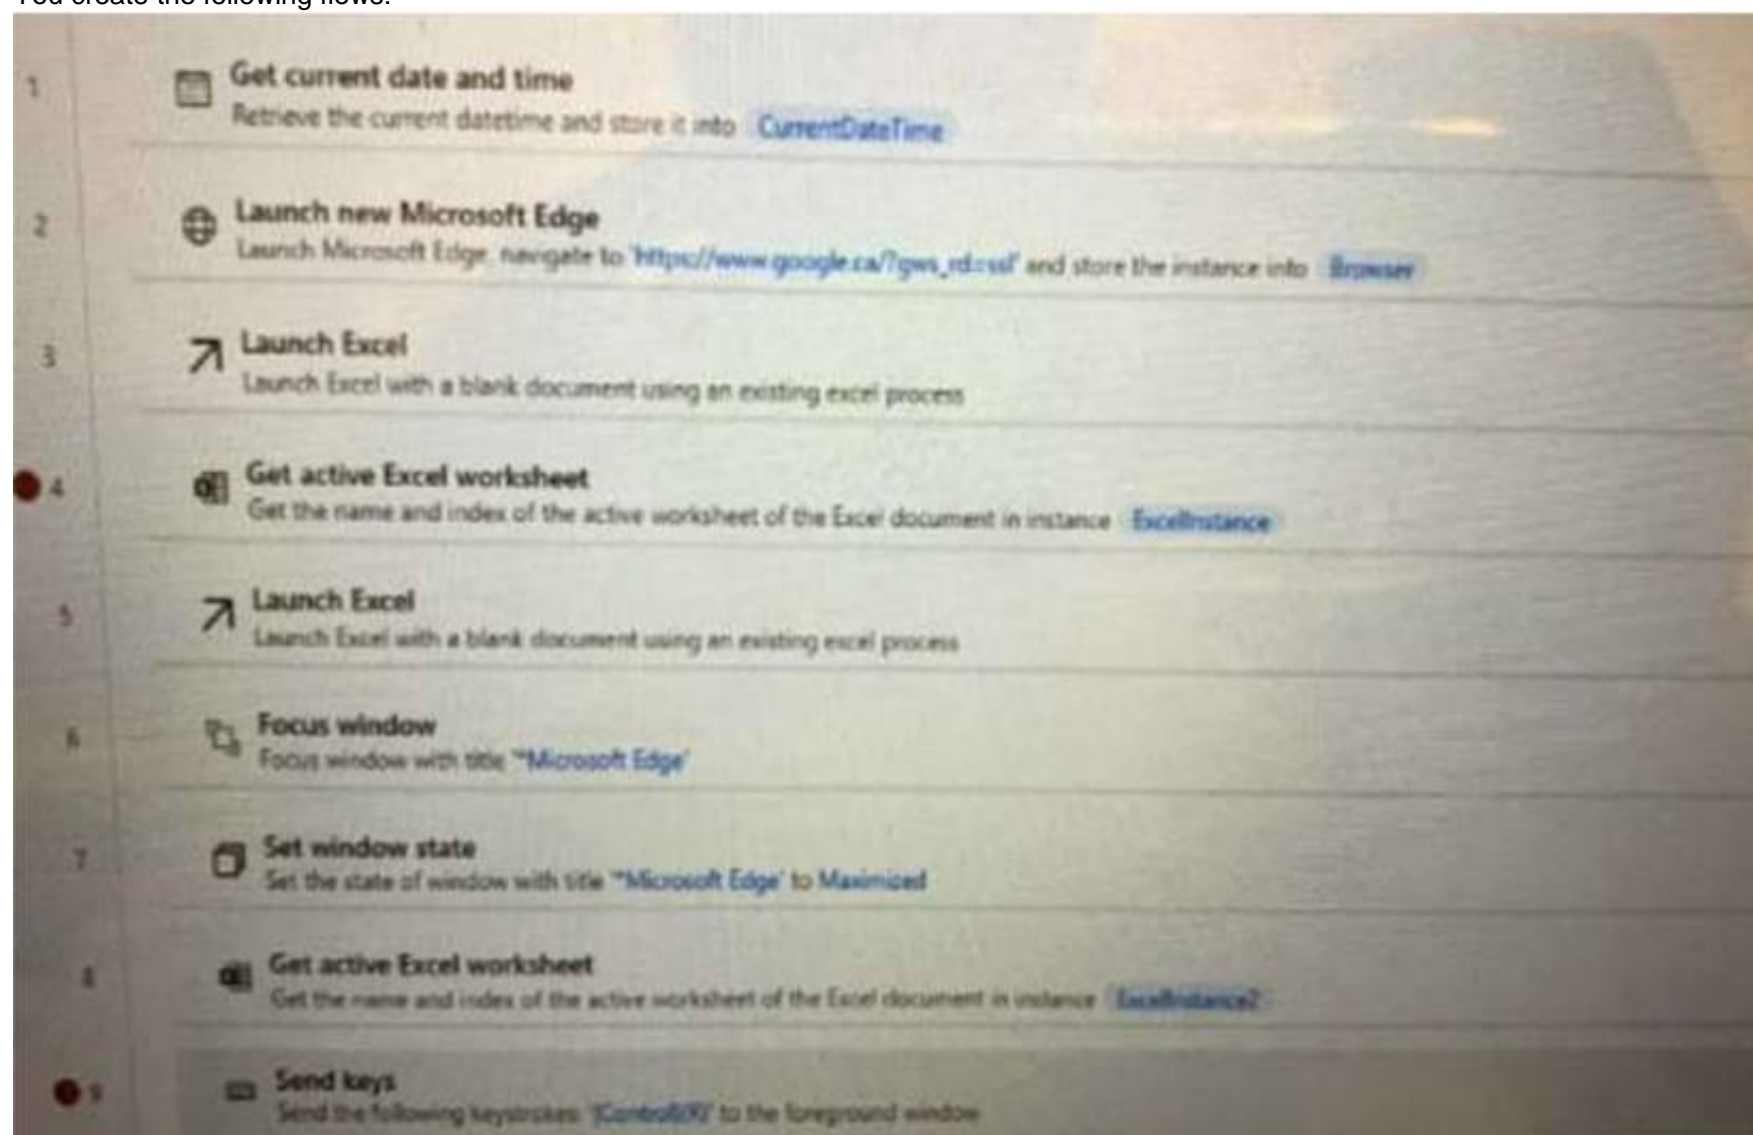

- A. Static results
- B. Run from here
- C. Breakpoints
- D. Configure run after
- E. Run next action

Answer: BCE

NEW QUESTION 12

- (Exam Topic 3)

You create the following flows:

| Questions | Response |
|------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Which line contains a breakpoint? | <div>1</div> <div>2</div> <div>3</div> <div>4</div> <div>5</div> |
| To which window does the action at step 9 send keystrokes? | <div>the Edge window launched in step 2</div> <div>the Excel instance launched in step 3</div> <div>the Excel instance launched in step 4</div> |

- A. Mastered
 B. Not Mastered

Answer: A

Explanation:

| Questions | Response |
|------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Which line contains a breakpoint? | <div>1</div> <div>2</div> <div>3</div> <div>4</div> <div>5</div> |
| To which window does the action at step 9 send keystrokes? | <div>the Edge window launched in step 2</div> <div>the Excel instance launched in step 3</div> <div>the Excel instance launched in step 4</div> |

NEW QUESTION 13

- (Exam Topic 3)

You are designing a user interface automation that uses a Power Automate for desktop flow.

The solution must allow you to use wildcard characters including question marks and asterisks to define a window

You need to select the window mode for the automation. Which window mode should you use?

- A. By window UI element
 B. By title and/or class
 C. By window instance/handle
 D. By variable

Answer: D

NEW QUESTION 18

- (Exam Topic 3)

You plan to use a cloud flow.

The flow must be contained within a solution. You need to add the cloud flow to a solution.

Solution; Create a scheduled cloud flow outside of a solution. Add the cloud flow into a managed solution. Does the solution meet the goal?

- A. Yes
 B. No

Answer: A

NEW QUESTION 23

- (Exam Topic 3)

You have a flow that interacts with different SharePoint sites. You add the flow to a solution.

You redeploy the solution to production each time you make a change to the flow. You do not want to change the SharePoint site URL every time you redeploy the solution.

You need to configure the solution. Which solution component should you use?

- A. Environment variable
 B. Web resource
 C. Managed identity
 D. Connection reference

Answer: D

NEW QUESTION 25

- (Exam Topic 3)

You are designing automation processes.
You need to configure the run mode for each automation scenario.
Which run modes should you use? To answer, drag the appropriate run modes to the correct scenarios. Each run mode may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Run modes

Attended

Unattended

Answer Area

Scenario

Automate the transfer of data from a file you save locally in an active user session to an application installed on your machine.

Run 10 credit card checks in parallel in a system without API.

Trigger an automation to update data in a customer relationship management app after an approval process completes.

Run mode

NEW QUESTION 30

- (Exam Topic 3)
You develop automation solutions for a company.
You need to implement actions to meet the company's requirements.
What should you do? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Answer Area

Scenario

You have a desktop flow that is currently in queue.

You have a business-critical desktop flow that runs on a virtual machine. The virtual machine also handles multiple ad-hoc desktop flows.

Requirement

You must ensure that the flow is the next flow to run.

You must ensure that the business-critical flow runs when it is needed.

Action

Move to the top

Change the priority

Cancel and resubmit the flow

Change the priority

Move to the top

Created a scheduled trigger

- A. Mastered
- B. Not Mastered

Answer: A

NEW QUESTION 33

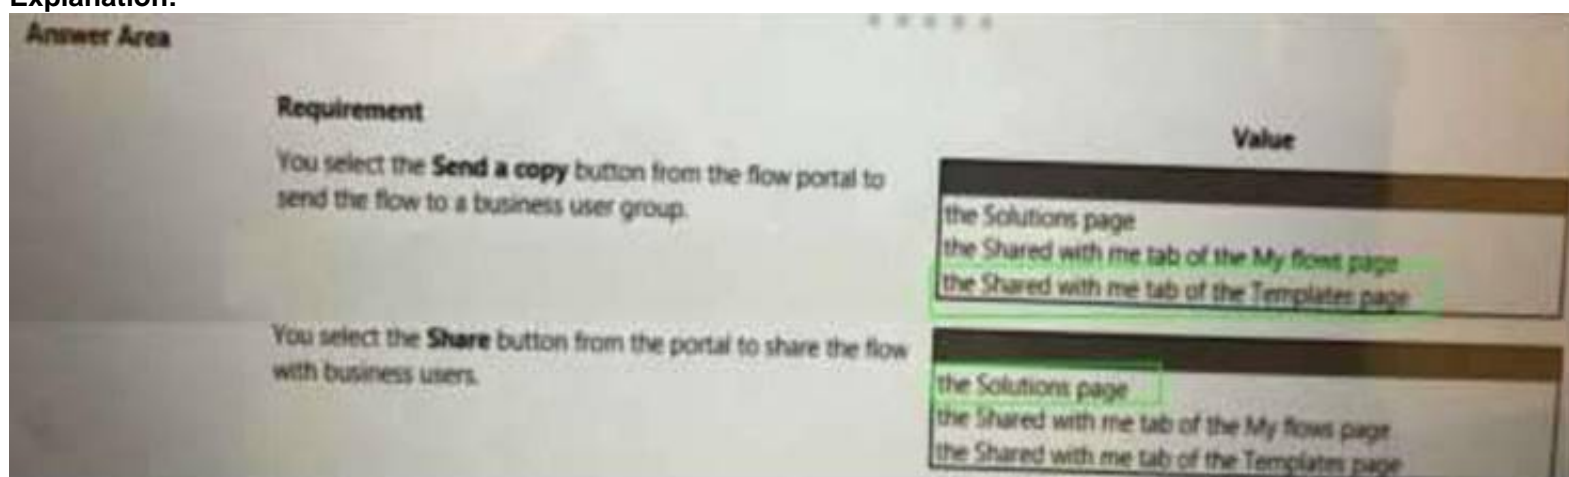

- (Exam Topic 3)
You develop Power Automate flows for a company. You need to help users locate and run the flows. Where should you direct users to find the flows? To answer
NOTE: Each correct selection is worth one point.

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

NEW QUESTION 38

- (Exam Topic 3)

You are creating automation solutions for a company. You create a cloud flow that includes a Scope action. What is the purpose of the Scope action?

- A. Run a group of actions based on conditional input.
- B. Group actions together and ensure that all actions succeed or fail as a group.
- C. Run a group of actions based on input from a switch statement
- D. Terminate a flow run.

Answer: A

NEW QUESTION 42

- (Exam Topic 3)

You develop a desktop flow. The flow performs five actions in sequence.

If an error occurs, you must restart the flow from the first action. You add the five actions to an On block error action.

You need to configure error handling.

Which two actions should you perform? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

- A. Change the exception handling mode to Go to the beginning of the block.
- B. Select Continue flow run.
- C. Select Throw error.
- D. Change the exception handling mode to Go to next action.
- E. Configure an On error condition for the first action.

Answer: ACE

NEW QUESTION 46

- (Exam Topic 3)

You plan to use a cloud flow.

The flow must be contained within a solution. You need to add the cloud flow to a solution.

Solution: Create an instant cloud flow outside of a solution. Add the cloud flow into a new unmanaged solution. Does the solution meet the goal?

- A. Yes
- B. No

Answer: A

NEW QUESTION 49

- (Exam Topic 3)

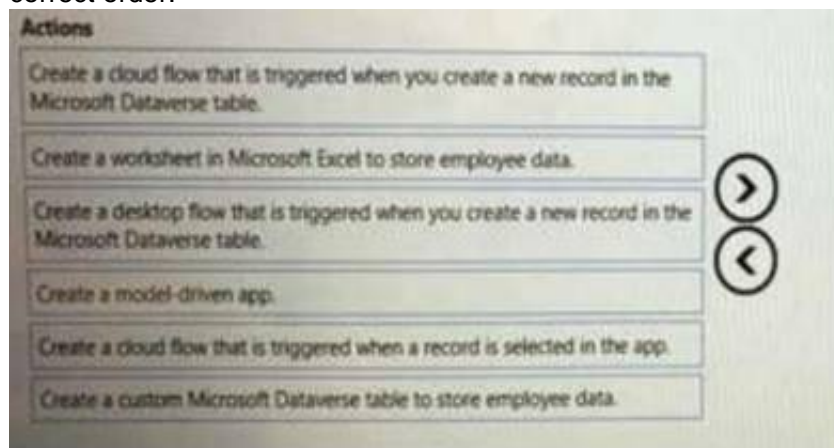

A company hires you to develop a solution that helps the company manage new hires. Users will enter information about the new employee into an app and the app will save the information to a database.

The app must be simple to use and must rely on a data model. You must implement a workflow that automatically notifies the IT department when new employee

records are created in the database.

You need to create the solution.

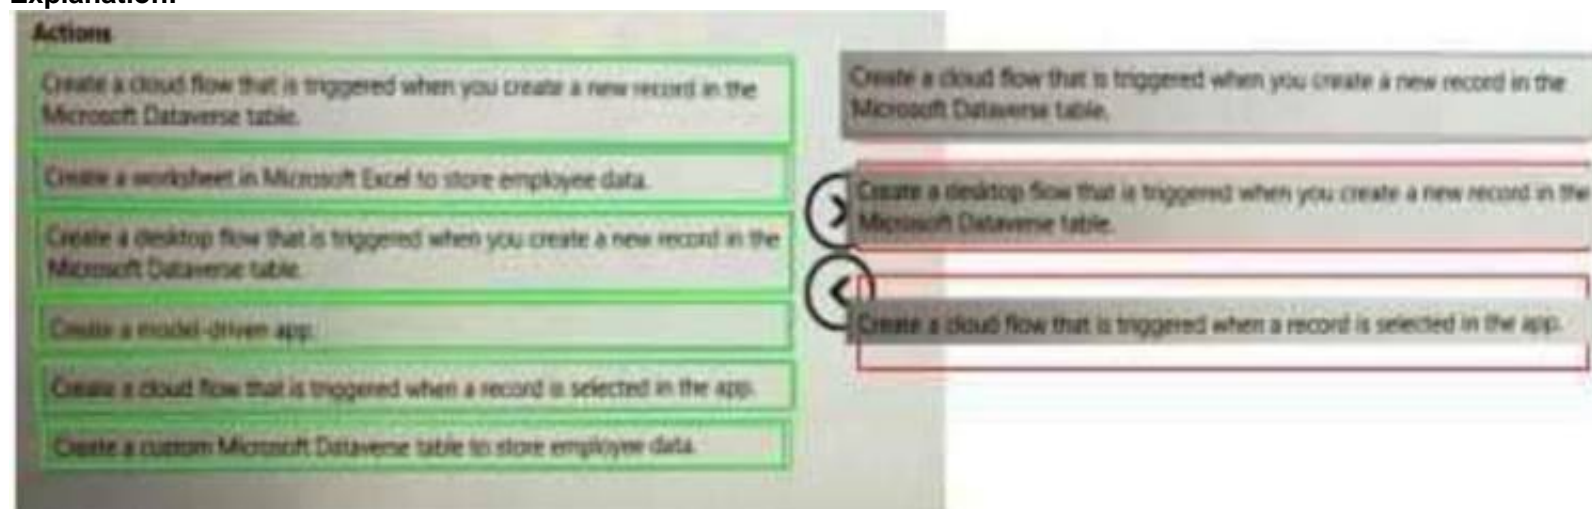

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

NEW QUESTION 54

- (Exam Topic 3)

You have a desktop flow that interacts with a desktop-based application. You plan to enter data into each field by using the Send keys action.

You test the flow. The Send keys action runs successfully but the input fields are empty. You need to add a step before the Send keys action to resolve the issue.

Which two steps can you use? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

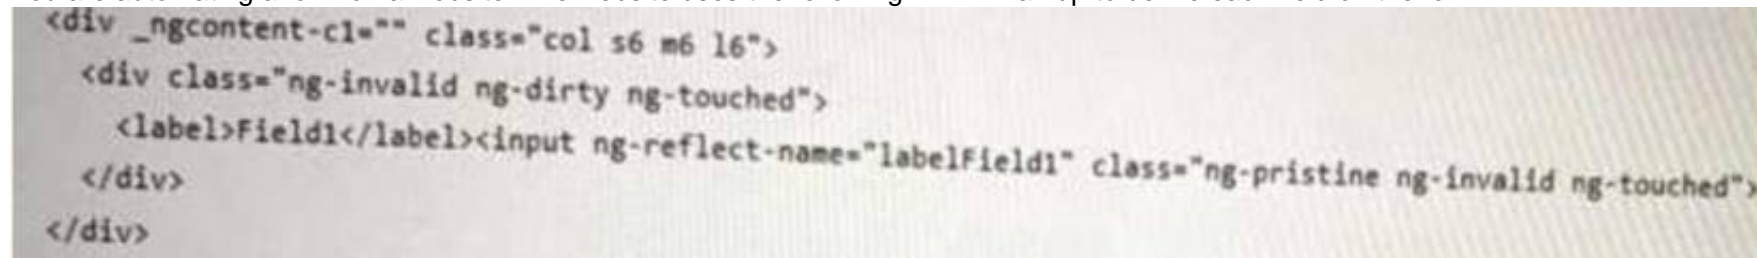

- A. Use the Wait for window action.
- B. Set the key state.
- C. Use the Focus window action.
- D. Set the window state.
- E. Use the Wait for mouse action

Answer: DE

NEW QUESTION 59

- (Exam Topic 3)

You are automating a form on a website. The website uses the following HI ML markup to define each field on the form:

The label for each field is unique in the form. You need to write data to the form.

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Answer Area

| Statement | Yes | No |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|-----------------------|
| You configure the following selector: input[ng-reflect-name="labelField1"] The automation will add data to the form. | <input type="radio"/> | <input type="radio"/> |
| You configure the following selector: div:has(label:contains("Field1")) > input The automation will add data to the form. | <input type="radio"/> | <input type="radio"/> |
| You add the Run JavaScript function on web page action to the flow: <pre>function ExecuteScript() { \$("div:contains('Field1') > input") .val("Field's 1 value") }</pre> The action adds data to the form. | <input type="radio"/> | <input type="radio"/> |

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Answer Area

| Statement | Yes | No |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|----------------------------------|
| You configure the following selector: input[ng-reflect-name="labelField1"] The automation will add data to the form. | <input checked="" type="radio"/> | <input type="radio"/> |
| You configure the following selector: div:has(label:contains("Field1")) > input The automation will add data to the form. | <input checked="" type="radio"/> | <input type="radio"/> |
| You add the Run JavaScript function on web page action to the flow: <pre>function ExecuteScript() { \$("div:contains('Field1') > input") .val("Field's 1 value") }</pre> The action adds data to the form. | <input type="radio"/> | <input checked="" type="radio"/> |

NEW QUESTION 63

- (Exam Topic 3)

You need to design automation solutions for a company.

What should you implement? To answer, select the appropriate configuration in the answer area. NOTE: Each correct selection is worth one point.

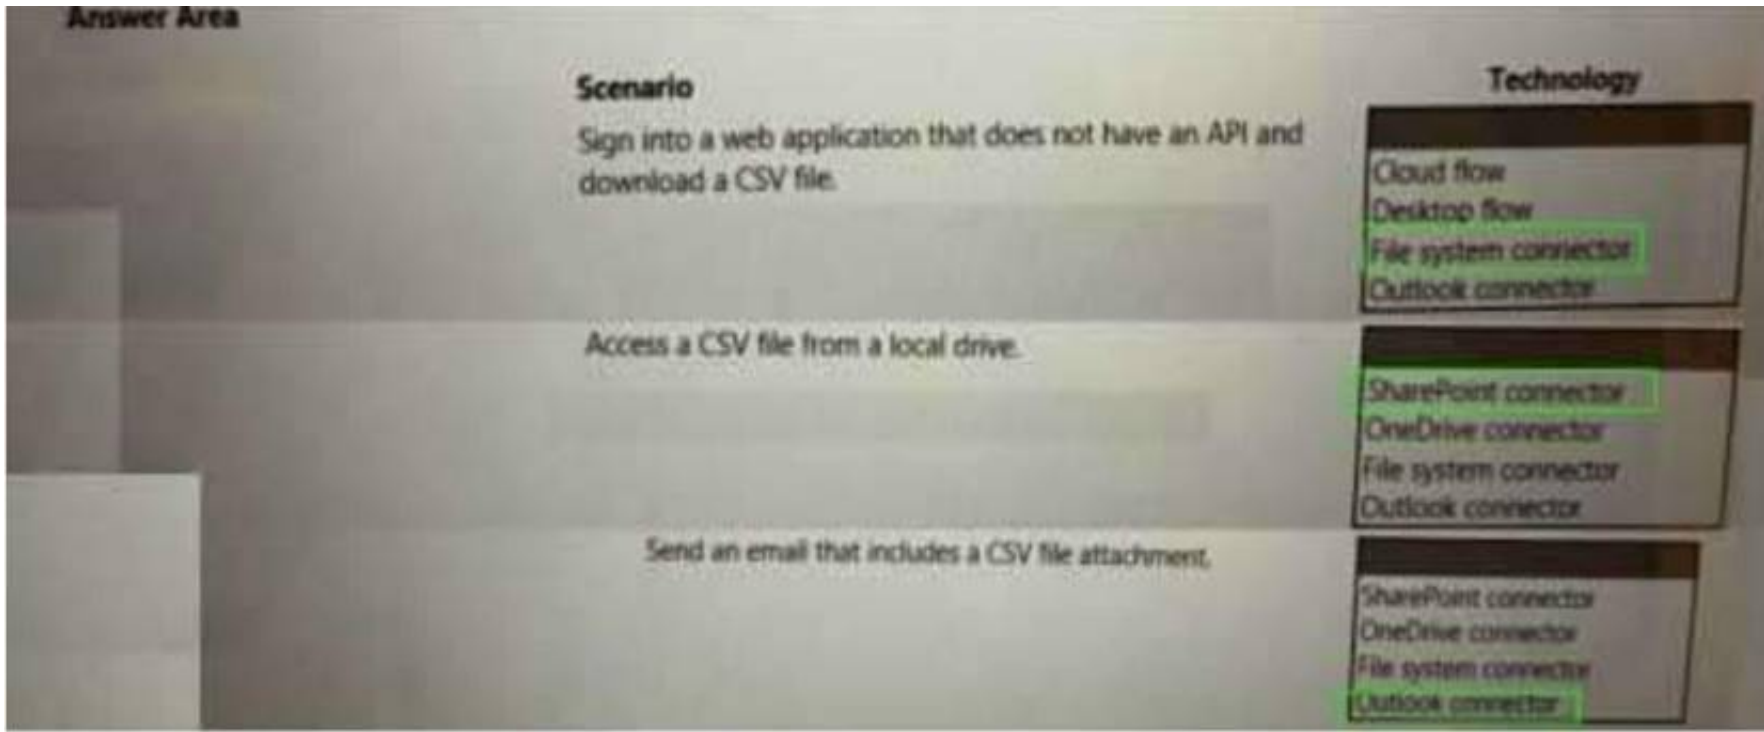

Answer Area

| Scenario | Technology |
|--------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------|
| Sign into a web application that does not have an API and download a CSV file. | <div>Cloud flow Desktop flow File system connector Outlook connector</div> |
| Access a CSV file from a local drive. | <div>SharePoint connector OneDrive connector File system connector Outlook connector</div> |
| Send an email that includes a CSV file attachment. | <div>SharePoint connector OneDrive connector File system connector Outlook connector</div> |

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

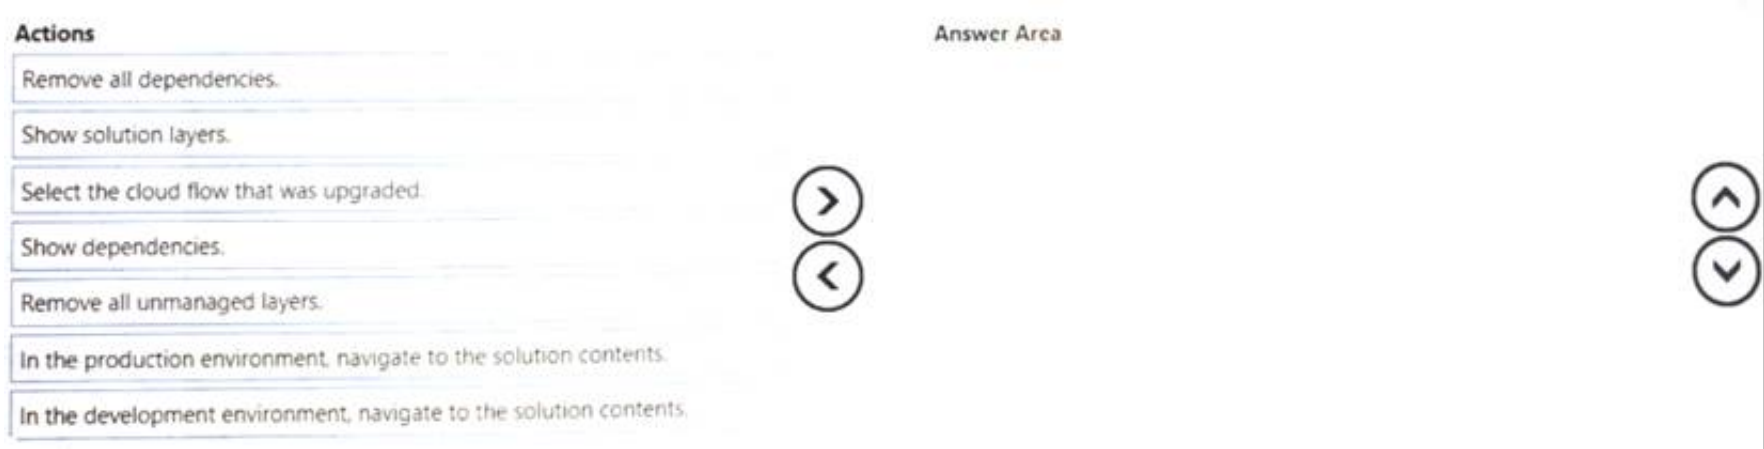

NEW QUESTION 68

- (Exam Topic 3)

You deploy a cloud flow to a production environment. You make changes to the cloud flow in a development environment. You import the updated solution to the production environment. You observe that the cloud flow is not updated. You need to resolve the issue.

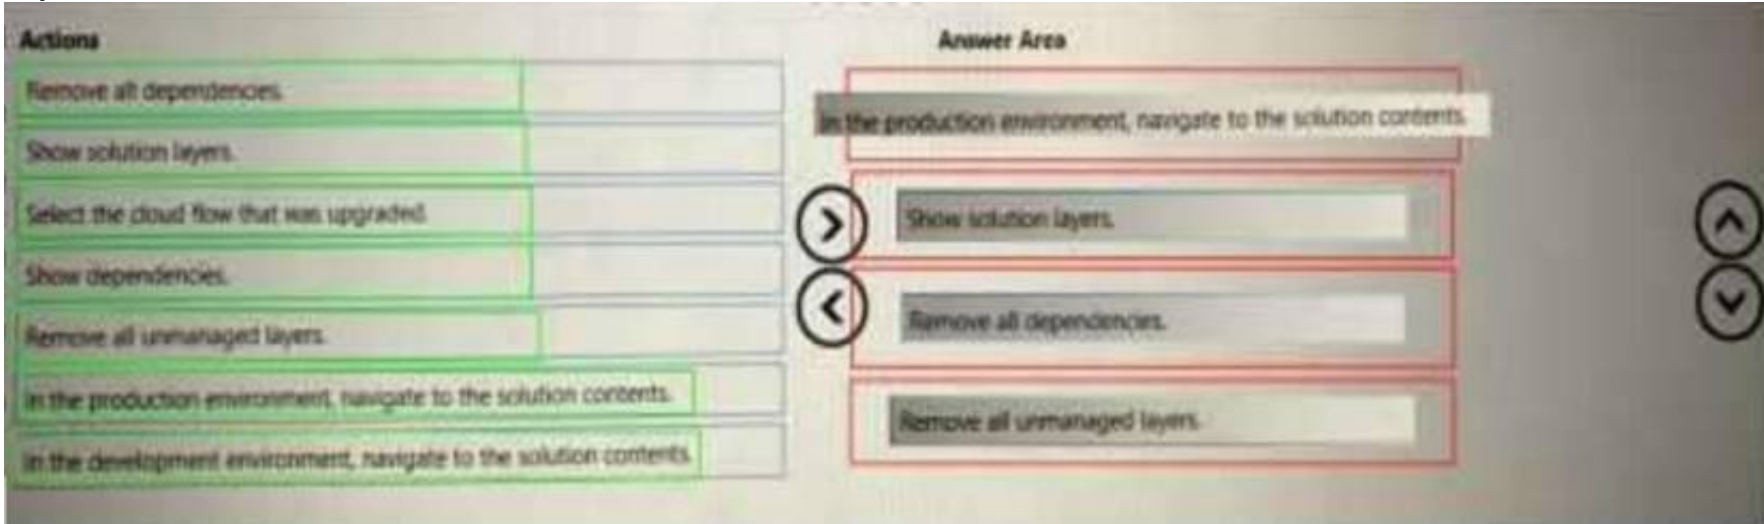

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

NEW QUESTION 71

- (Exam Topic 3)

A company plans to implement AI models to perform business processes. You need to determine whether to use prebuilt or custom AI models. Which type of model should you use for each scenario? To answer, drag the appropriate model types to the correct scenarios. Each model may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

| Model types | | Scenario | Model type |
|-------------|--|------------------------------------------------|------------|
| Prebuilt | | Extract information from a receipt. | Model type |
| Custom | | Detect spam emails. | Model type |
| | | Identify the language used in a text document. | Model type |
| | | Extract information from tax documents. | Model type |

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

| Model types | | Scenario | Model type |
|-------------|--|------------------------------------------------|------------|
| Prebuilt | | Extract information from a receipt. | Custom |
| Custom | | Detect spam emails. | Custom |
| | | Identify the language used in a text document. | Prebuilt |
| | | Extract information from tax documents. | Custom |

NEW QUESTION 75

- (Exam Topic 3)

You are designing automation solutions that interact with a desktop application.

You need to select the appropriate UI automation action for each business requirement.

Which automation action should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

| Requirement | UI automation action |
|----------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Retrieve the state from a checkbox in the desktop application. | <div>Get selected checkboxes in window</div> <div>Get details of a UI element in window</div> <div>Get selected radio button in window</div> <div>Extract data from window</div> |
| Bring the desktop application to the foreground. | <div>Focus window</div> <div>Get details of window</div> <div>Get details of a UI element in window</div> <div>Set window state</div> |
| Suspend a process until a specific window opens. | <div>Wait for window</div> <div>Wait for window content</div> <div>Set window state</div> <div>Terminate process</div> |

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Answer Area

Requirement

Retrieve the state from a checkbox in the desktop application.

Bring the desktop application to the foreground.

Suspend a process until a specific window opens.

UI automation action

Get selected checkboxes in window
Get details of a UI element in window
Get selected radio button in window
Extract data from window

Focus window
Get details of window
Get details of a UI element in window
Set window state

Wait for window
Wait for window content
Set window state
Terminate process

NEW QUESTION 76

- (Exam Topic 3)

You plan to create a Microsoft Visio process diagram.

You need to create the diagram and then export the diagram as a Power Automate flow.

Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Create the diagram by using BPMN shapes.

Create the diagram by using standard flowchart shapes.

Name the flow and select **Create Flow**.

Map shapes to flow actions.

Select **Prepare to Export** in the toolbar.

Select **Export to Flow**.

Answer Area

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Actions

Create the diagram by using BPMN shapes.

Create the diagram by using standard flowchart shapes.

Name the flow and select **Create Flow**.

Map shapes to flow actions.

Select **Prepare to Export** in the toolbar.

Select **Export to Flow**.

Answer Area

Select **Prepare to Export** in the toolbar.

Create the diagram by using standard flowchart shapes.

Name the flow and select **Create Flow**.

Create the diagram by using BPMN shapes.

Map shapes to flow actions.
