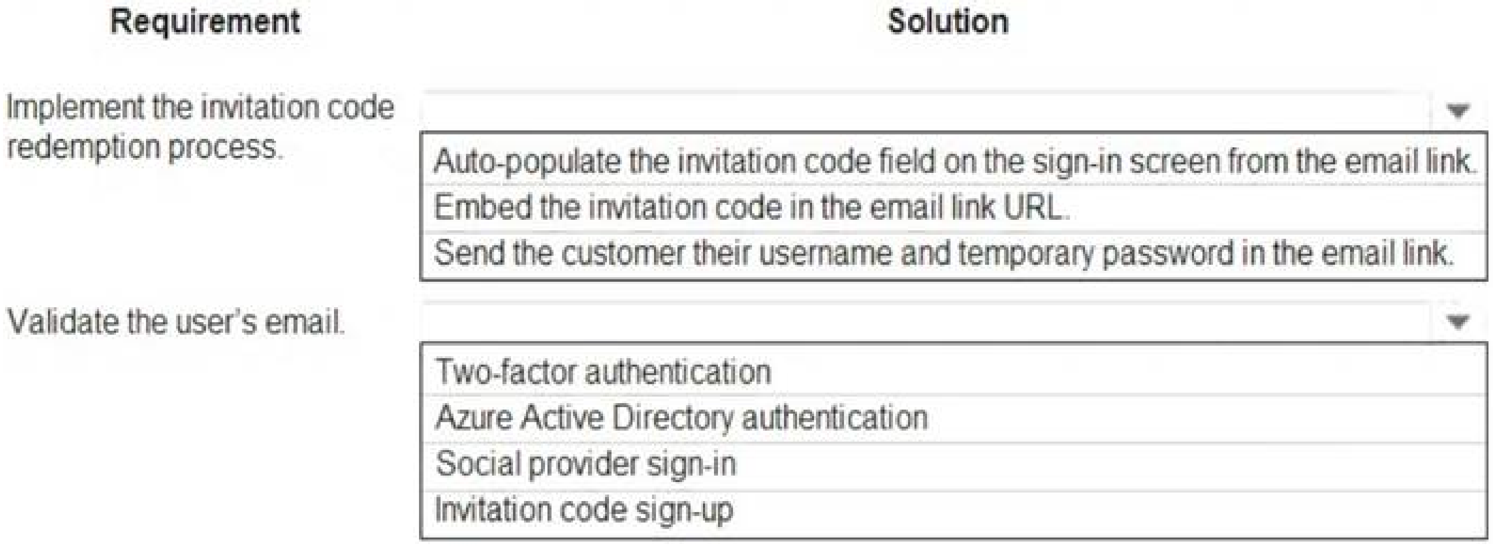
Microsoft

Exam Questions PL-200

Microsoft Power Platform Functional Consultant

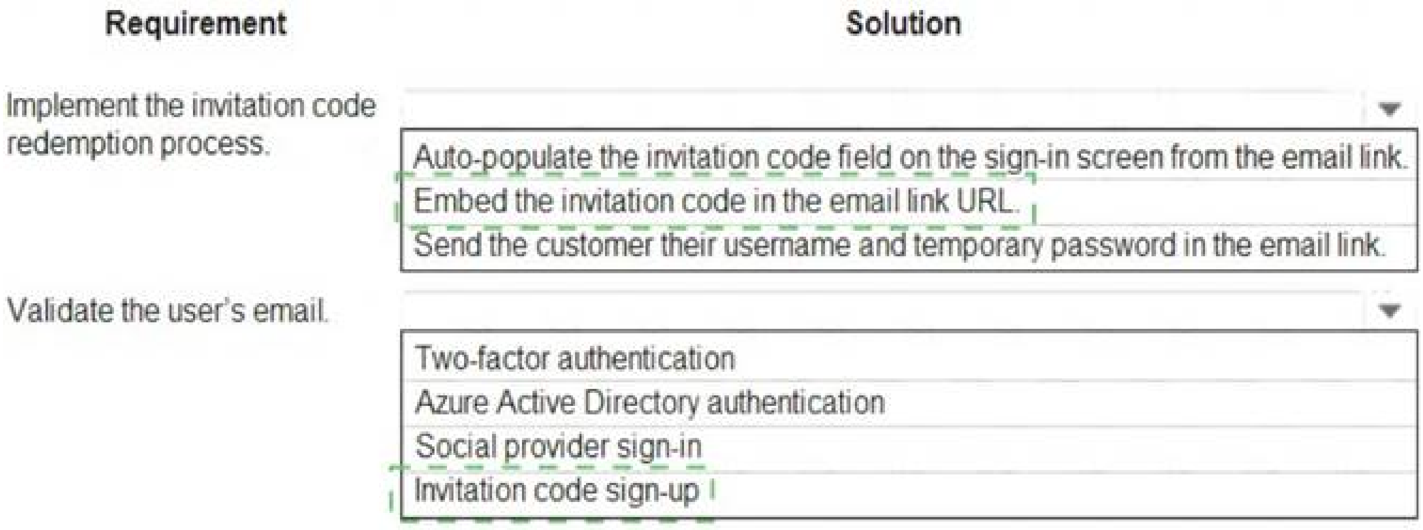
NEW QUESTION 1
- (Exam Topic 1)
You need to design the resort portal's email registration process.
Which solutions should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 2
- (Exam Topic 1)
You need to create the FAQ solution content What should you do first?

A. AI Builder
B. Suggest topics
C. Automate
D. Trigger phrases

Answer: B

Explanation:
You need to make sure there are three main steps need to do while doing import FAQ and add the topic to your bot application.
- Import Suggested Topics from FAQ webpage.
- Add a topic.
- Enable the topics Reference:
https://social.technet.microsoft.com/wiki/contents/articles/53820.power-virtual-agents-faq-chatbot.aspx

NEW QUESTION 3
- (Exam Topic 1)
You need to embed the check-in solution into the communication solution. To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

What must you use to embed the check-in solution?

- Visual Studio
- Power Apps Web Studio
- AI Builder
- Common Data Service

Where must the check-in solution be available within the communication solution?

- chat section of the solution
- Microsoft 365 Apps selection grid
- in an embedded webpage
- in a tab

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, application, Word Description automatically generated
Box 1: Power Apps Web Studio
Scenario: The check-in solution must continue to function if there are internet issues. If the self-service kiosks are not available, staff must be able to use the check-in solution from within their communication solution.
PowerApps Studio is a browser application used to edit your apps. PowerApps Studio includes a
drag-and-drop canvas in the center of the screen and a screen or object list pane on the left. Properties, Rules, and Advanced Properties for selected screens or controls are displayed in the right pane.
Box 2: in a tab
You can customize the Teams experience by adding Power Apps canvas apps to your channels in Teams using the PowerApps tab.

NEW QUESTION 4
- (Exam Topic 1)
You need to design the chat solution to answer the inquiry from Guest1.
Which three components can you use? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

A. Variables
B. Escalations
C. Smart match
D. Synonyms
E. Topics

Answer: ACD

Explanation:
Scenario: Guest1 inquires about snow conditions several times during each day of their stay.
Variables let you save responses from your customers in a conversation with your bot so that you can reuse them later in the conversation.
Synonyms allows you to manually expand the matching logic by adding synonyms. Smart match and synonyms seamlessly work together to make your bot even smarter.
Reference:
https://docs.microsoft.com/en-us/power-virtual-agents/authoring-variables https://docs.microsoft.com/en-us/power-virtual-agents/advanced-entities-slot-filling

NEW QUESTION 5
- (Exam Topic 2)
You need to configure a Power Automate flow to send the email with the results to the client. What should you use? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Requirement	Control
Process qualification records for a service request.	Switch Condition Apply to Each
Evaluate a qualification.	Do until Condition Apply to Each

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Box 1: Apply to each
You can use the Apply to each action to process a list of items periodically.
Box 2: Do until
The Do Until control in Power Automate is a loop that repeatedly forces an action until a certain condition becomes true.
Reference: https://docs.microsoft.com/en-us/power-automate/apply-to-each https://blog.enterprisedna.co/do-until-loop-control-in-power-automate/

NEW QUESTION 6
- (Exam Topic 2)
You need to be able to move a Power Automate desktop flow used in the verification process to the testing environment.
What should you do?

A. Share a copy of the desktop flow with a member of internal IT.
B. Use the Export option in the flow to get the flow identifier and provide it to internal IT.
C. Send a copy of the desktop flow to a member of internal IT.
D. Create the desktop flow in a solution and provide it to internal IT.

Answer: D

Explanation:
Internal IT reports that the solution import to the test environment failed because of missing dependencies related to the flow for completing service requests.
Flows with PowerApps steps
Flows that were created via Power Automate in the PowerApps menu or flows that have PowerApps steps added have a different issue then other Power Automate flows. As of the writing of this blog these flows are not able to be imported into another environment. This means that if you create flows with Power Apps steps within them you will need to recreate them in your destination environment.
Reference: https://www.spyglassmtg.com/blog/power-platform-solution-export-and-import-issues

NEW QUESTION 7
- (Exam Topic 2)
You create a desktop flow to interact with a certification authority's website. You need to get data in and out of the desktop flow.
How should you set up the input and output parameters? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Parameter direction	Configuration
Inbound	Copy and paste qualification data into the desktop flow. Run a cloud flow from the Dataverse qualification record to send data to the desktop flow. Connect by using the Dataverse connector from the desktop flow and retrieve the qualification data.
Outbound	Copy and paste the verification data into the qualification record. Send data from the desktop flow to a cloud flow to update the qualification record. Connect by using the Dataverse connector from the desktop flow and the qualification record

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Box 1: Connect by using the Dataverse connector from the desktop flow and retrieve the qualification data. All information sent by clients for services is stored in Microsoft Dataverse with a model-driven app as the
interface.
Qualification verification
The qualification table contains details about an individual school degree, professional qualifications, and other qualifications that must be verified.
A service request can have one or more Qualification records associated with it.
Record status is pending verification until the initial team member finishes, at which point the member changes the status to Complete.
When all qualification records related to a service request are verified either by manual or automated processes, the results are made available to ADatum Corporation's client.
In the rare event that results are questioned, a new service request is created and verified independently of the previous work that took place.
Box 2: Send data from the desktop flow to a cloud flow to update the qualification record. To complete a service request, users perform the following actions:
Send a templated email by using Microsoft Outlook to the client after all qualifications for a service request are checked.
Change the service request status to Completed. Currently, service requests do not indicate when all Qualification records are addressed.

NEW QUESTION 8
- (Exam Topic 2)
You need to add the missing components to the Verification Process Automation solution. Which two components should you add? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

A. Service Request statuscode field
B. Dataverse connection reference
C. Qualification statuscode field

D. On-premises data gateway reference
E. Outlook connection reference

Answer: CE

Explanation:
C: A service request can have one or more Qualification records associated with it. E: The new process for completing a service request must automate the following:
• Set the Service Request record status to Complete when work on all Qualification records is finished.
• Send an email to the client with the results when the service request is completed. The email must list each qualification as either Valid or Not Valid, depending on the verification.

NEW QUESTION 9
- (Exam Topic 3)
You set up a new instance of Dynamics 365 for Customer Service. Users report a variety of issues working with cases on mobile devices. You need to configure the mobile app to be able to view cases. NOTE: Each correct selection is worth one point.

Scenario	Action needed
Users cannot see case records on mobile devices.	Configure mobile settings set on the case entity level. Configure mobile settings at the field level within the case form. Configure a security role in the mobile permission set for appropriate users.
Users can open cases but cannot see the subject of the case.	Configure mobile settings set at the case entity level. Configure mobile settings at the field level within the case form. Configure a security role in the mobile permission set for appropriate users.
Users report that they cannot access the system from the Dynamics 365 mobile app.	Configure mobile settings set at the case entity level. Configure mobile settings at the field level within the case form. Configure a security role in the mobile permission set for appropriate users.

A. Mastered
B. Not Mastered

Answer: A

Explanation:
* 1. User is able to login but can't see Case Records --> "Configure Mobile Settings on Case Entity Level"
* 2. Users can open cases but cannot see the subject of the case - “configure mobile settings at the field level within the case form
* 3. User reports that they cannot access the system from Dynamics 365 mobile app --> Configure a security role in the mobile permission set of the appropriate user
https://docs.microsoft.com/en-us/dynamics365/customer-engagement/mobile-app/set-up-dynamics-365-for-phon

NEW QUESTION 10
- (Exam Topic 3)
You are a Dynamics 365 administrator for a veterinarian clinic.
On the client appointment form, there is a dropdown field for clients to select their type of pet If a client selects the option Other, the veterinarian wants a text field to appear so that additional details can be added.
You need to create a dynamically visible field. What should you configure?

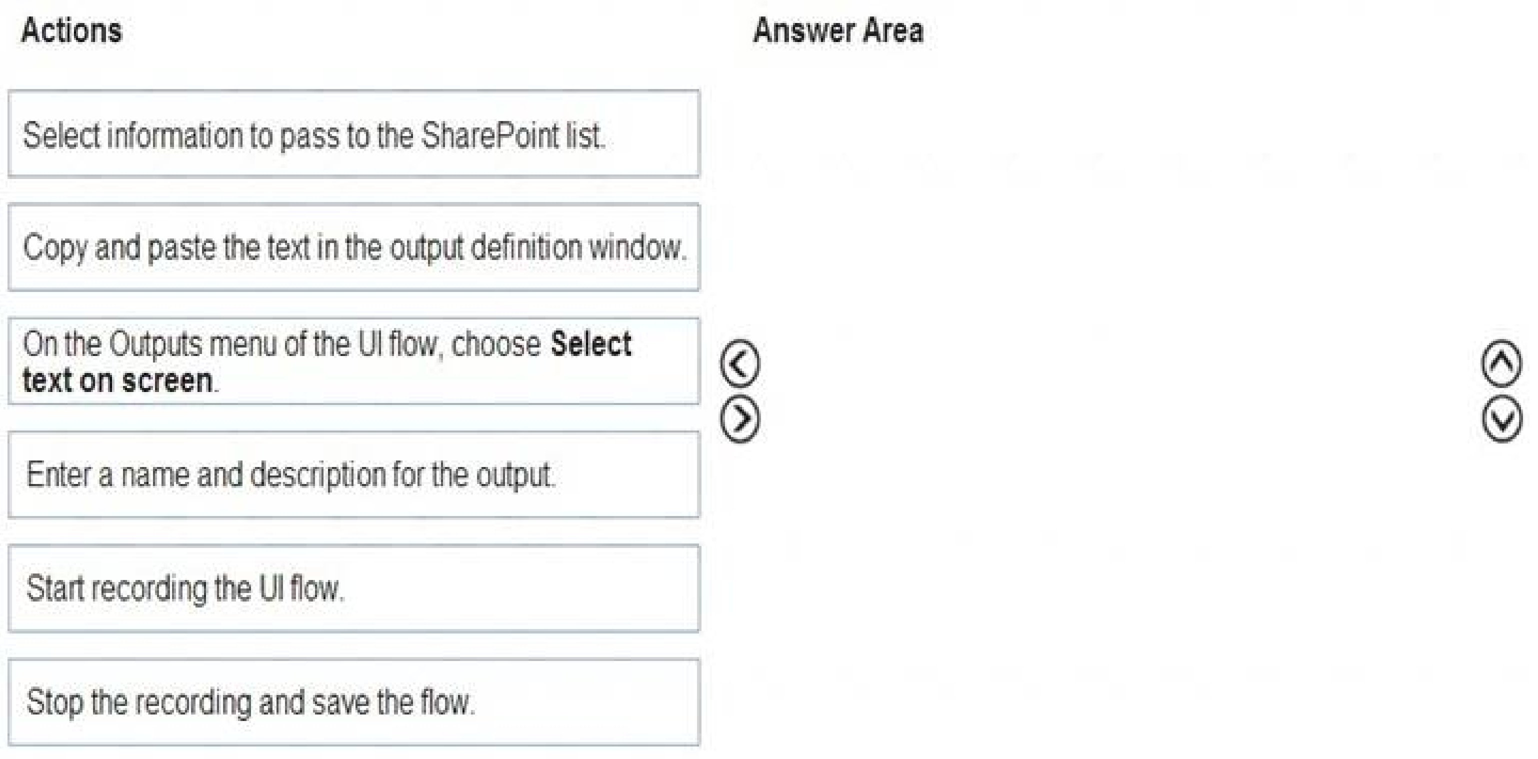
A. filed visibility on the form
B. business process flow
C. workflow
D. business rule

Answer: D

Explanation:

References:
https://www.sherweb.com/blog/dynamics-365/configuring-business-rules-within-microsoft-dynamics-365-crm/

NEW QUESTION 10
- (Exam Topic 3)
You are designing a desktop user interface (UI) flow. The UI flow automates legacy software.
You need to prepare data for transfer to a Microsoft SharePoint list.
Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.



A. Mastered
B. Not Mastered

Answer: A

Explanation:
Reference:
https://docs.microsoft.com/en-us/power-automate/ui-flows/inputs-outputs-desktop#use-outputs-to-extract-inform

NEW QUESTION 12
- (Exam Topic 3)
A company uses three apps to complete several business processes.
You need to identify solutions to help the company perform regression testing when the apps are updated. Which two tools should you use? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

A. Power Automate automated flow
B. Windows recorder (V1)
C. Power Automate desktop flow
D. Windows Steps Recorder

Answer: BD

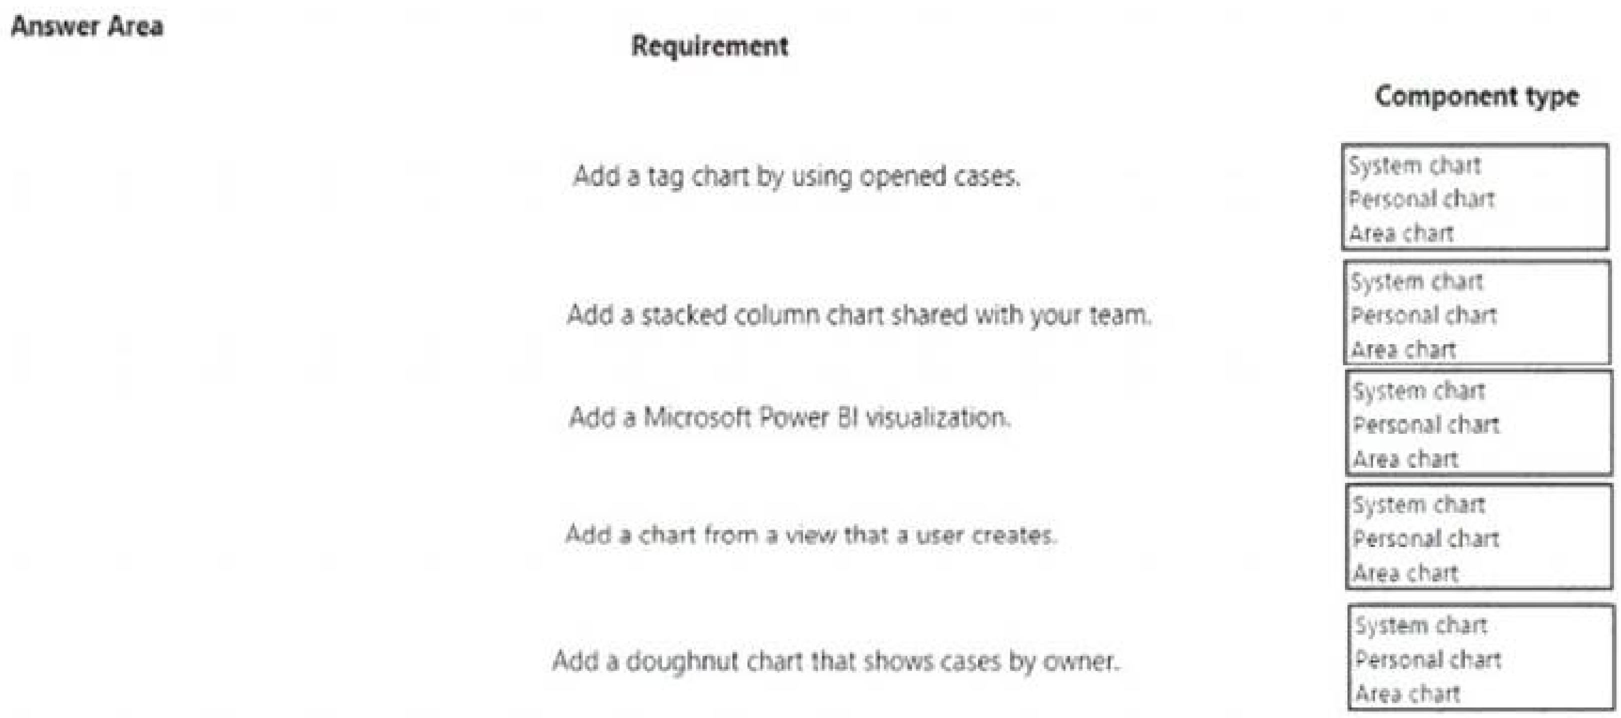
NEW QUESTION 14
- (Exam Topic 3)
You create and publish a Power Bl report that contains an embedded canvas app. The report will be used by multiple people.
The canvas app has an issue that must be corrected. You update the canvas app.
You need to ensure that the updated canvas app is available in the published Power Bl report. What should you do?

A. Publish the Power Bl report from Power Bl Desktop.
B. Manually refresh the data source on the published Power Bl report.
C. Publish the Power Bl report from Power Bl Desktop and reshare to any users.
D. Publish the canvas app.

Answer: B

Explanation:
- If you change the data fields associated with the visual, you must edit the app from within the Power BI service by selecting the ellipsis (...) and then selecting Edit. Otherwise, the changes won't be propagated
to Power Apps, and the app will behave in unexpected ways.
- The Power Apps visual can't trigger a refresh of Power BI reports and Power BI data sources from within Power BI Desktop. If you write back data from the app to the same data source as the report, your changes won't be reflected immediately in Power BI Desktop. Changes are reflected on the next scheduled refresh.
Reference:
https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/powerapps-custom-visual#limitations-of-the-po

NEW QUESTION 15
- (Exam Topic 3)
You ate a Dynamics 365 help desk administrator
You need to create a dashboard that displays information on help desk cases that ate handled each week. Which dashboard components should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

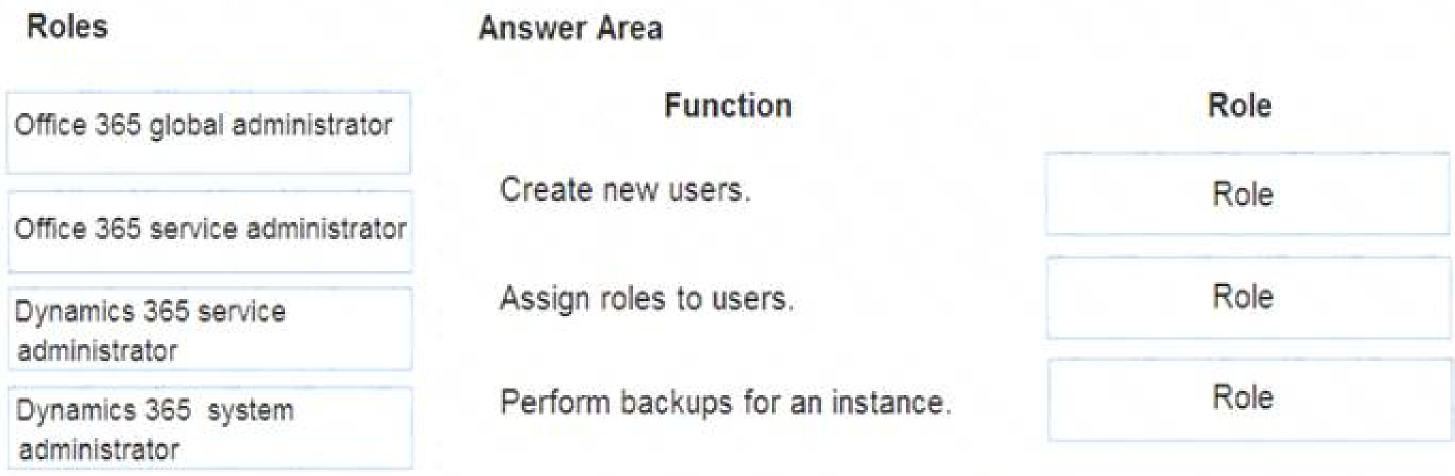


A. Mastered
B. Not Mastered

Answer: A

Explanation:
System Personal Personal
Personal System
https://docs.microsoft.com/en-us/dynamics365/customer-engagement/basics/add-edit-power-bi-visualizations-da

NEW QUESTION 16
- (Exam Topic 3)
You need to recommend a role for users to perform several required tasks. The solution must use the principle of least privilege.
Which roles should you recommend? To answer, drag the appropriate roles to the correct functions. Each role may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.



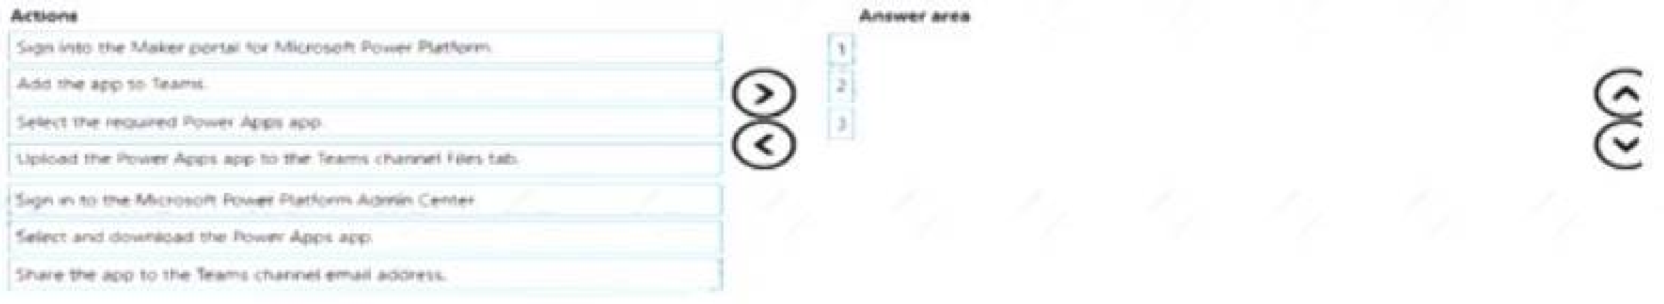
A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application Description automatically generated
Box 1: Office 365 Global Administrator
You may think that the Dynamics 365 system administrator would have power to do all the actions needed to manage Dynamics 365, but this is not the case. What's different in Microsoft cloud deployments is that licenses and user accounts are managed in Office 365 by an Office 365 Global Administrator. This role is analogous to a network administrator for an on premises deployment. The Global Administrator is the only role to create new user accounts and assign subscription licenses for Dynamics 365 (and other Office 365 apps such as Skype, Power BI and SharePoint).
Box 2: Dynamics 365 system administrator
The Dynamics 365 system administrator may assign roles and permissions to the Dynamics 365 user within an instance of Dynamics 365. The Dynamics 365 system administrator also controls all the settings in Dynamics 365.
Box 3: Dynamics 365 admin
The Dynamics 365 admin can perform backups and restores. Reference:
https://docs.microsoft.com/en-us/power-platform/admin/use-service-admin-role-manage-tenant
https://community.dynamics.com/crm/b/govandthecity/posts/understanding-dynamics-365-and-office-365-admi

NEW QUESTION 21
- (Exam Topic 3)
A company creates a canvas app.
The company plans to make the app available in Microsoft Teams. Only employees will be allowed to use the app.
You need to add the app to Teams.
Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the

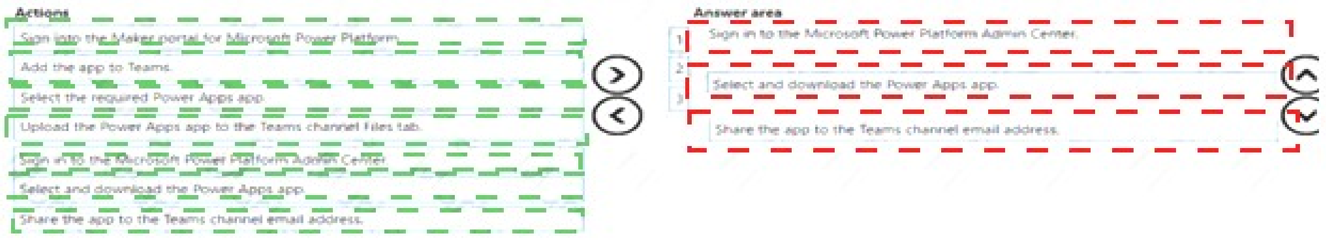
correct order.



A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 22
- (Exam Topic 3)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You are creating Power Virtual Agents chatbot that captures demographic information about customers. The chatbot must determine the group a customer belongs to based on their age. The age groups are:

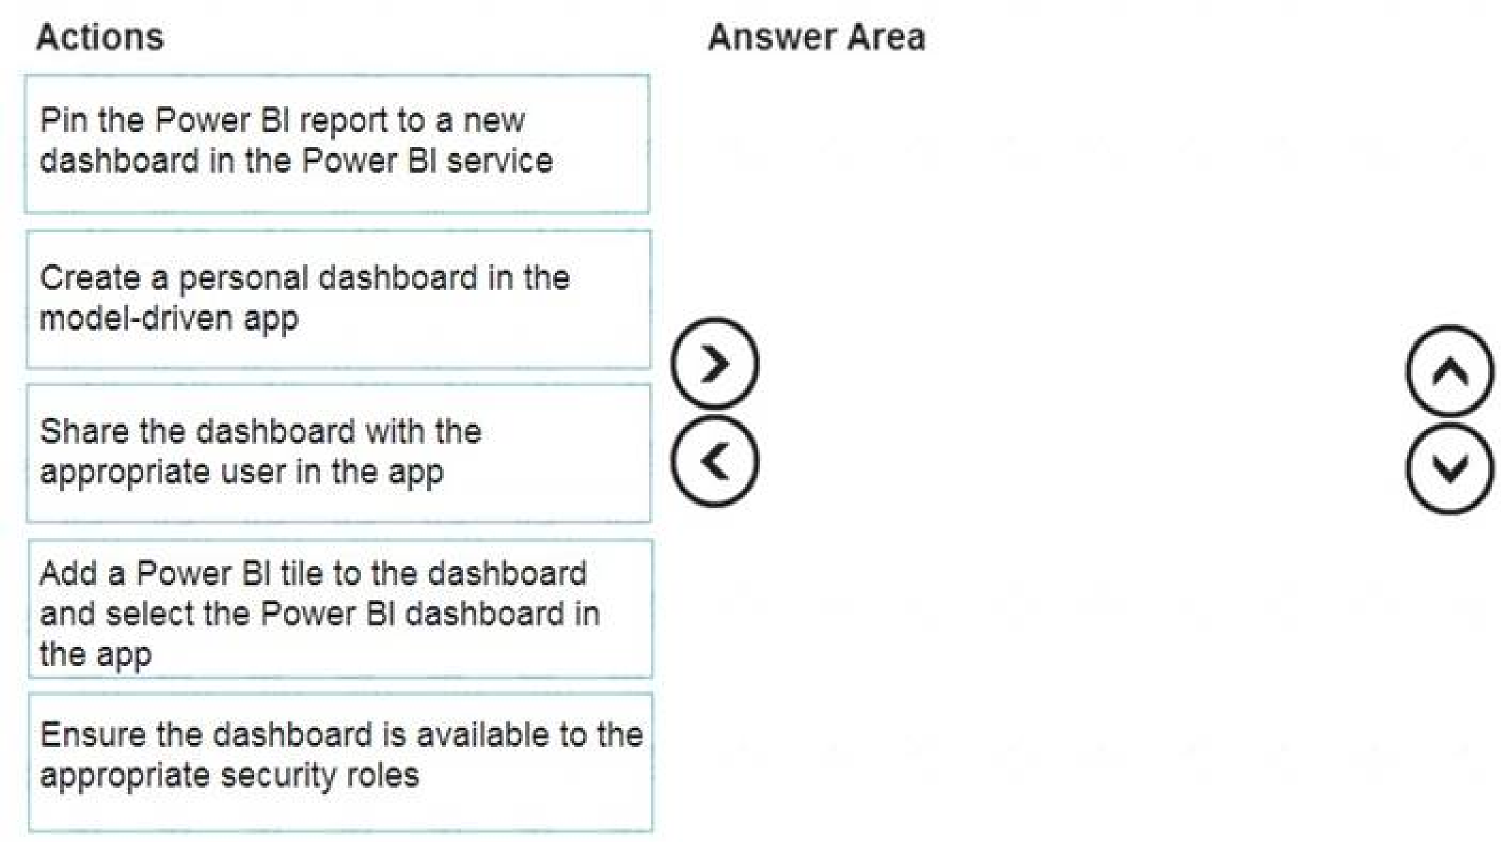
- 0 - 17
- 18 - 25
- 26 - 35
- 36 - 55
- 55 - 100

You need to configure the chatbot to ask a question that can be used to determine the correct age group. Solution: Create a custom Age group entity and synonyms for each individual age in the corresponding item.
Use Age group for Identify in the question.
Does this meet the goal?

A. Yes
B. No

Answer: A

NEW QUESTION 27
- (Exam Topic 3)
You create a report by using Power BI Desktop and publish the report to the Power BI service. You enable Power BI visualization embedding in a model-driven app.
You need to configure the model-driven app to display a Power Bi tile
Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.



A. Mastered
B. Not Mastered

Answer: A

Explanation:
* 1.- Add a Power BI tile to the dashboard and select the power BI dashboard in the app 2.- Create a new Power BI personal dashboard in the model-driven app
* 3.- Ensure the dashboard is available to the appropriate security roles 4.- Pin the power BI report to a new dashboard in the Power BI service

NEW QUESTION 30
- (Exam Topic 3)
A company is planning to create a Power Virtual Agents bot. The bot has the following requirements:
• The bot must provide address information for the company.
• The bot must be available from Microsoft Teams and from the internet website of the company. You need to configure the bot. Which component should you use?

A. Skill
B. Composer
C. Template
D. Channel

Answer: D

NEW QUESTION 32
- (Exam Topic 3)
A company uses model-driven apps.
Users in the sales department enter the first name, last name, and phone number of customers in the app. The users request a single screen in the app to enter the customer data.
You need to configure the app. What should you do?

A. Create a canvas app.
B. Modify the site map.
C. Create a Power Automate flow.
D. Use a Power Virtual Agents app.

Answer: A

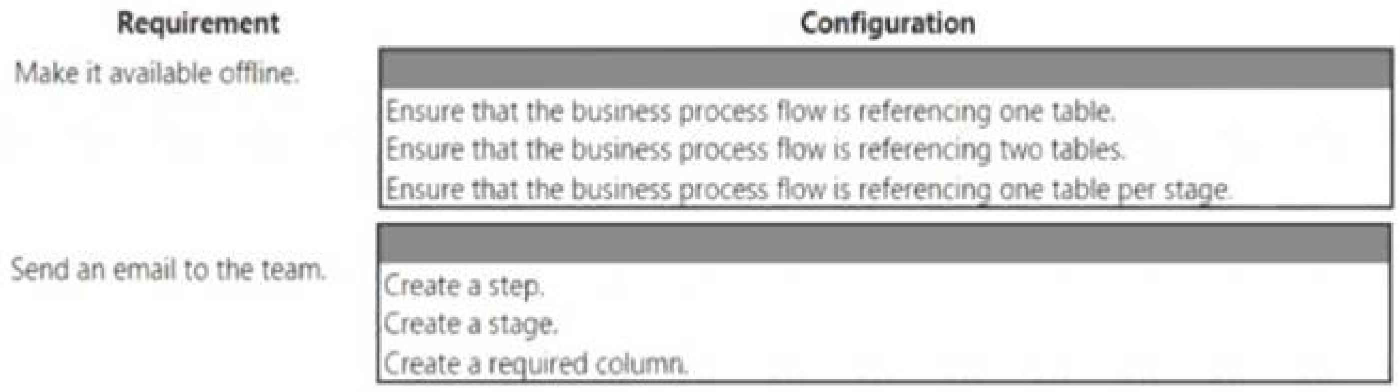
NEW QUESTION 33
- (Exam Topic 3)
You create a report by using Power BI Desktop and a Power BI dataset that is connected to Azure SQL
Database.
Multiple groups of employees will use the report.
You need to ensure that each group of employees can see only data that pertains to their group. What should you do?

A. Create and assign file security profiles.
B. Create and assign Common Data Service security roles.
C. Create and assign roles by using row-level security.

Answer: C

Explanation:
Reference:
https://docs.microsoft.com/en-us/power-bi/collaborate-share/service-share-dashboards

NEW QUESTION 37
- (Exam Topic 3)
You are creating a business process flow for a Power Apps app. The business process flow must meet the following requirements:
• Must be available offline.
• Send an email to the team when a record is created. You need to set up business process flow.
What should you do? To answer, select the appropriate options in the answer area. Each correct selection is worth one point



A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application Description automatically generated

NEW QUESTION 38
- (Exam Topic 3)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You administer the Microsoft 365 and Power Platform environments for Contoso, Ltd. The company has a model-driven app that is used to track customer interactions with employees. The app uses standard table types for customers. A user named Elisabeth Rice signs in to the app by using the following sign in name: Elisabeth.Rice@contoso.com.
After marriage, Elisabeth changes her legal name to Elisabeth Mueller.
You need to update the sign in name for the user without losing any application history.
Solution: Delete the user account in the Power Platform admin portal and recreate the account by using the new name.
Does the solution meet the goal?

A. Yes
B. No

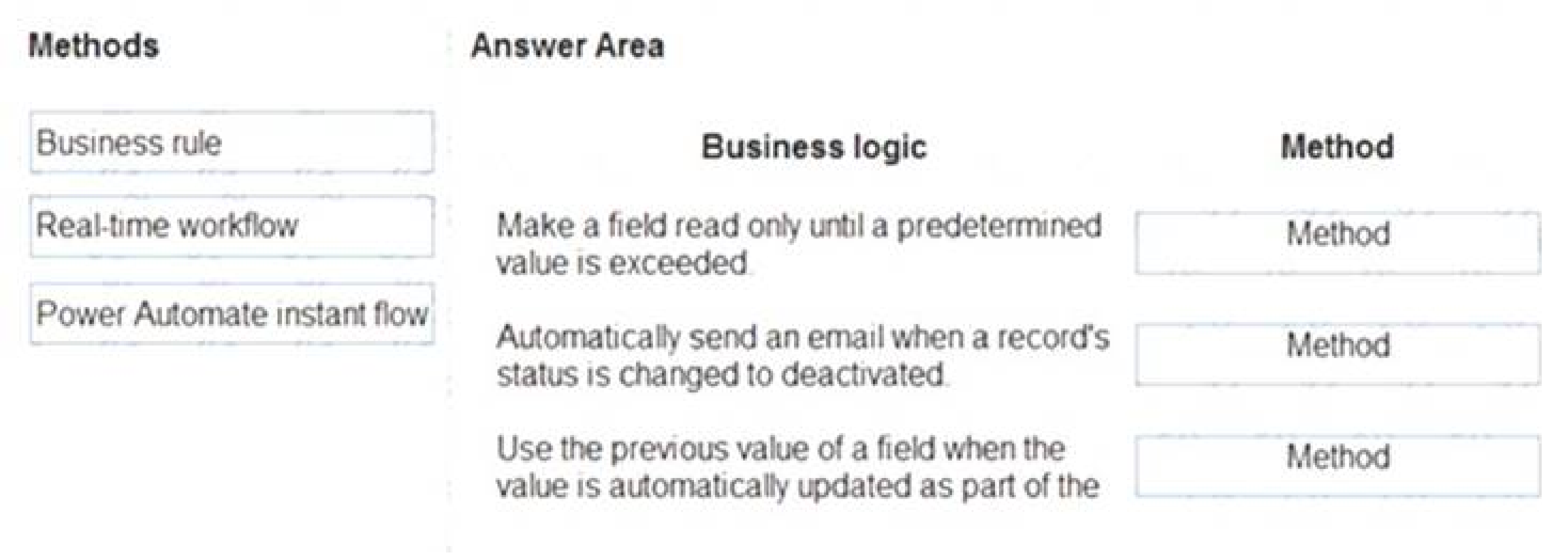
Answer: B

NEW QUESTION 42
- (Exam Topic 3)
A veterinary office plans to use Microsoft Power Platform to streamline customer experiences. The customer creates a canvas apps to manage appointments. On the client appointment form, there is a dropdown field for clients to select their type of pet. If a client selects the option Other, a text field must appear so that staff members can add details about the pet.
You need to create a dynamically visible field. What should you configure?

A. business rule
B. business process flow
C. workflow

Answer: A

NEW QUESTION 46
- (Exam Topic 3)
You are implementing a model-driven app to support a new line of business. There are several places where automated business logic must be applied. You need to determine how to apply the business logic.
Which method should you use? To answer, drag the appropriate methods to the appropriate business logic statements. Each method may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

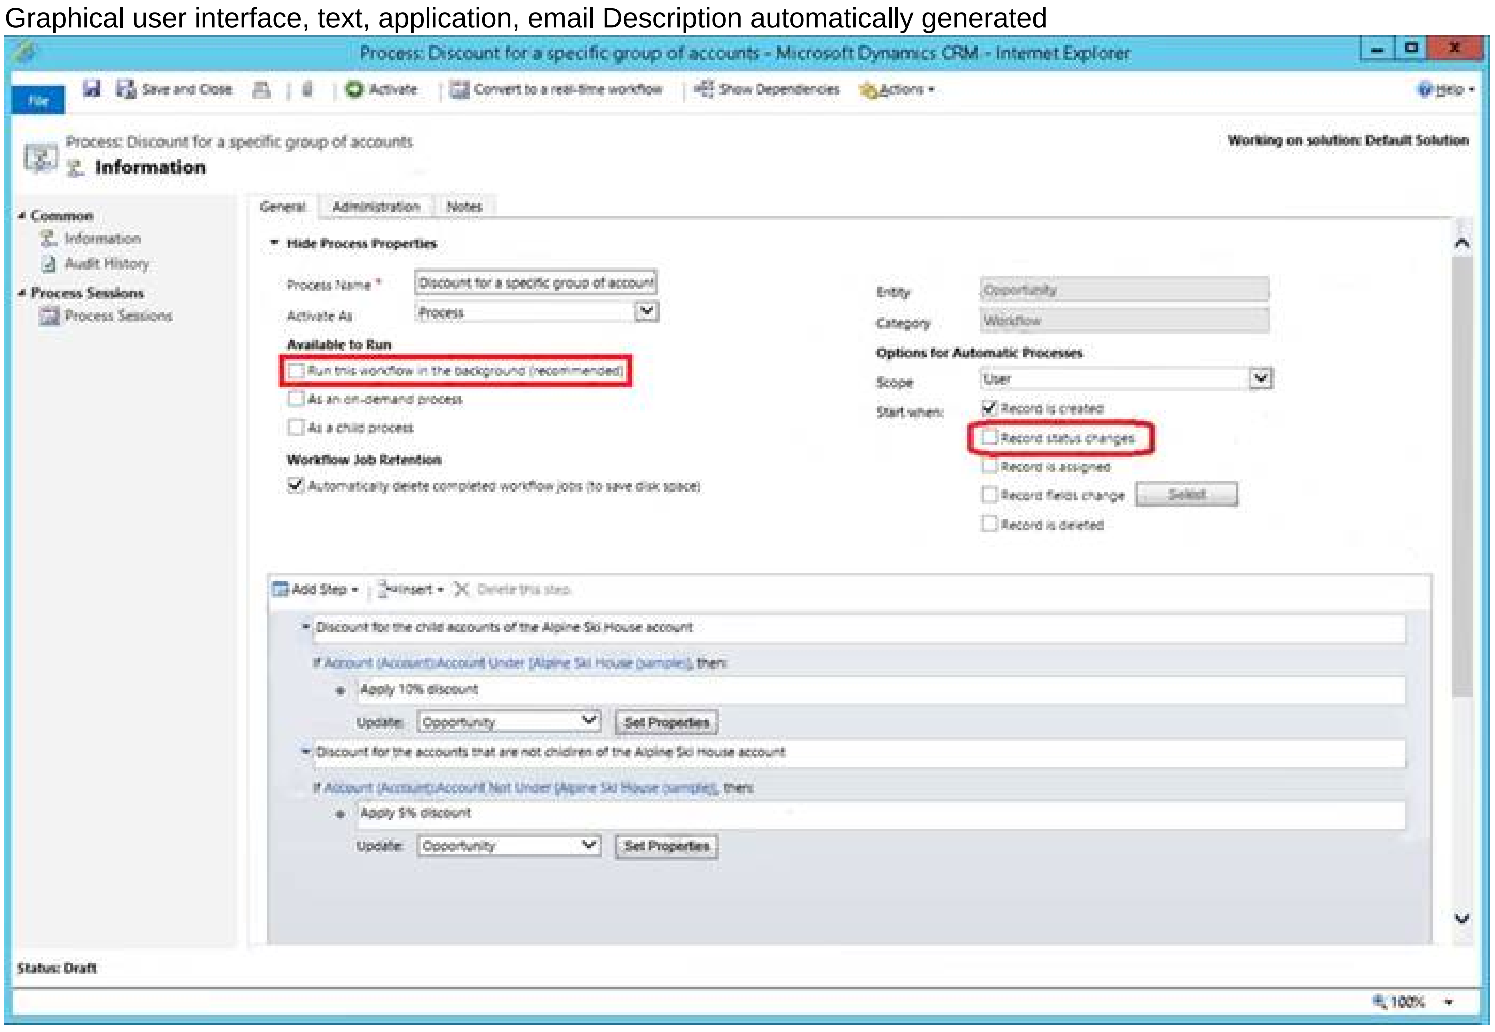


A. Mastered
B. Not Mastered

Answer: A

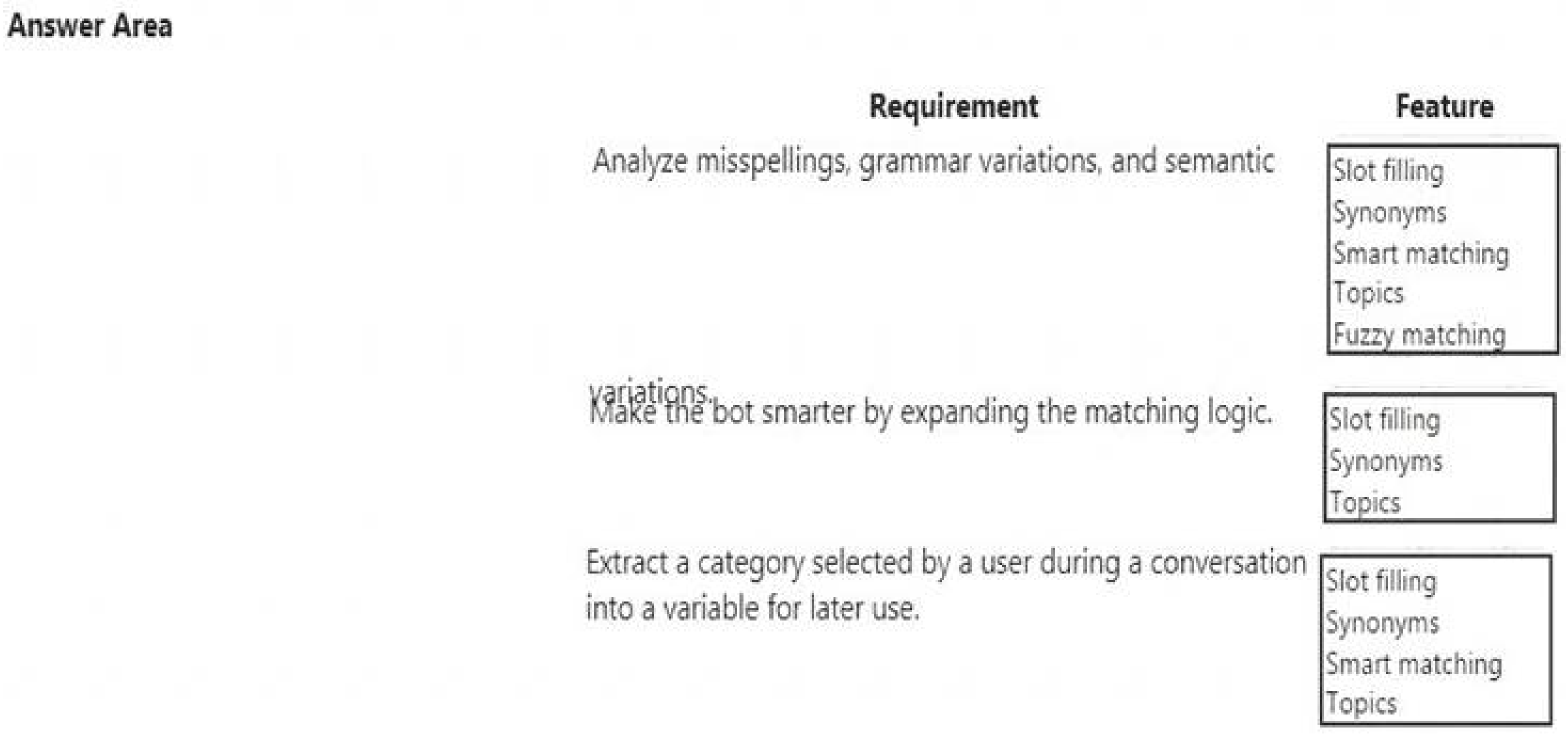
Explanation:
Graphical user interface, text, application Description automatically generated
Box 1: Business rule
By combining conditions and actions, you can do any of the following with business rules:
- NSE5_FSM-5.2 Set column values
- Clear column values
- Set column requirement levels
- Show or hide columns
- Enable or disable columns
- Validate data and show error messages
- Create business recommendations based on business intelligence.

Box 2: Real-time workflow Real-time workflows:
Graphical user interface, text, application, email Description automatically generated



Box 3: Power Automate instant flow
Instant Flows don't have a trigger in the same way as the Automated flow. Instead, they are triggered manually or on-demand, such as a user clicking a Flow button in the mobile app.
Reference:
https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/create-business-rules-recommendations-a https://docs.microsoft.com/en-us/powerapps/maker/data-platform/configure-workflow-steps https://carldesouza.com/difference-between-instant-automated-and-scheduled-flows-in-power-automate-and-ho

NEW QUESTION 50
- (Exam Topic 3)
You are designing a Power Virtual Agents chatbot for a store.
You need to teach the chatbot to acknowledge the store's product categories and the variations within specific categories.
You need to create custom entities to provide the chatbot with the knowledge of the product categories. Which features should you use? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:

Smart match Synonyms Topic
https://docs.microsoft.com/en-us/power-virtual-agents/advanced-entities-slot-filling

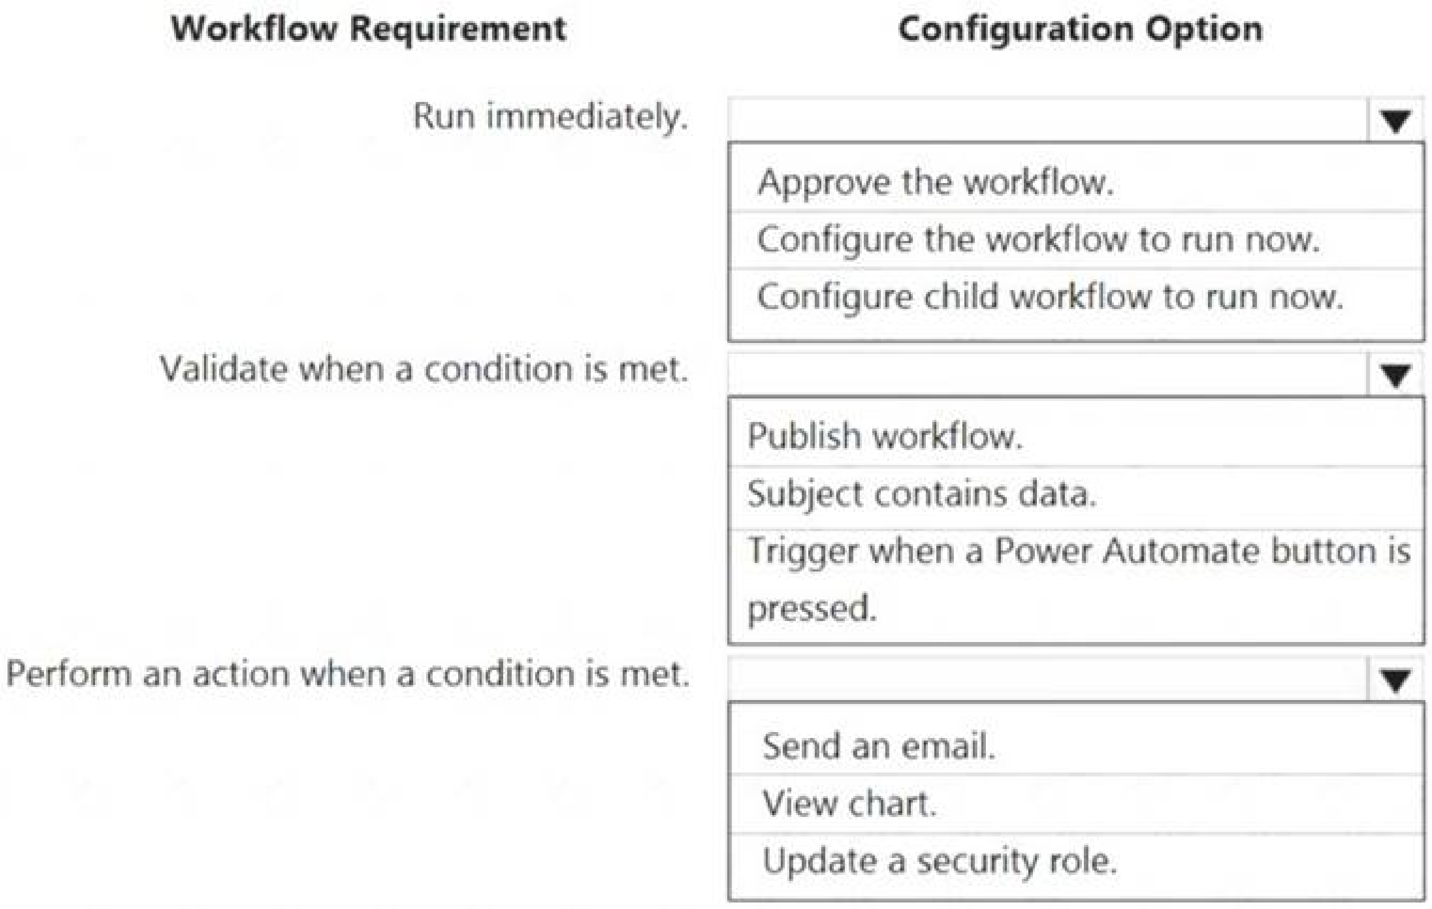
NEW QUESTION 55
- (Exam Topic 3)
You are a Dynamics Sales administrator for a car dealership. The dealership uses only out-of-the-box functionality. When a new car is sold, the salesperson uses a Word template to generate a letter from the quote to thank the customer.
You need to determine if you can revise the template. Which Word template change can you make?

A. Add the Discount field conditionally.
B. Format the table to have alternating color rows.
C. Format the Created On field to a long date format.
D. Add the address of the customer.D18912E1457D5D1DDCBD40AB3BF70D5D

Answer: D

NEW QUESTION 57
- (Exam Topic 3)
You create workflows to automate business processes.
You need to create a workflow that automatically sends emails based on a mail merge template. The workflow must contain the following configurations:
- Run immediately.
- Validate when a condition is met.
- Perform an action when a condition is met.

To answer, select the appropriate configuration in the answer area.
NOTE: Each correct selection is worth one point.

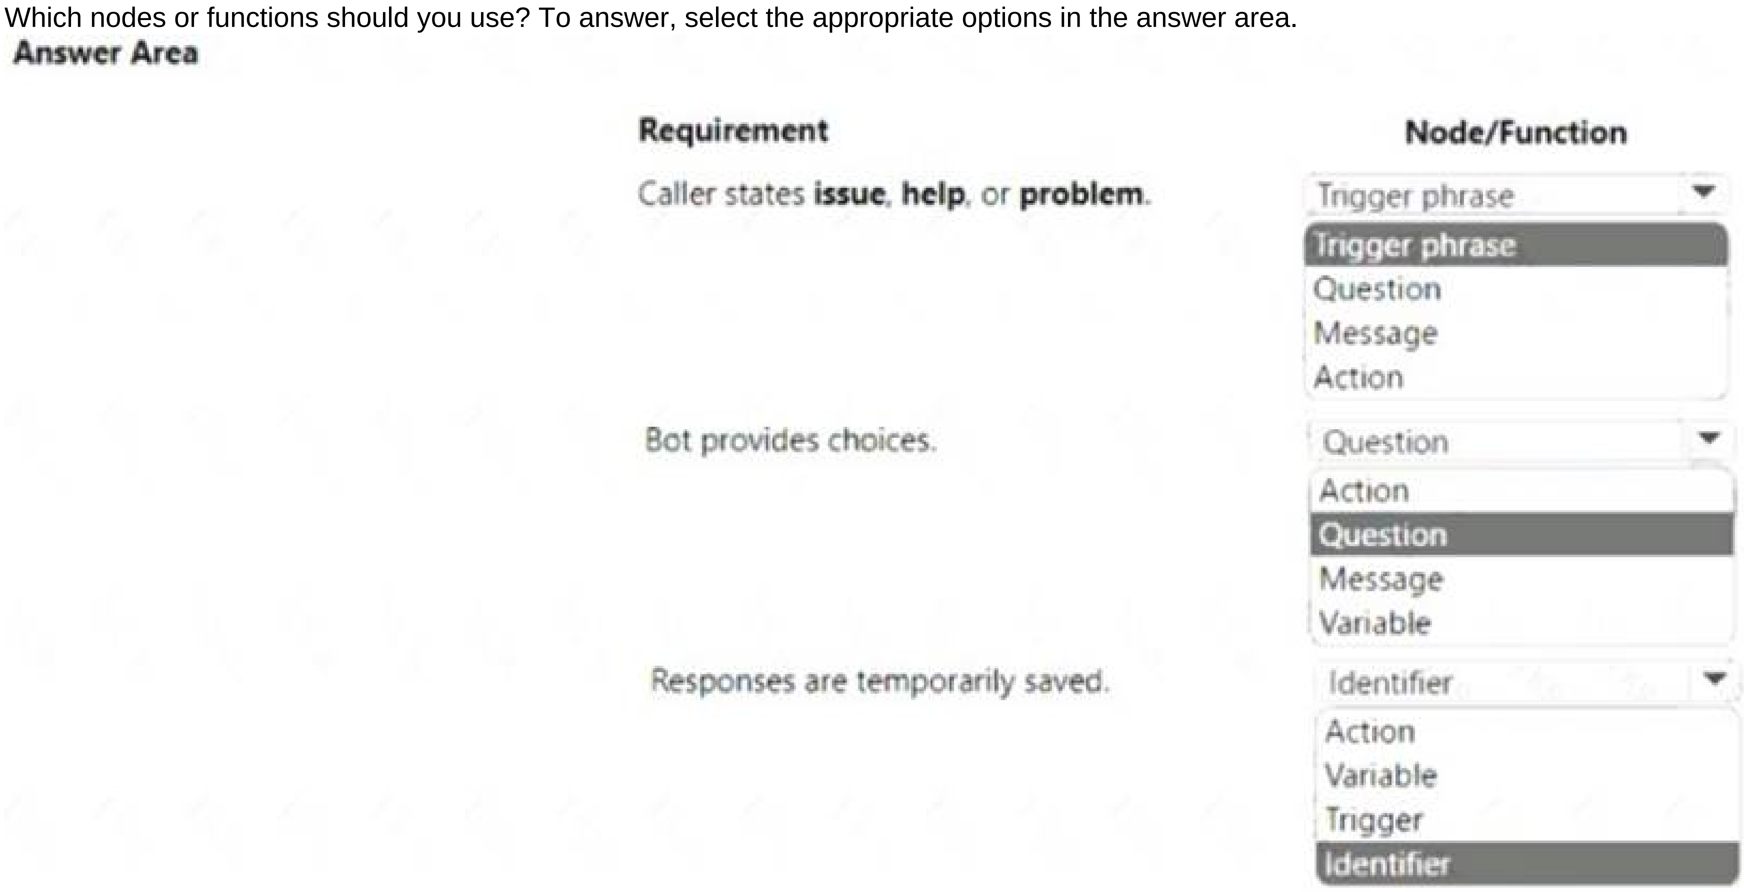


A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application, email Description automatically generated

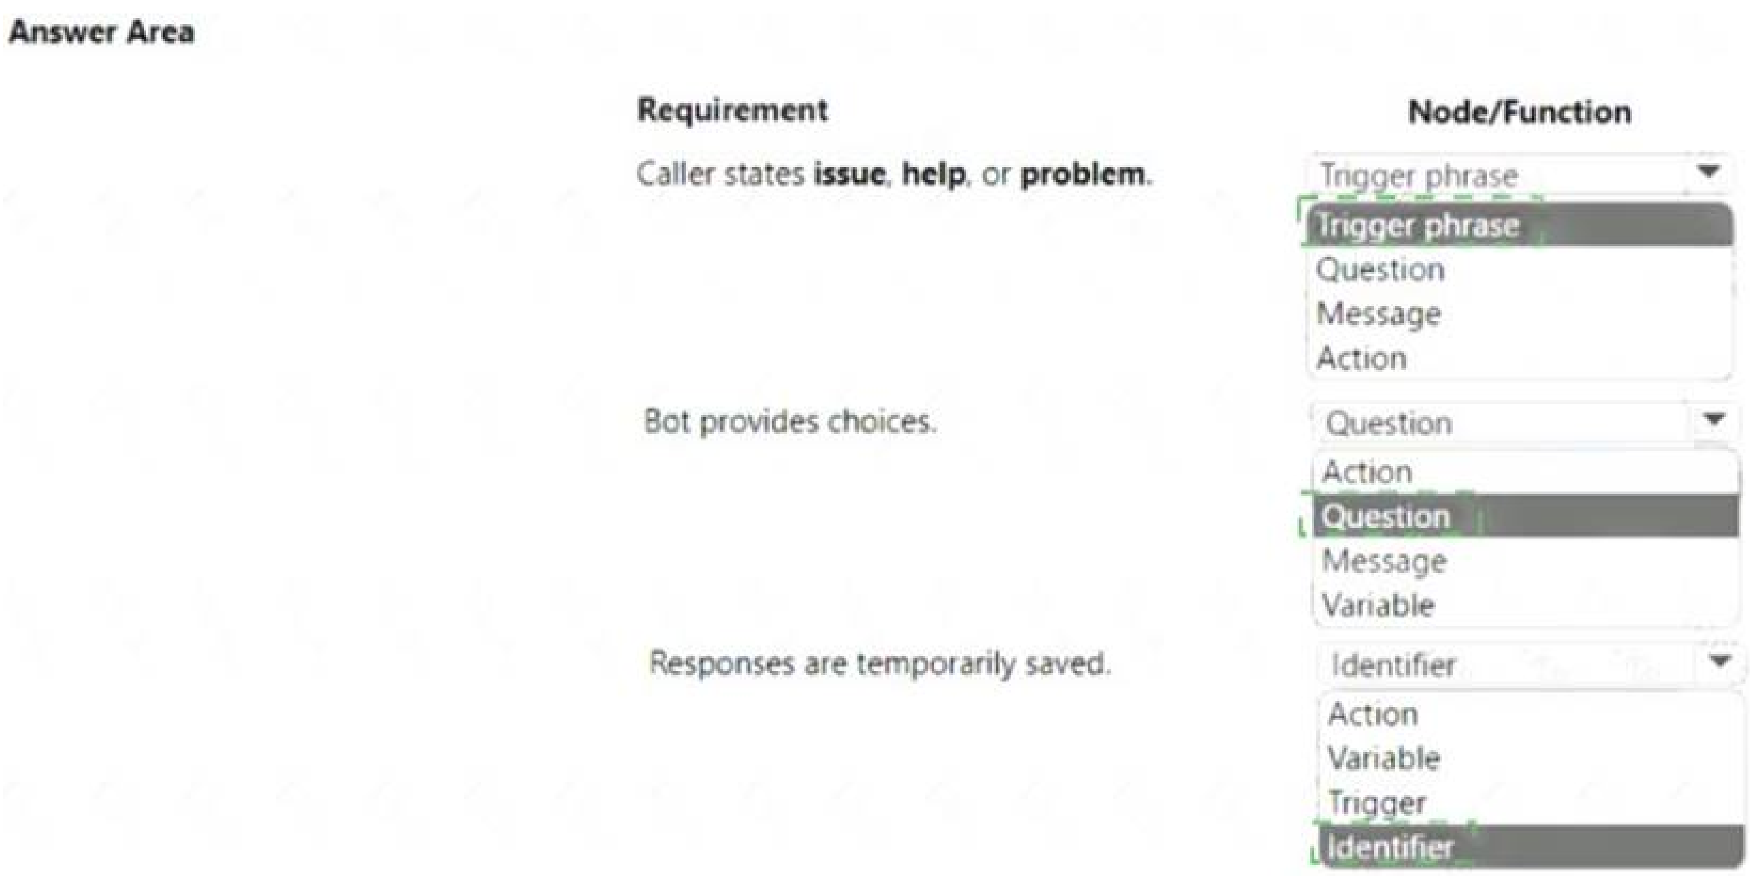
NEW QUESTION 62
- (Exam Topic 3)
You use Power Virtual Agents to create a bot that will answer and transfer help desk calls.
You create topics that contain nodes and functions. The company has the following requirements for the bot:
• When a caller states the word issue, help, or problem, the bot must respond with the question. "How can we help you today?"
• When the bot responds with the question, "How can we help you today?", the bot must provide the caller with the choices of hardware, software or other
• When the caller asks a question, the bot must save the response so that it can perform an action on the response.
You need to configure the bot.
Which nodes or functions should you use? To answer, select the appropriate options in the answer area.



A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 66
- (Exam Topic 3)
A company has marketing teams for different regions.
A user creates and publishes a chatbot within Microsoft Teams for their specific marketing team.
The base metrics retrieved by the chatbot are relevant to all marketing teams. The other marketing teams request access to the chatbot.
You need to publish the chatbot to the entire company. What should you do?

A. Configure the chatbot to be used with the Teams channel.
B. Submit the chatbot for admin approval.
C. Copy the published chatbot link and email it to the other teams
D. Invite the other teams to the team that has the chatbot.
E. Export the chatbot and import it into a corporate environment.

Answer: B

Explanation:
Show to teammates and shared users
You can share your bot by adding it to the Microsoft Teams app store, Built for your org > Built by your colleagues section. Only your teammates and shared users will find the bot there.
Important
Only teammates or shared users can find and install the bot in the Microsoft Teams app store Built by your colleague section. The bot will not show for everyone in the organization even if it is configured to allow everyone to use the bot. To show the bot to the organization, submit the bot for admin's approval to show in Microsoft Teams app store Built by your org section.

NEW QUESTION 71
- (Exam Topic 3)
A car dealership has a Dynamics 365 Sales environment for its sales company and another environment for its leasing company. Users in one environment must not be able to see the other environment. You need to grant salespeople access to the sales company environment. What should you do?

A. Add salespeople to a security role.
B. Set privileges.
C. Add salespeople to an Office 365 security group.
D. Set app security

Answer: C

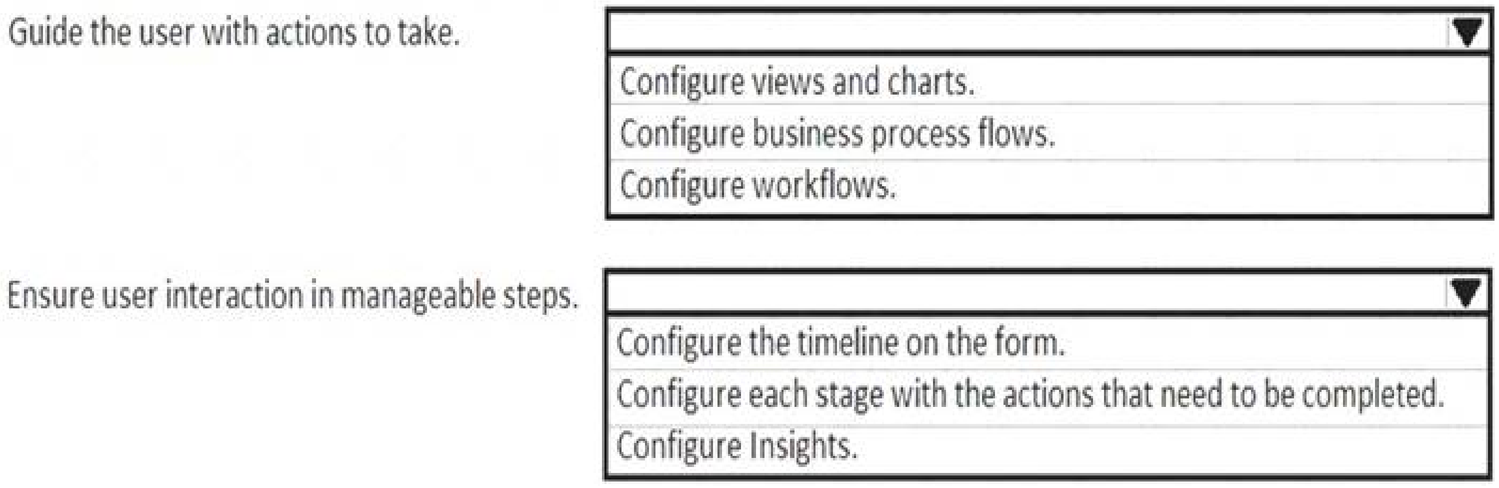
Explanation:
Reference:
https://docs.microsoft.com/en-us/power-platform/admin/control-user-access

NEW QUESTION 73
- (Exam Topic 3)
You are a Dynamics 365 Sales administrator for a software company. The sales team wants to attach a large number of supporting documents to customer records, but management does not want to incur the cost of additional storage.
The company does not have any Office 365 application integrations enabled. You need to recommend a storage solution that keeps storage costs low. Solution: Enable OneNote integration.
Does the solution meet the goal?

A. Yes
B. No

Answer: B

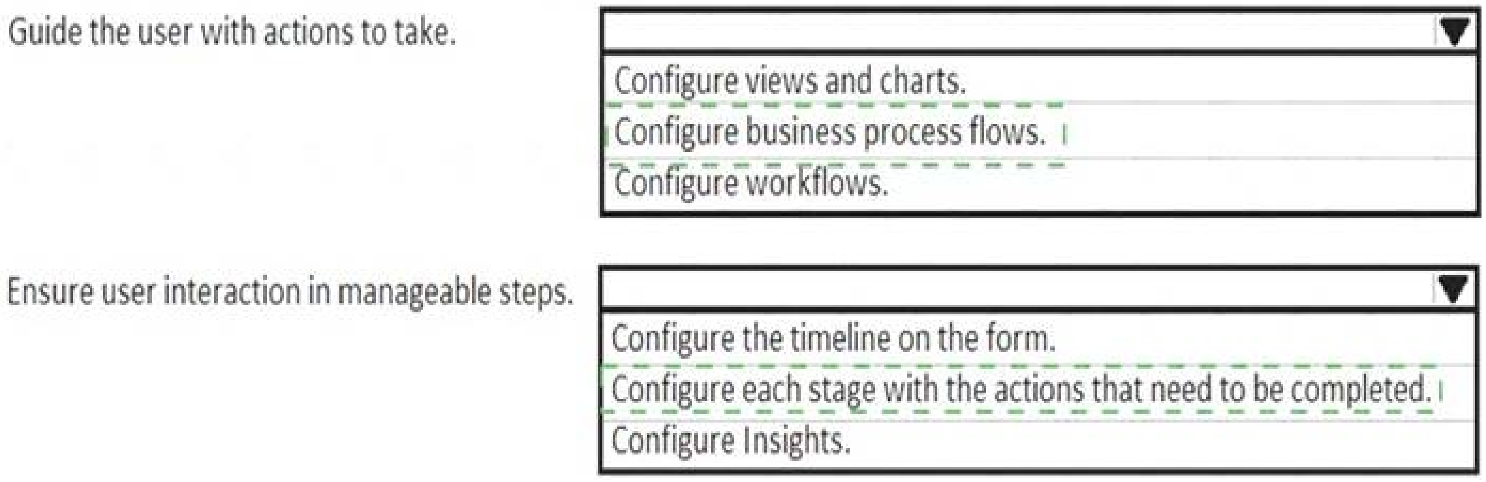
NEW QUESTION 76
- (Exam Topic 3)
You are a Dynamics 365 Customer Engagement administrator. You create a new solution in Dynamics 365. You need to help end users understand which actions to take next and ensure that user interaction occurs in manageable steps.
Which actions should you perform? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 81
- (Exam Topic 3)
A user has access to an existing Common Data Service database.
You need to ensure that the user can create canvas apps that consume data from Common Data Service. You must not grant permissions that are not required.
Which out-of-the-box security role should you assign to the user?

A. Environment Admin
B. System Customizer
C. Common Data Service User
D. Environment Maker

Answer: D

Explanation:
Reference:
https://docs.microsoft.com/en-us/power-platform/admin/database-security#predefined-security-roles https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/data-platform-create-app

NEW QUESTION 83
- (Exam Topic 3)
A farm uses a canvas app to manage schedules for planting fields with crop seeds. The farm uses business intelligence to provide recommendations for schedule changes based on weather data.
You must implement a business rule that changes information for several forms in the canvas app based on business intelligence data.
You need to configure the business rule. Which scope should you use?

A. Table
B. All Forms
C. Form specific

Answer: A

NEW QUESTION 88
- (Exam Topic 3)
A company has a canvas app that includes the following screens: Screen1 and Screen2. The OnVisible property for Screen1 contains the following expression.

Set(AgeGroups, ["1-25", "26-54", "55+"])
For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Statements	Yes	No
AgeGroups can be accessed from Screen1 and Screen2.	○	○
AgeGroups is a collection.	○	○
You can use the Update function to change values in AgeGroups.	○	○

A. Mastered
B. Not Mastered

Answer: A

Explanation:

Statements	Yes	No
AgeGroups can be accessed from Screen1 and Screen2.	○	○
AgeGroups is a collection.	○	○
You can use the Update function to change values in AgeGroups.	○	○

NEW QUESTION 90
- (Exam Topic 3)
You create a Power Apps portal to provide training and documentation for students. Students create a profile on the portal and then select and pay for courses.
You plan to add free courses to the training portfolio. Free courses must be automatically available to all students when they sign in.
You need to assign default permissions to students. What should you do?

A. Create an entity for managing free course
B. Create a Students web role and set the Authenticated Users role option to tru
C. Create appropriate entity permissions to access the free course entity records and assign the entity permissions to the web role.
D. Create an entity for managing free course
E. Create entity permission records to provide access to entity records for free courses and assign the entity permissions to users when they register on the portal for the first time.
F. Create a Students web role and set the Authenticated Users Role option to tru
G. Assign the web role to each registered user.

Answer: C

NEW QUESTION 95
- (Exam Topic 3)
You create a canvas app that uses data from a Microsoft SQL Server database.
You use a dataflow to move some of the data from the database to Microsoft Dataverse. Users will filter the data by using the app.
You need to filter data in the dataflow and in the canvas app.
Which tools should you use? To answer, drag the appropriate tools to the correct requirements. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Tools

- Power Fx
- Power Query
- T-SQL
- Kusto

Answer Area

Requirement	Tool
Filter data in the dataflow.	
Filter data in the canvas app.	

A. Mastered
B. Not Mastered

Answer: A

Explanation:

NEW QUESTION 99
- (Exam Topic 3)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You administer the Microsoft 365 and Power Platform environments for Contoso, Ltd. The company has a model-driven app that is used to track customer interactions with employees. The app uses standard table types for customers. A user named Elisabeth Rice signs in to the app by using the following sign in name: Elisabeth.Rice@contoso.com.
After marriage, Elisabeth changes her legal name to Elisabeth Mueller.
You need to update the sign in name for the user without losing any application history.
Solution: From Dynamics 365 Settings, select Email Configuration. In the active mailbox for the user, update the name.
Does the solution meet the goal?

A. Yes
B. No

Answer: B

Explanation:
Change the user name, not the email configuration. Change a user's email address
You must be a global admin to complete these steps.
- In the admin center, go to the Users > Active users page.
- Select the user's name, and then on the Account tab select Manage username.
- In the first box, type the first part of the new email address. If you added your own domain to Microsoft 365, choose the domain for the new email alias by using the drop-down list. Learn how to add a domain.
- Select Save changes. Reference:

https://docs.microsoft.com/en-us/microsoft-365/admin/add-users/change-a-user-name-and-email-address

NEW QUESTION 101
- (Exam Topic 3)
You are a Dynamics 365 Customer Service system administrator. You create an app for the sales team. Members of the sales team cannot access the app.
You need to ensure that sales team members can access the app. Where should you configure app permissions?

A. Security Roles
B. Manage Roles
C. Dynamics administration center
D. Dynamics 365 home

Answer: B

Explanation:
References:
https://docs.microsoft.com/en-us/dynamics365/customer-engagement/customize/manage-access-apps-security-r Manage access to apps by using security roles.
You can choose what users see and access from the My Apps page or the Customer Engagement home page by giving app access to specific security roles.
Users will have access to apps based on the security roles they're assigned to.
* 1. Go to Settings > My Apps.
* 2. In the lower-right corner of the app tile you want to manage access for, select More options (...), and then select Manage Roles.
* 3. Enter the following in the Manage Roles dialog box:
a) App URL Suffix
b) Roles
c) Select Save.
* 4. Refresh the My Apps page.
* 5. Go to the Apps Being Edited view, and publish the app again. Reference:
https://docs.microsoft.com/en-us/dynamics365/customerengagement/on-premises/customize/manage-access-app

NEW QUESTION 104
- (Exam Topic 3)
You plan on implementing complex business logic in Microsoft Dataverse tables by using Power Automate flows.
You realize that the functionality required to implement the business logic is not available in a Power Automate flow.
The new business logic must work in multiple Dataverse tables. In addition, the operation must return a value after it finishes and must be able to run from an existing Dataverse action.
You need to recommend the method to implement the missing logic. What should you recommend?

A. Scheduled workflow
B. Bound action

C. Custom API
D. Unbound action

Answer: D

Explanation:
https://docs.microsoft.com/en-us/power-automate/dataverse/bound-unbound
https://docs.microsoft.com/en-us/power-apps/developer/data-platform/custom-api

NEW QUESTION 107
- (Exam Topic 3)
The sales manager receives a list of leads from a partner company monthly. The field names that are provided do not match the fields in Dynamics 365. A data map does not exist.
You need to import the leads without changing the data from the partner company. What should you do?

A. Create a data map in Data Management.
B. Add a template for Import Data.
C. Use Import Field Translations.
D. Create a data map on the first import by using the Import Data wizard.

Answer: D

Explanation:
Reference:
https://docs.microsoft.com/en-us/dynamics365/customerengagement/on-premises/basics/import-accounts-leads

NEW QUESTION 110
- (Exam Topic 3)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You administer the Microsoft 365 and Power Platform environments for Contoso, Ltd. The company has a model-driven app that is used to track customer interactions with employees. The app uses standard table types for customers. A user named Elisabeth Rice signs in to the app by using the following sign in name: Elisabeth.Rice@contoso.com.
After marriage, Elisabeth changes her legal name to Elisabeth Mueller.
You need to update the sign in name for the user without losing any application history.
Solution: Ask the Microsoft 365 administrator to sign in to the admin portal and change the username. Does the solution meet the goal?

A. Yes
B. No

Answer: A

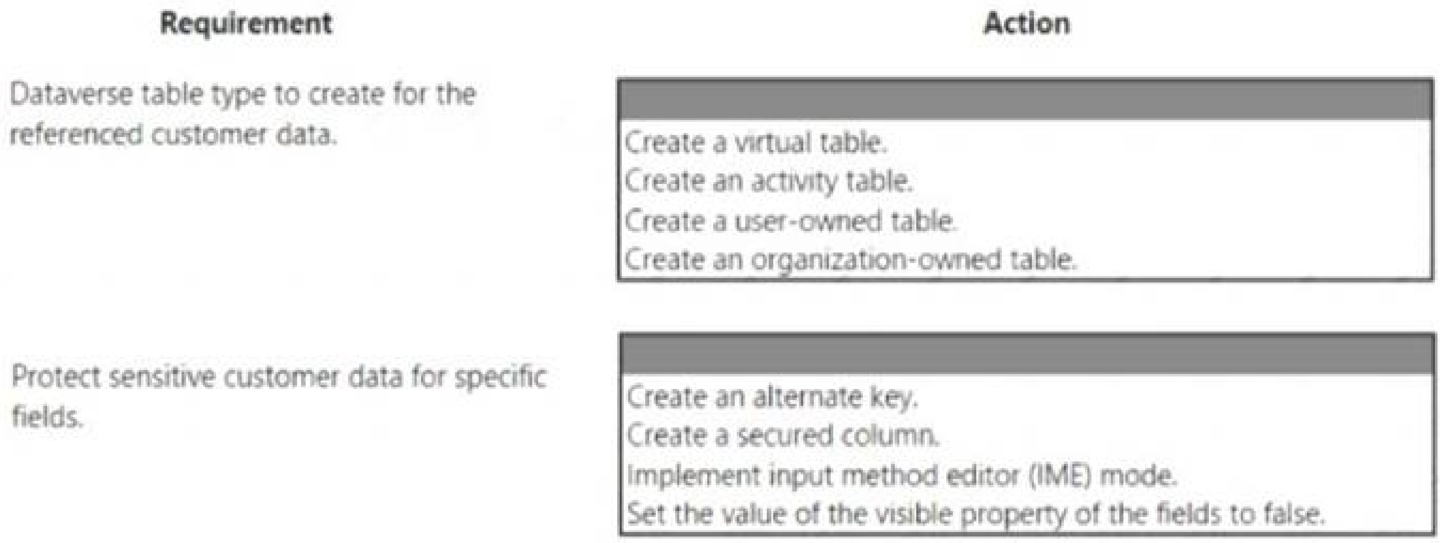
NEW QUESTION 111
- (Exam Topic 3)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You are creating Power Virtual Agents chatbot that captures demographic information about customers. The chatbot must determine the group a customer belongs to based on their age. The age groups are:
- 0 - 17
- 18 - 25
- 26 - 35
- 36 - 55
- 55 - 100

You need to configure the chatbot to ask a question that can be used to determine the correct age group. Solution: Use Date and time for Identify in the question and then add branches that use conditional logic to
determine the age group.
Does this meet the goal?

A. Yes
B. No

Answer: B

NEW QUESTION 115
- (Exam Topic 3)
A company has a sales application that is supported by an Azure SQL database. You are developing a Power Apps app for use by customer service agents. The app must reference customer data from the sales application. Data in the sales application is constantly changing and must not be replicated in Microsoft Dataverse
Some customer data is considered sensitive. You must protect data for specific fields when users view data in the app.
You need to configure table creation for the app.
How should you configure the app? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point

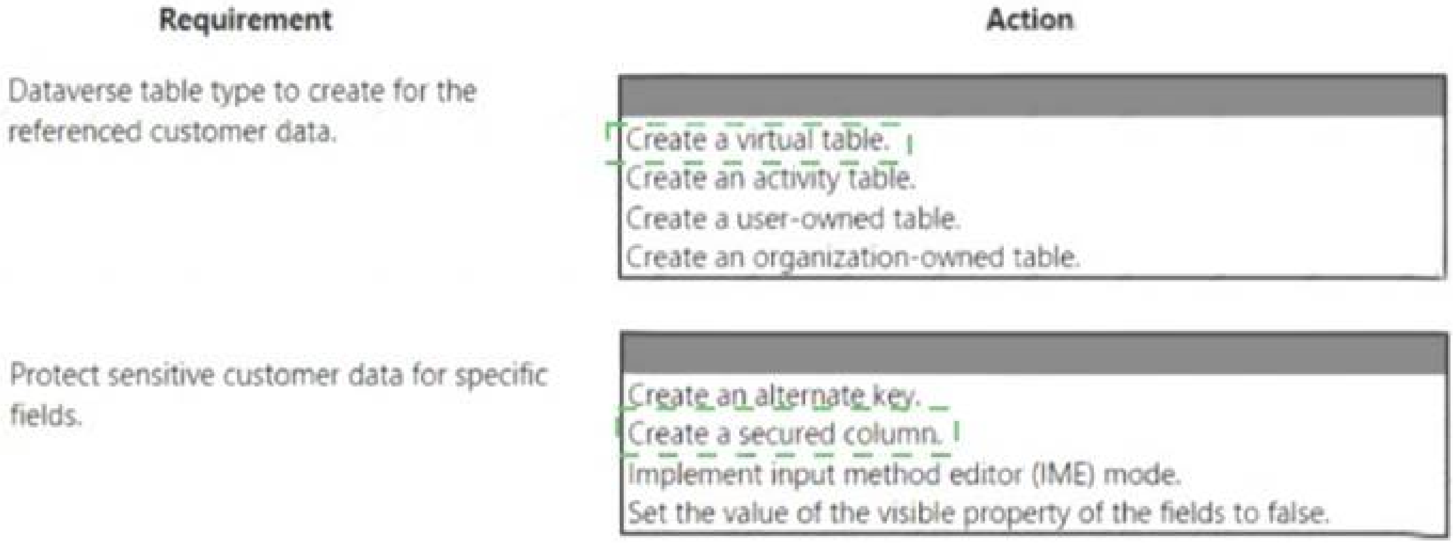


Requirement	Action
Dataverse table type to create for the referenced customer data.	Create a virtual table. Create an activity table. Create a user-owned table. Create an organization-owned table.
Protect sensitive customer data for specific fields.	Create an alternate key. Create a secured column. Implement input method editor (IME) mode. Set the value of the visible property of the fields to false.

A. Mastered
B. Not Mastered

Answer: A

Explanation:



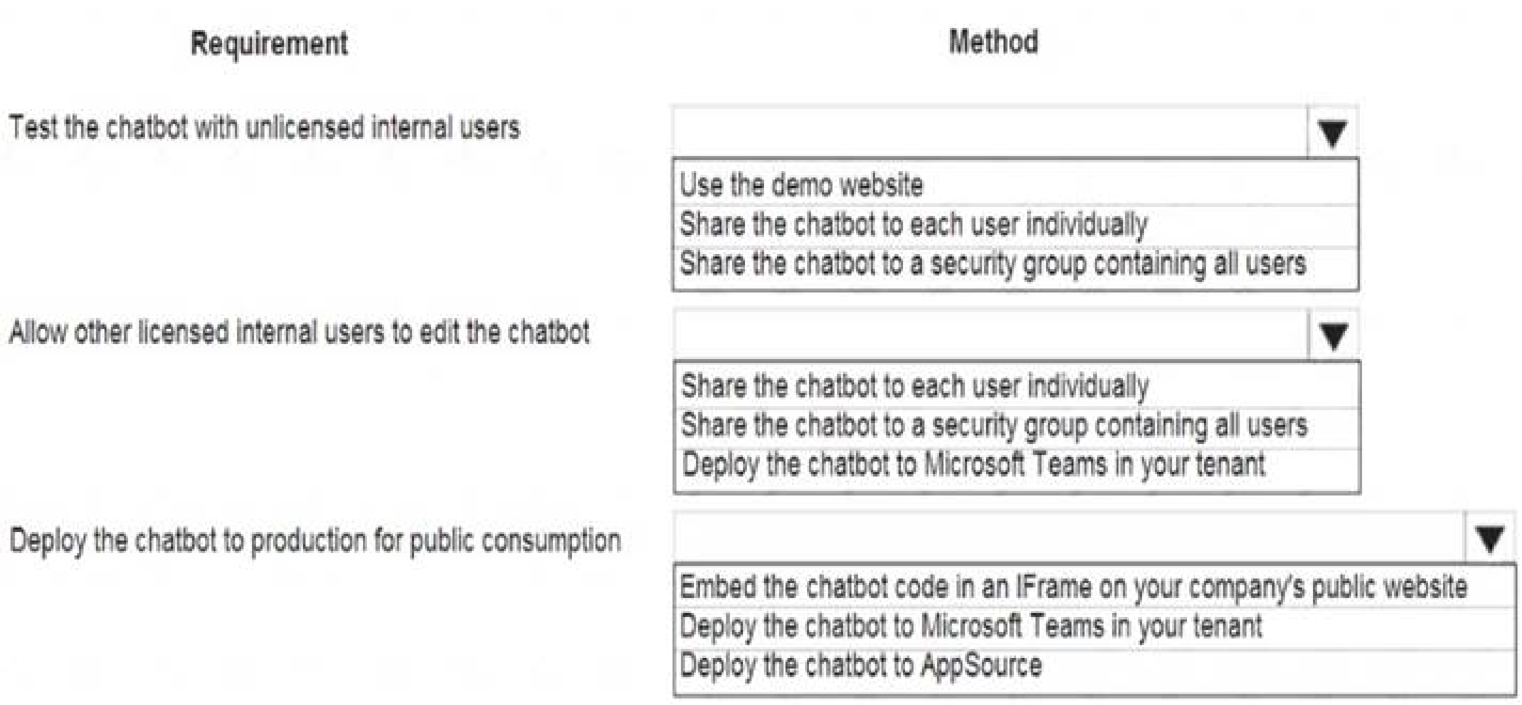
Requirement	Action
Dataverse table type to create for the referenced customer data.	Create a virtual table. Create an activity table. Create a user-owned table. Create an organization-owned table.
Protect sensitive customer data for specific fields.	Create an alternate key. Create a secured column. Implement input method editor (IME) mode. Set the value of the visible property of the fields to false.

NEW QUESTION 119
- (Exam Topic 3)
You need to build a Power Bl dashboard for sales managers to track opportunities.
When a new sale closes that is greater than S1 million, a notification must pop up and an email must be sent to the leadership team.
You need to ensure the email is sent without editing the Microsoft Dataverse.
Which two elements should you configure? Each correct answer is part of the solution. NOTE: Each correct selection is worth one point.

A. alerts in Power Bl
B. a calculated column in the Dataverse
C. a custom connector
D. a paginated report to save to Microsoft OneDrive
E. a Power Automate flow

Answer: AE

NEW QUESTION 123
- (Exam Topic 3)
You create a new Power Virtual Agents chatbot for an organization.
Testing and production deployment of the chatbot are not complete. You need to ensure that appropriate users can access the chatbot.
Which methods should you use? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

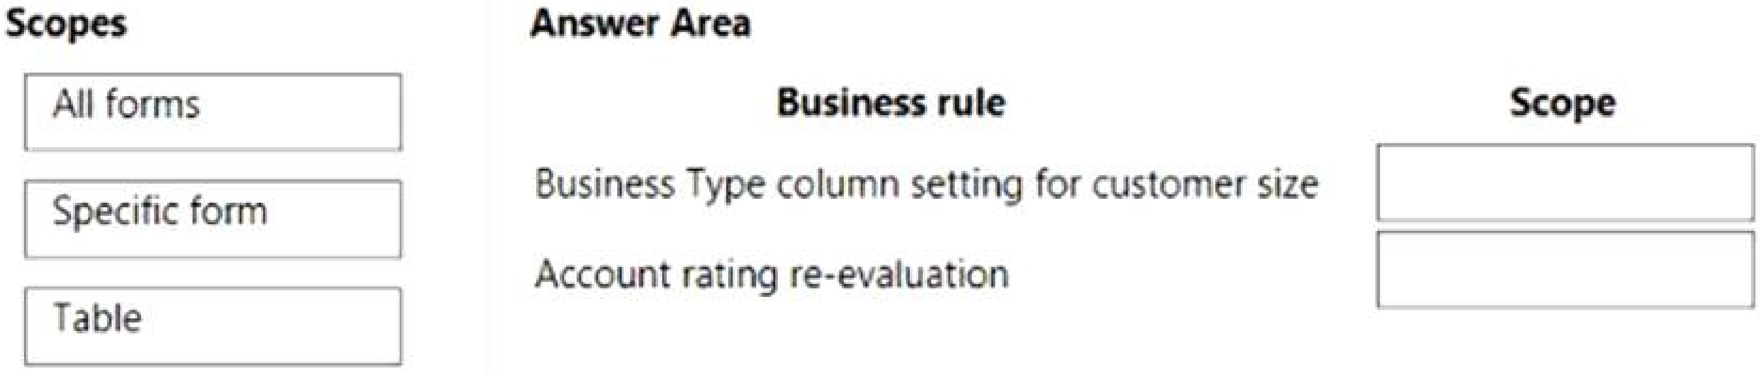


A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, application Description automatically generated
Box 1: Use the demo website
When publishing the bot to the web, you can publish to a prebuilt demo website (which you can use to share the bot with your teammates and stakeholders) and to your own live website.
Box 2: Share the chatbot to a security group containing all users.
A license for each user, also known as a "per user license" (or "Power Virtual Agent User License" as referred to on the Microsoft 365 admin center), should be assigned to individual users who need access to create and manage chatbots.
To simplify user license management, you can assign licenses to an Azure Active Directory (Azure AD) security group.
Box 3: Embed the chatbot code in an IFRame on your copany's public website
You can add your bot to a live website as an IFrame. Your live website can be a customer-facing external website or an internal site, like a SharePoint or Yammer site.
Reference:
https://docs.microsoft.com/en-us/power-virtual-agents/publication-connect-bot-to-web-channels https://docs.microsoft.com/en-us/power-virtual-agents/requirements-licensing

NEW QUESTION 128
- (Exam Topic 3)
A company is creating a canvas app and a model-driven app to manage their customer accounts.
The canvas app requires a business rule to set the Business Type column to large if the customer size is greater than a specific currency value.
The model-driven app requires a business rule to recommend the account rating be re-evaluated when the account goes on credit hold for this app only.
You need to configure the scope for the business rules.
Which scope should you use? To answer, drag the appropriate scopes to the correct business rules. Each scope may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

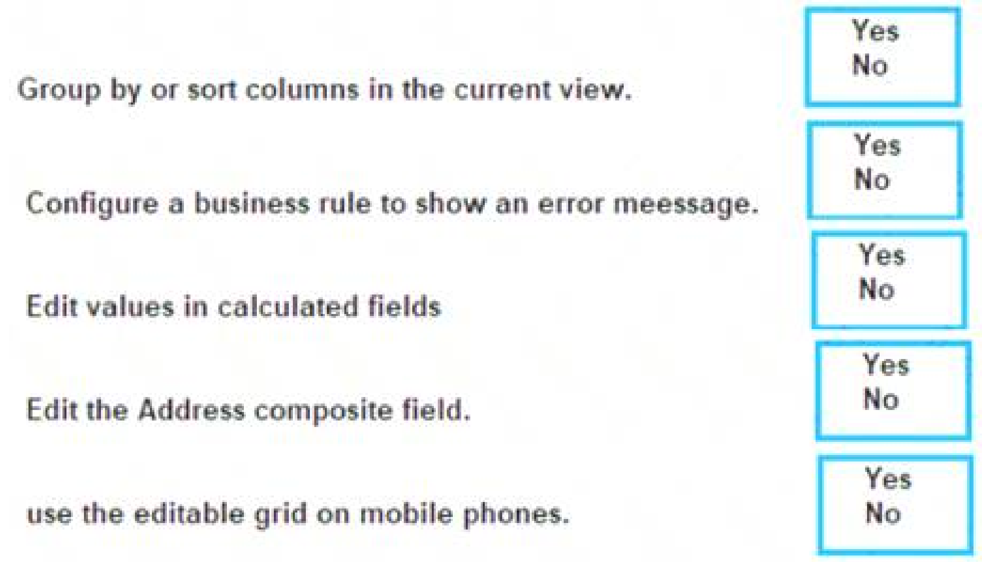
Explanation:
Box 1: Table
The canvas app requires a business rule to set the Business Type column to large if the customer size is greater than a specific currency value.
Scope the business rule to Entity (Table). Box 2: Specific form
The model-driven app requires a business rule to recommend the account rating be re-evaluated when the account goes on credit hold for this app only.
For Model
The scope of the business rule determines which forms the business rule will be applied. You set the scope, according to the following:
If you select this item... The scope is set to...
Entity- The table and all forms for the table All Forms- All forms for the table
Specific form (account Main Form, for example) - Just that form
Reference: https://debajmecrm.com/business-rules-in-powerapps-canvas-apps/
https://docs.microsoft.com/en-us/power-apps/maker/model-driven-apps/create-business-rules-recommendations

NEW QUESTION 132
- (Exam Topic 3)
You use Power Bl Desktop to configure Power Bl reports and dashboards.
You need to create a canvas app that displays account information and include the app in a Power Bl report. Which three actions should you perform? Each correct answer presents part of the solution.
NOTE Each correct selection is worth one point.

A. Publish the report to the Power Bl service.
B. Connect to Common Data Service from Power Bl Desktop.
C. Connect Common Data Service from Power Bl Deskto
D. Selected required fields from the Accounts table.
E. From the Power Apps Insert menu, add a Power Bl
F. From the Power Bl Desktop menu, insert a Power Apps visual and include the required fields in the Power Apps data.

Answer: CDE

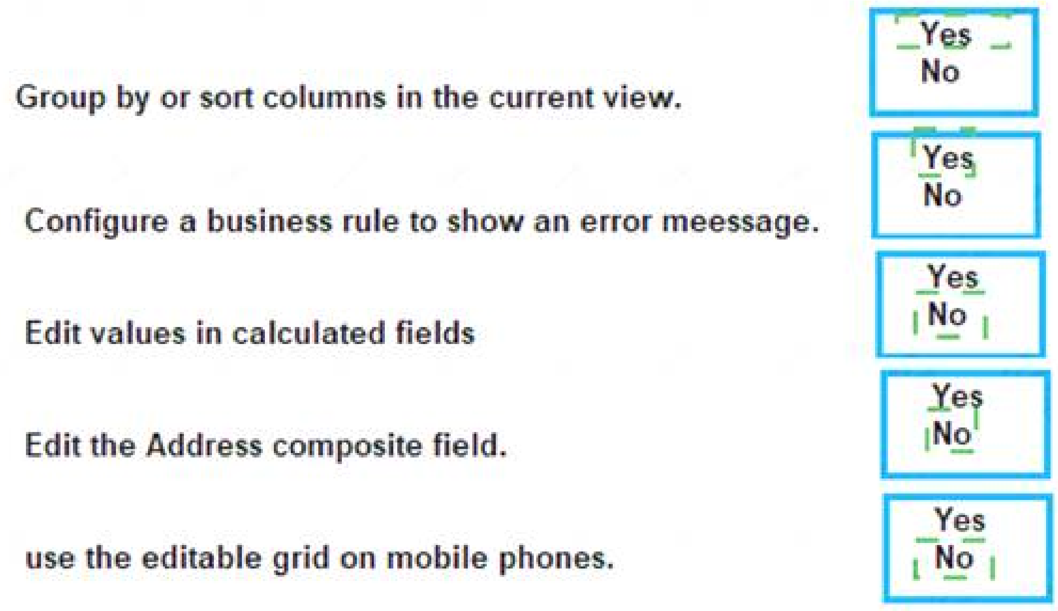
NEW QUESTION 133
- (Exam Topic 3)
The business team provides the following list of features that they would like you to implement:
• Group by or sort columns in the current view.
• Configure a business rule to show an error message.
• Edit values in calculated fields.
• Edit the Address composite field.
• Use the editable grid on mobile phones.
Which actions can you perform? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.



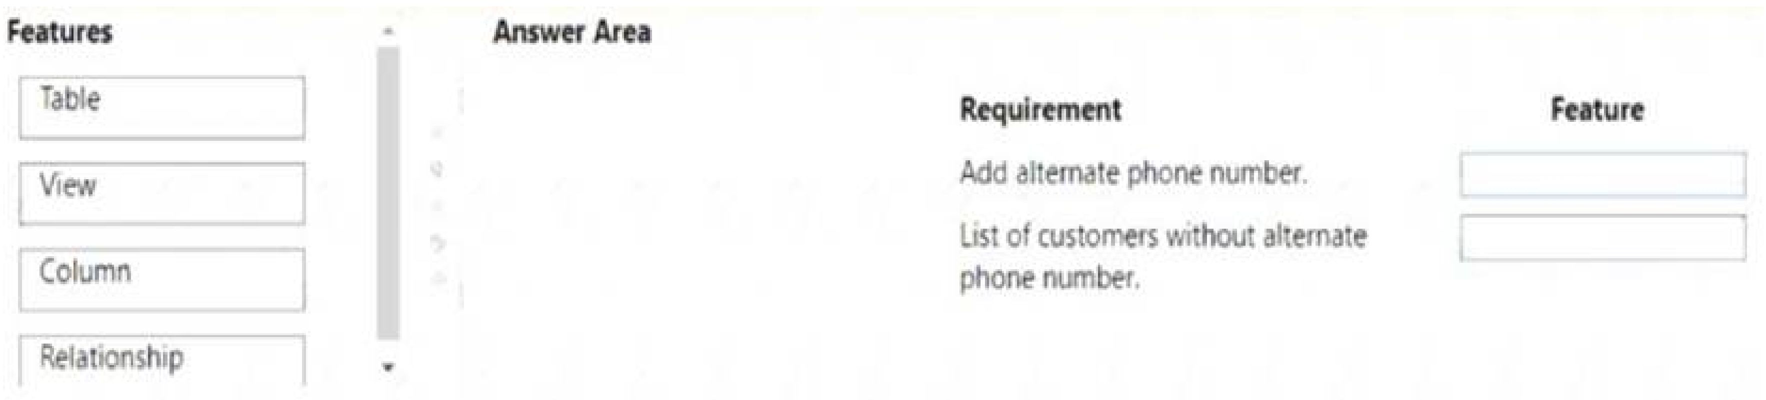
A. Mastered
B. Not Mastered

Answer: A

Explanation:



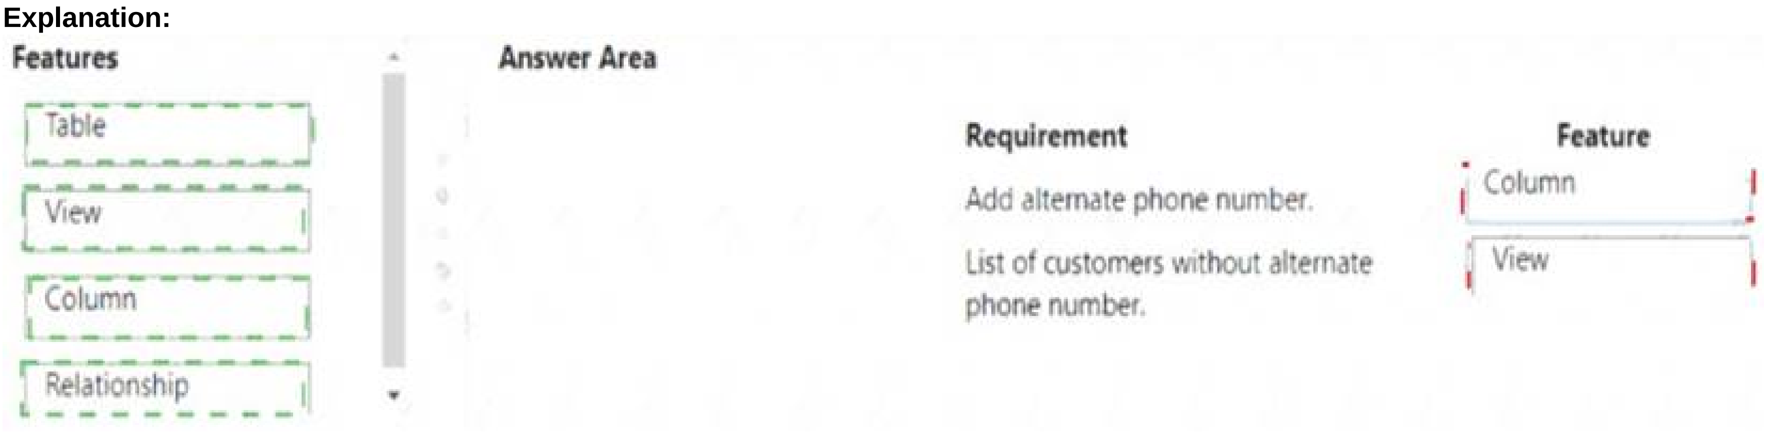
NEW QUESTION 135
- (Exam Topic 3)
A company has a model-driven app that uses Microsoft Dataverse.
Users need to add an alternate phone number when entering their account information. The users also require a list that displays the customers that do not have an alternate phone number.
You need to enable the required features.
Which features should you use? To answer, drag the appropriate features to the correct requirements. Each feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.



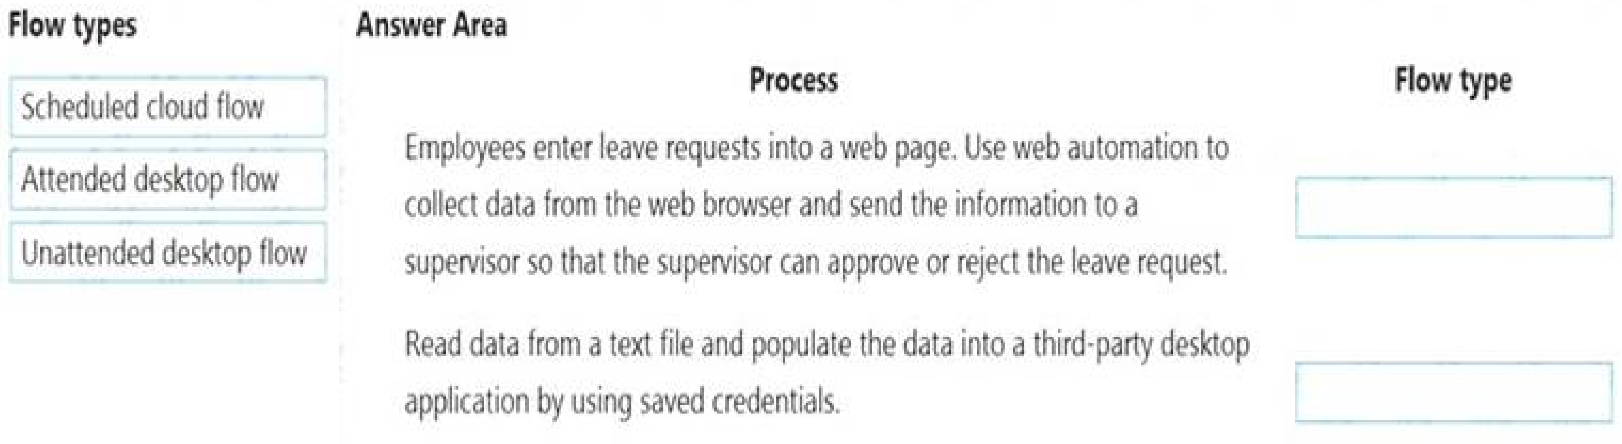
A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 140
- (Exam Topic 3)
You are examining several processes to determine if you can automate the processes by using Power Automate.
The processes must run without human intervention when possible.
You need to determine which flow type should be used for each process.
Which flow type should you use? To answer, drag the appropriate processes to the correct flow types. Each process may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:
Text Description automatically generated
Box 1: Attended desktop flow
Desktop flows are used to automate tasks on the Web or the desktop.
To run an attended desktop flow, you need to have an active Windows user session that matches the name of the user configured for your connection.
Note: Web applications are critical components of most organizations, and they are commonly used to access data from servers.
Most CRM and ERP platforms run through web browsers, while the most popular business productivity tools are web services. Web applications are unquestionably an integral part of the technological infrastructure of most companies.
To provide automation solutions for these applications, Power Automate Desktop supports all major browsers through its web automation actions.
Box 2: Unattended desktop flow.
Unattended desktop flows are best for applications that do not need human supervision. References:
https://docs.microsoft.com/en-us/learn/modules/pad-web/1-introduction https://docs.microsoft.com/en-us/power-automate/desktop-flows/run-pad-flow

NEW QUESTION 142
- (Exam Topic 3)
Your organization does not permit the use of custom code for solutions. You need to create a view that can be viewed by all users in an organization. Where should you create the view?

A. List view of the entity
B. Microsoft Visual Studio

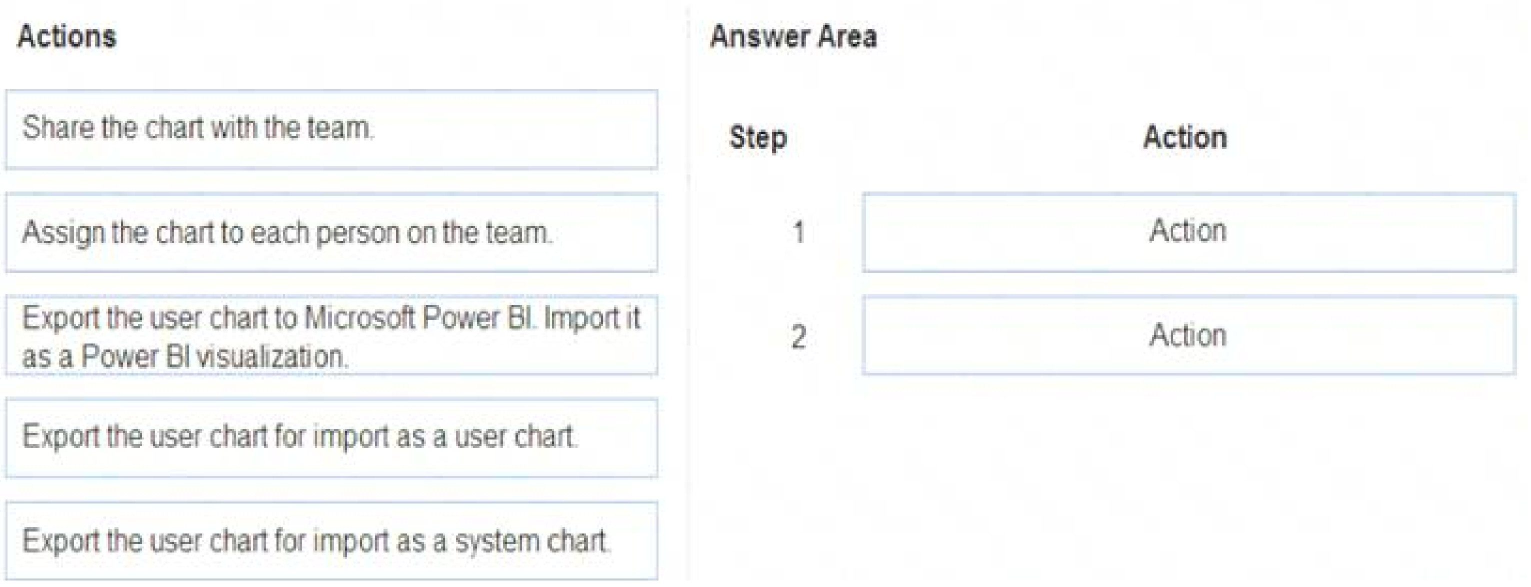
C. Templates area
D. Maker portal

Answer: A

Explanation:
Edit a public or system view in app designer
You can change the way a public or system view is displayed by adding, configuring, or removing columns.
- In the Views list for a table, select the Show list of references down arrow Drop Down. Edit View.Graphical user interface, application Description automatically generated
- Next to the view you want to edit, select Open the View Designer Open view Designer. The view opens in the view designer.

When you edit a public or system view, you must save and publish your changes before they will be visible in the application.
Reference:
https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/create-edit-views-app-designer

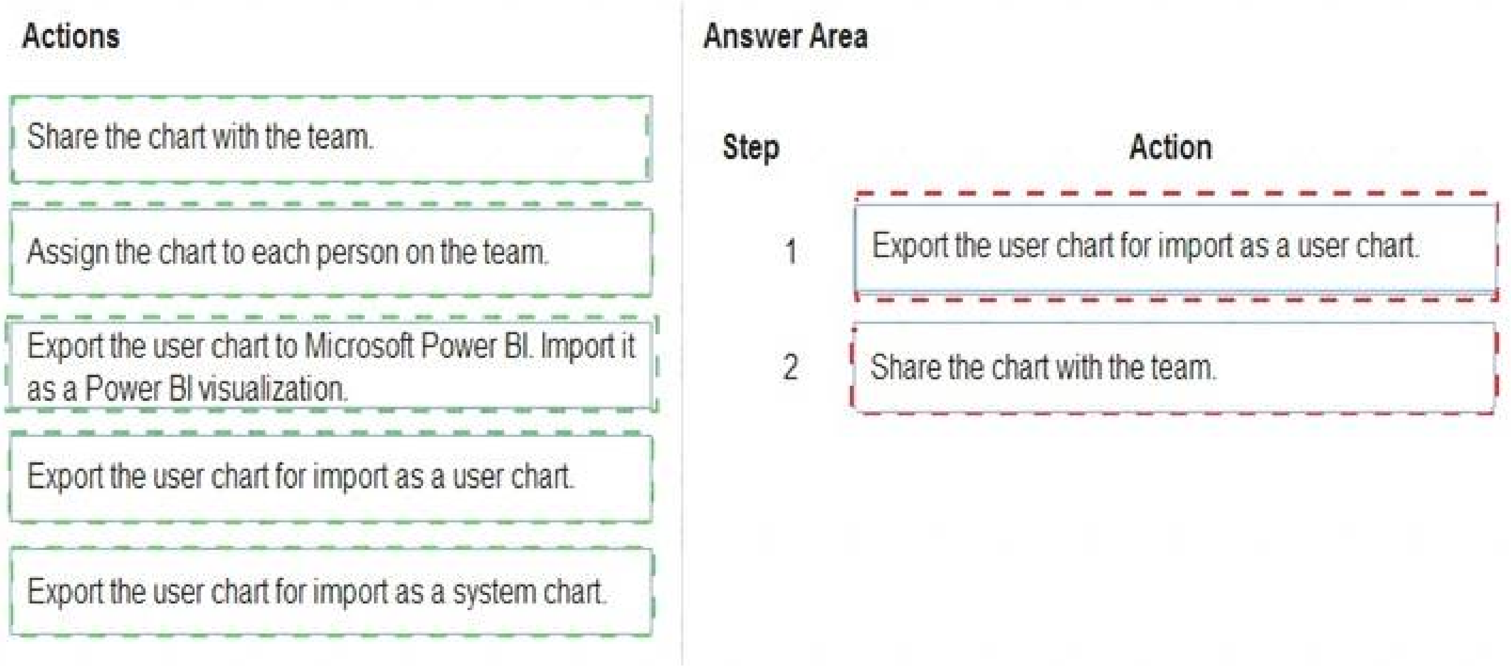
NEW QUESTION 146
- (Exam Topic 3)
You are a Dynamics 365 Customer Service developer. A salesperson creates a chart.
You need to ensure that the chart is available to all users on the team.
Which actions should the salesperson perform? To answer, drag the appropriate actions to the correct users. Each action may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:



NEW QUESTION 148
- (Exam Topic 3)
You are a Dynamics 365 Customer Service system administrator.
Your organization does not permit the use of custom code for solutions. You need to create a view that can be viewed by all users in an organization. Where should you create the view?

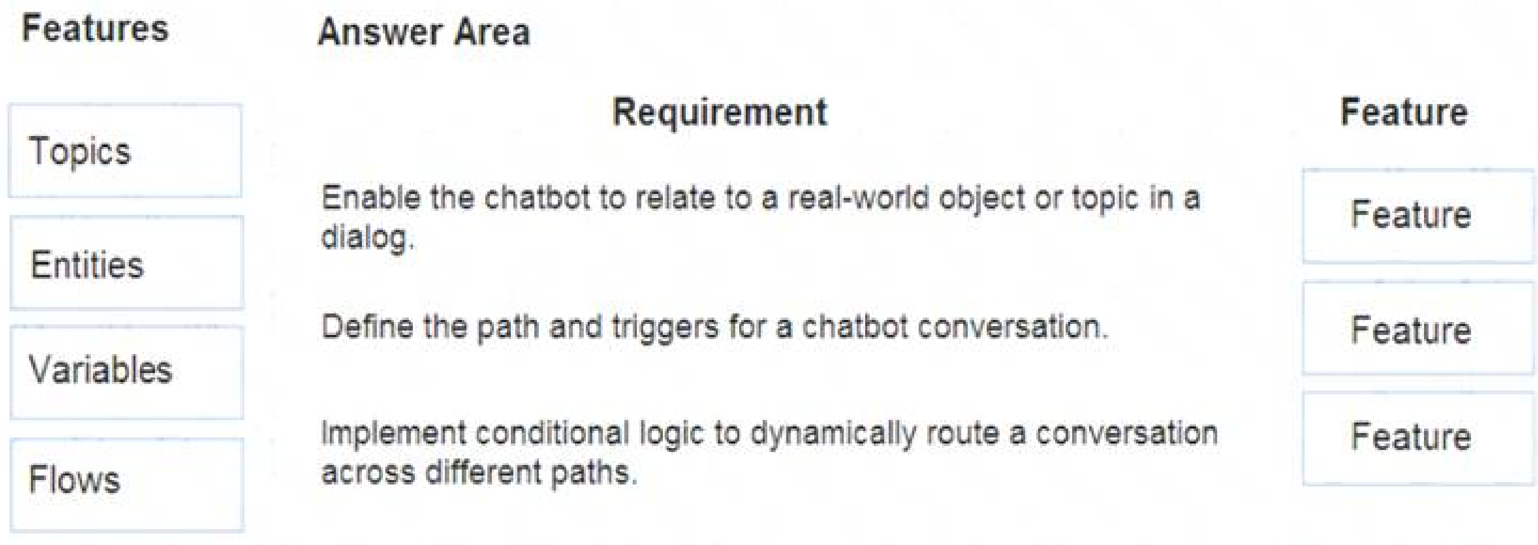
A. Microsoft Excel template
B. Entities component of a solution
C. Microsoft Virtual Studio
D. Templates area

Answer: B

Explanation:
Entity: Refers to a table in Dataverse. Table and entity are often used interchangeably for data access. Edit public views through tables
- Expand Data, select Tables, select the table you want, and then select the Views area.
- On the toolbar, select Add view. Add view to table
- On the Create a view dialog, enter a name and, optionally, a description, and then select Create. Reference:

https://docs.microsoft.com/en-us/power-apps/maker/model-driven-apps/create-edit-views-app-designer

NEW QUESTION 150
- (Exam Topic 3)
You are designing a chatbot for a sports outlet. You need to complete the chatbot.
Which features should you use? To answer, drag the appropriate features to the correct requirements. Each feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE Each correct selection is worth one point.



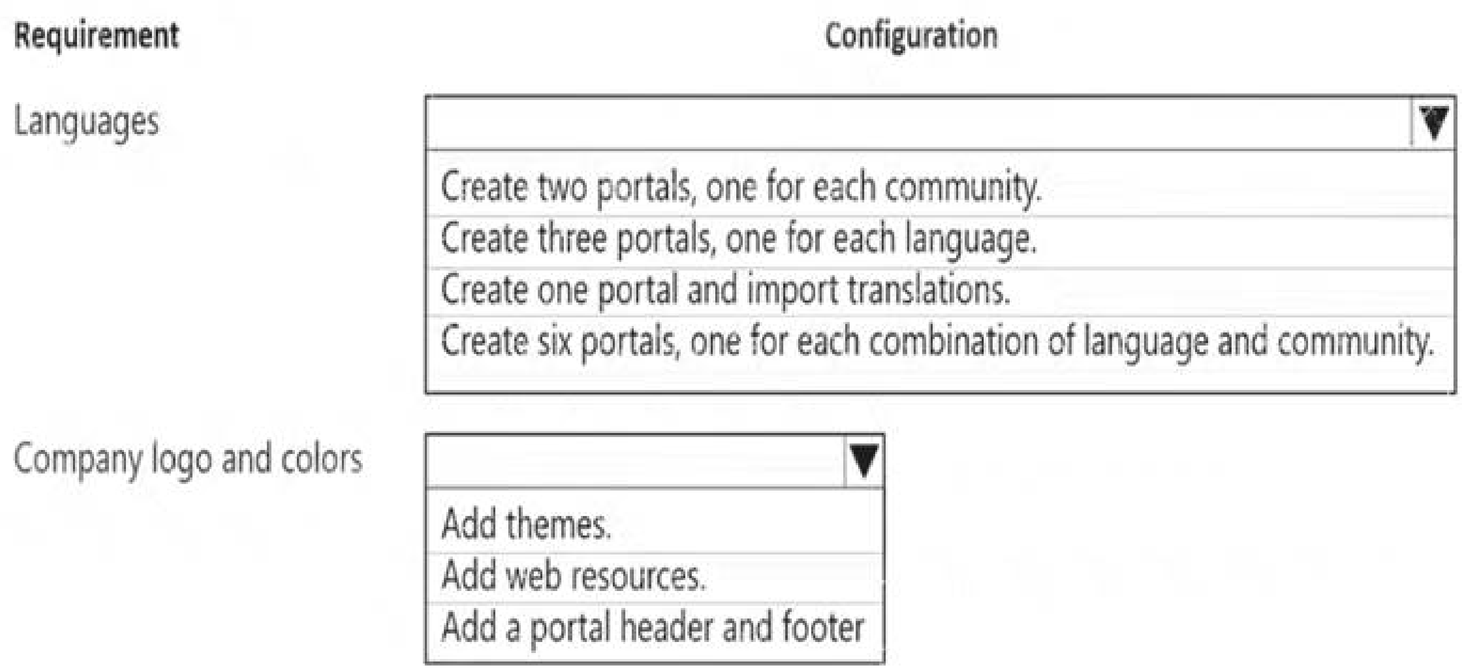
A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application, email Description automatically generated
Box 1: Entities
Out of the box, Power Virtual Agents comes with a set of prebuilt entities, which represent the most commonly used stereotype information in real-world dialogs, such as age, colors, numbers, and names.
With the knowledge granted by entities, a bot can smartly recognize the relevant information from a user input and save it for later use.
Box 2: Topics
In Power Virtual Agents, a topic defines a how a bot conversation plays out.
You can author topics by customizing provided templates, create new topics from scratch, or get suggestions from existing help sites.
A topic has trigger phrases – these are phrases, keywords, or questions that a user is likely to type that is related to a specific issue – and conversation nodes – these are what you use to define how a bot should respond and what it should do.
Box 3: Variables
Variables let you save responses from your customers in a conversation with your bot so that you can reuse them later in the conversation.
For example, you can save a customer's name in a variable called UserName. The bot can then address the customer by name as the conversation continues.
You can use variables to create logical expressions that dynamically route the customer down different conversation paths.
Reference:
https://docs.microsoft.com/en-us/power-virtual-agents/advanced-entities-slot-filling https://docs.microsoft.com/en-us/power-virtual-agents/authoring-create-edit-topics
https://docs.microsoft.com/en-us/power-virtual-agents/advanced-flow https://docs.microsoft.com/en-us/power-virtual-agents/authoring-variables

NEW QUESTION 153
- (Exam Topic 3)
You have a Power Apps portal app that supports a sales community and a service community in the same environment. The only language configured in the environment is English. The company wants to add support for two more languages.
The solution must meet the following requirements:
- Languages must be for both sales and service functions.
- The company logo and colors must be used and apply to all screens.
- Communities must be separate with different URLs and access lists.

You need to configure the solution.
What should you configure? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:
Box 1: Create two portals, one for each community Power Apps portal app languages
Box 2: Add themes
You can create a custom look and feel (a theme), for your app by making changes to the default colors and visual elements provided in the uncustomized system. For example, you can create your personal product branding by adding a company logo and providing table-specific coloring. A theme can be created by using the Themes area, without requiring a developer to write code. You can create, clone, change, or delete themes that are used in your environment.
Reference:
https://docs.microsoft.com/en-us/power-apps/maker/model-driven-apps/create-themes-organization-branding

NEW QUESTION 158
- (Exam Topic 3)
A company plans to automate the following manual processes by using Power Automate. You need to identify UI flow types for the two business processes.

Process	Time to Complete	Comments
1	30 minutes	The user's device must remain unlocked when the business process runs. The user will be required to leave their device unattended in a secure setting while the business process runs so that the user can assist with other efforts.
2	45 minutes	The process must run after normal business hours. The device that runs the business process must remain unlocked when the business process is not running.

Which desktop flow type should you use? To answer, drag the appropriate desktop flow types to the correct business processes. Each desktop flow type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, application Description automatically generated

NEW QUESTION 159
- (Exam Topic 3)
A company plans to create a Power Virtual Agents chatbot. The bot has the following requirements:
• Prompt for a location of the customer and the call must be routed to a support agent for the location.
• Transfer support calls at each location to a support bot that uses the Bot Framework. You need to configure the bot.
Which components should you use? To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than

once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct select is worth one point.

A. Mastered
B. Not Mastered

Answer: A

Explanation:

NEW QUESTION 160
- (Exam Topic 3)
A company creates a model-driven app.
Users require access to a Power BI report that is embedded in the app. You need to configure the app.
Where should you add the report?

A. XML report
B. Dashboard
C. Business rule
D. Power Automate cloud flow

Answer: B

NEW QUESTION 163
- (Exam Topic 3)
You are configuring a new Power Apps portal. You have two web roles, one for authenticated users and one for anonymous users. You grant the Anonymous Users role to users.
A test user reports that they can access the home page but cannot view a page linked from the home page. You need to determine why the test user cannot view the portal page.
What is the cause of the issue?

A. Maintenance mode is enabled on the portal.
B. The setting to make the page available to everyone is disabled.
C. The Authenticated Users Web role does not have permission to view the page.
D. Inherited permissions are not enabled for the linked page.

Answer: D

Explanation:
https://docs.microsoft.com/en-us/powerapps/maker/portals/configure/webpage-access-control

NEW QUESTION 168
- (Exam Topic 3)
You are developing a canvas app.
You need to apply business rules to the app without writing code.
Which three actions can you use? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

A. Validate data and show error messages.B Enable or disable fields.
B. Set field requirement levels.
C. Set field values.
D. Show or hide fields

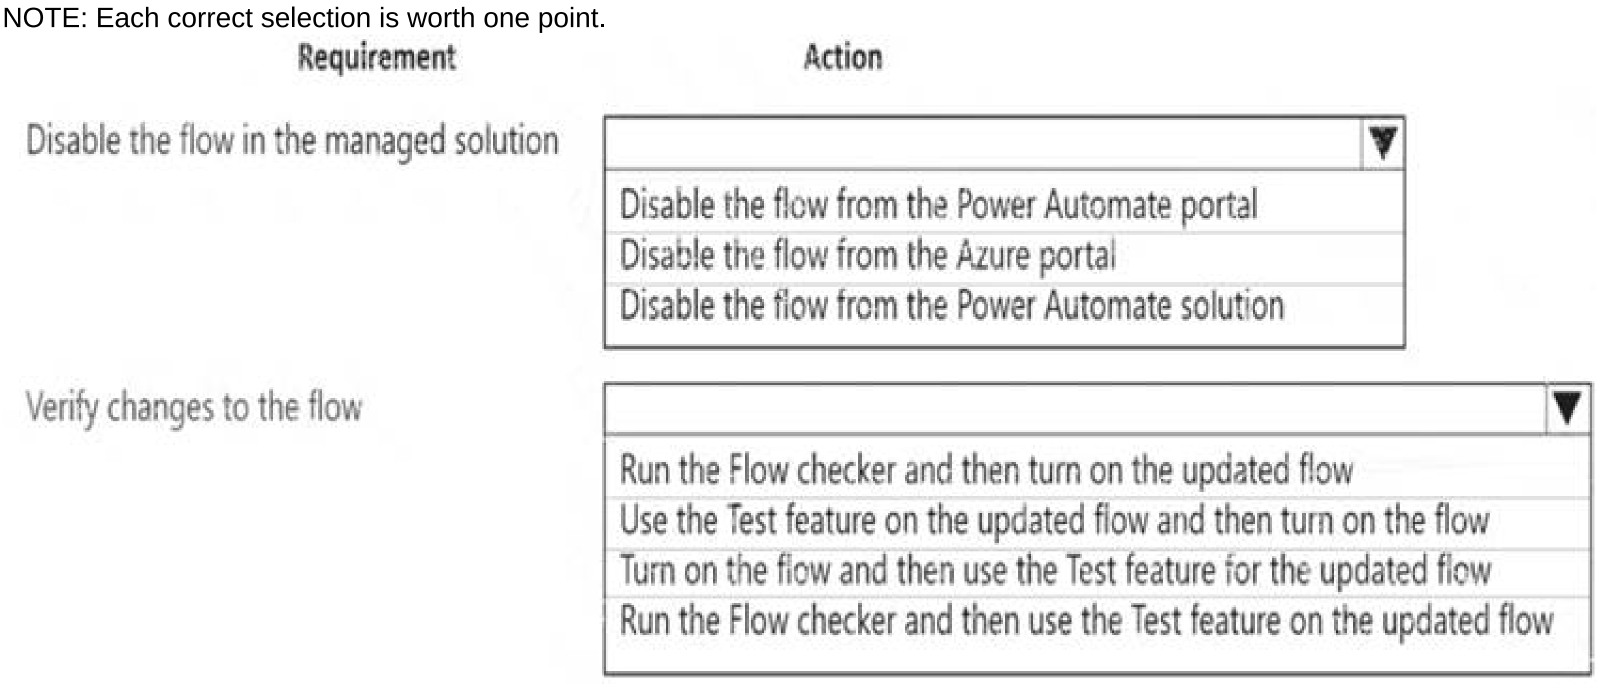
Answer: ACD

Explanation:
The following actions are not available on Canvas apps:
- Show or hide columns
- Enable or disable columns
- Create business recommendations based on business intelligence Reference:

https://docs.microsoft.com/en-us/powerapps/maker/data-platform/data-platform-create-business-rule

NEW QUESTION 173
- (Exam Topic 3)

You create a Power Automate flow as part of a managed solution. The flow alerts users when files are uploaded to a SharePoint location.
Files are uploaded to SharePoint at a much higher rate than expected. Users report that they receive too many notifications about uploaded files.
You need to stop the flow and correct the issue.
What should you do? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:
Graphical user interface, text, application Description automatically generated
Reference:
https://docs.microsoft.com/en-us/power-automate/edit-solution-aware-flow https://docs.microsoft.com/en-us/power-automate/error-checker

NEW QUESTION 174
- (Exam Topic 3)

You need to create a Power Automate desktop flow.
What are two possible ways to create the flow? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

A. Record mouse and keyboard events.
B. Configure a pre-built template.
C. Use pre-built actions.
D. Create models by using Microsoft Visio.

Answer: AC

Explanation:
C: Desktop flows are used to automate tasks on the Web or the desktop. Using Power Automate you can automate tasks on the desktop as well as the Web.
A: Alternatively, you can use the two legacy methods of creating desktop flows: Windows recorder (V1) and Selenium ID. With these you record mouse and keyboard events.
Reference:
https://docs.microsoft.com/en-us/power-automate/desktop-flows/create-flow https://docs.microsoft.com/en-us/power-automate/desktop-flows/create-web

NEW QUESTION 175
- (Exam Topic 3)

You plan to implement Microsoft Dataverse.
You must track changes for two columns in the Account table. You must maintain a historical log of changes for the two columns and track only what is necessary.
You configure the appropriate organization settings.
You need to configure the system to track changes for the two columns.
Which two actions should you perform? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

A. Enable auditing for the Account table.
B. Enable auditing for the two specific columns.
C. Enable change tracking for the Account table.

D. Enable change tracking for the two specific columns.

Answer: AB

Explanation:
By setting the IsAuditEnabled property of a table's definition and the IsAuditEnabled property of each desired column's definition to true, data changes to records of those tables can be logged by the platform.
Note: There are three levels where auditing can be configured: organization, table, and column. The organization level is the highest level, followed by the table level, and finally the column level. For column auditing to take place, auditing must be enabled at the column, table, and organization levels. For table auditing to take place, auditing must be enabled at the table and organization levels.
Reference:
https://docs.microsoft.com/en-us/powerapps/developer/data-platform/configure-entities-attributes-auditing

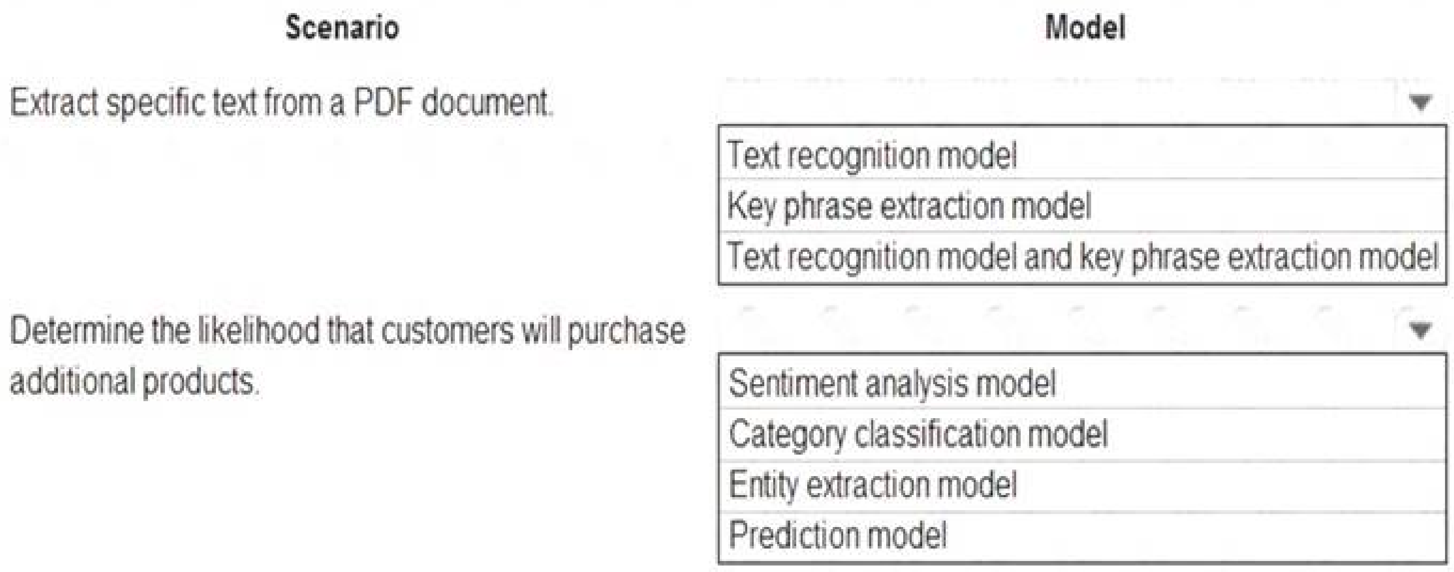
NEW QUESTION 179
- (Exam Topic 3)
You create a JavaScript web resource named MyBusinessLogic. The code it contains uses functionality from a third-party JavaScript library.
You notice that an independent software vendor (ISV) solution uses the same third-party library in their managed solution.
You plan to deploy your solution to other environments by using a managed solution. The ISV solution might not be installed in the other environments.
You need to package the solution for deployment
What are two ways to achieve this goal? Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

A. Create a new JavaScript web resource by using the code from the third-party librar
B. Add the new JavaScript web resource along with MyBusinessLogic to the solution.
C. Add a copy of the JavaScript library from the ISV to the solution along with MyBusinessLogic.
D. Add the code from the third-party JavaScript library to MyBusinessLogi
E. Add MyBusinessLogic to the solution.
F. Add only the third-party JavaScript web resource to the solution.

Answer: AC

Explanation:
Web resources in model-driven apps.
Web resources are virtual files that are stored in the Microsoft Dataverse database and that you can retrieve by using a unique URL address.
Capabilities of web resources.
Web resources represent files that can be used to extend the Dataverse web application such as html files, JavaScript, and CSS, and several image formats.
Reference: https://docs.microsoft.com/en-us/power-apps/developer/model-driven-apps/web-resources

NEW QUESTION 183
- (Exam Topic 3)
A company uses Common Data Service to manage account and contact information. The company plans to use the Al Builder model to make key business decision.
You need to integrate prebuilt Al Builder models with Power Automate.
Which models should you use? To answer, select the appropriate option the answer area. NOTE Each correct selection is worth one point.



A. Mastered
B. Not Mastered

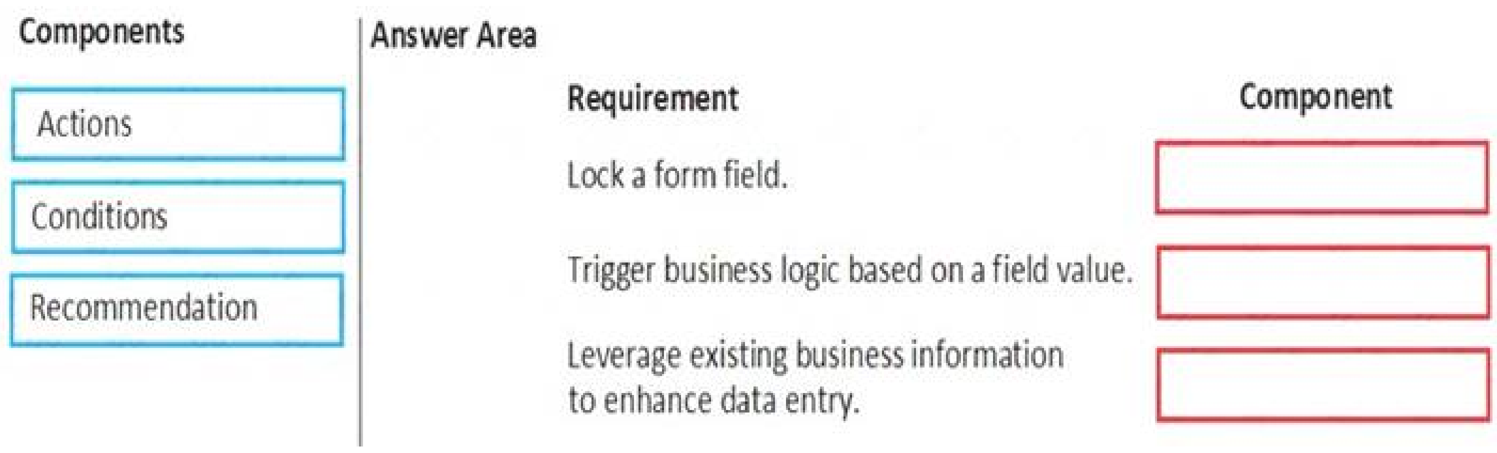
Answer: A

Explanation:
Reference:
https://docs.microsoft.com/en-us/ai-builder/prebuilt-sentiment-analysis https://docs.microsoft.com/en-us/ai-builder/prebuilt-key-phrase
https://docs.microsoft.com/en-us/ai-builder/prebuilt-text-recognition

NEW QUESTION 185
- (Exam Topic 3)
You are a Dynamics 365 for Customer Service administrator.
You must create a form for team members to use. The form must provide the ability to:
- Lock a field on a form.
- Trigger business logic based on a field value.

- Use existing business information to enhance data entry.

You need to implement business rule components to create the form.
Which components should you use? To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:
- Action
- Condition
- Recommendation

NEW QUESTION 187
- (Exam Topic 3)
You have a form that displays a custom field from an entity.
A customer wants to restrict users from filtering on the custom field. You need to prevent users from filtering the field in Advanced Find. What should you modify?

A. Fields in the Edit Filter Criteria option of the Quick Find view
B. the Field Security field on the Field Properties form
C. a searchable field on the Field Properties form
D. Fields in the Add Find Columns option of the Quick Find view

Answer: C

Explanation:
Reference:
https://community.dynamics.com/365/b/dynamics365apps/posts/kb-understanding-dynamics-365-field-ssearcha

NEW QUESTION 190
- (Exam Topic 3)
A company creates a canvas app.
The app requires near real-time data from an accounting system that resides in a customers data center. You need to implement a solution for the app.
What should you create?

A. Azure DevOps pipeline
B. On-premises data gateway
C. Power Pages
D. Data integration project

Answer: B

NEW QUESTION 191
- (Exam Topic 3)
You are creating a business rule to implement new business logic.
You must apply the business logic to a canvas app that has a single screen named Screen1. You need to configure the scope for the business rule.
Which scope should you use?

A. All Forms
B. Entity
C. Screen1
D. Global

Answer: B

Explanation:
Note: Some terminology has changed. Entity is now Table. If you're building a Canvas app, you must use table (entity) as the scope.
Reference:
https://docs.microsoft.com/en-us/powerapps/maker/common-data-service/data-platform-create-business-rule

NEW QUESTION 192
- (Exam Topic 3)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You are creating Power Virtual Agents chatbot that captures demographic information about customers. The chatbot must determine the group a customer belongs to based on their age. The age groups are:
- 0 - 17
- 18 - 25
- 26 - 35
- 36 - 55
- 55 - 100

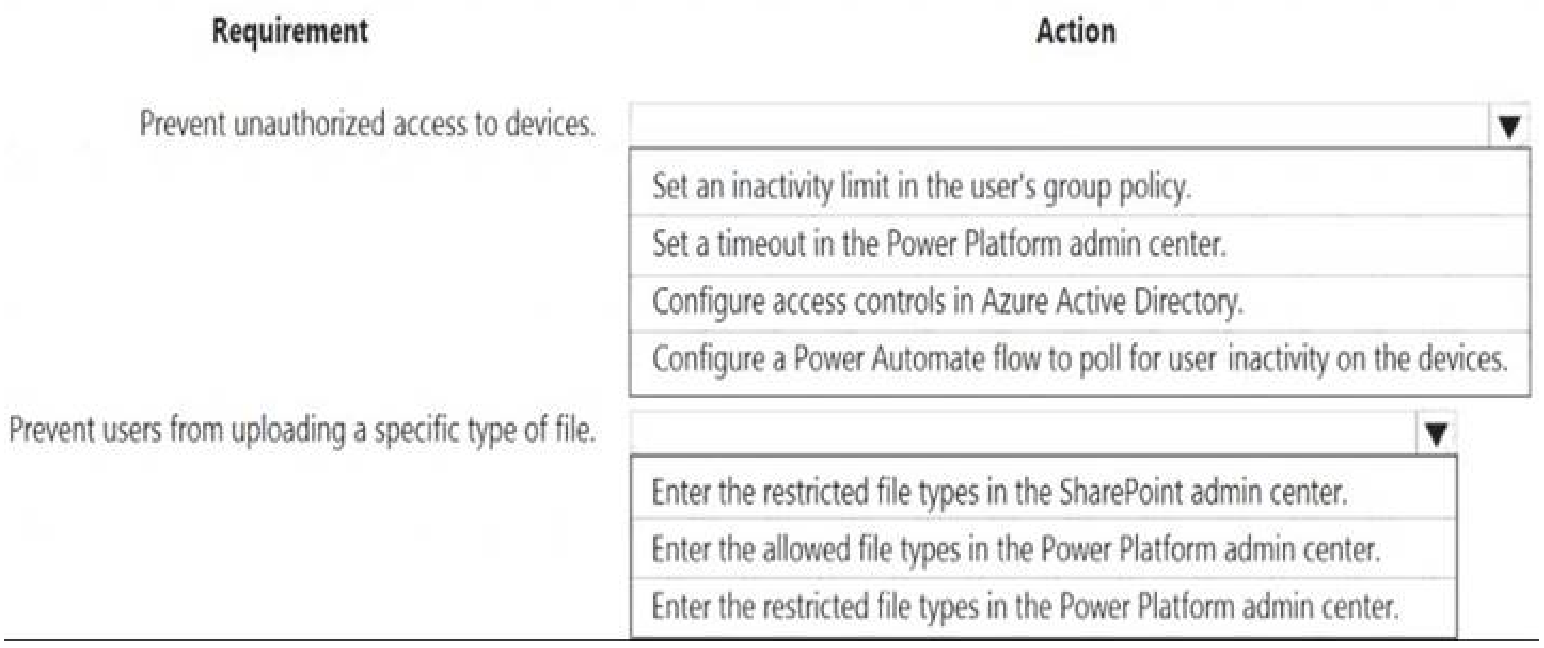
You need to configure the chatbot to ask a question that can be used to determine the correct age group. Solution: Use age for Identify in the question and then add branches for each group that use conditional logic.
Does this meet the goal?

A. Yes
B. No

Answer: B

Explanation:
Instead, create a custom Age group entity and synonyms for each individual age in the corresponding item. Use Age group for Identify in the question.
The prebuilt entities cover commonly used information types, but on some occasions, such as when building a bot that serves a specific purpose, you'll need to teach the bot's language understanding model some domain-specific knowledge.
To do this, you need to create a custom entity. Reference:
https://docs.microsoft.com/en-us/power-virtual-agents/advanced-entities-slot-filling

NEW QUESTION 194
- (Exam Topic 3)
A company deploys several model-driven apps. The company uses shared devices in their warehouse. The devices are always powered on. Users log on to the devices and then launch the apps to perform actions.
Unauthorized users recently uploaded several files after another user failed to log out of a device. The
company needs to prevent these incidents from occurring in the future.
You need to configure the solution to prevent the reported security incidents. What should you do? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

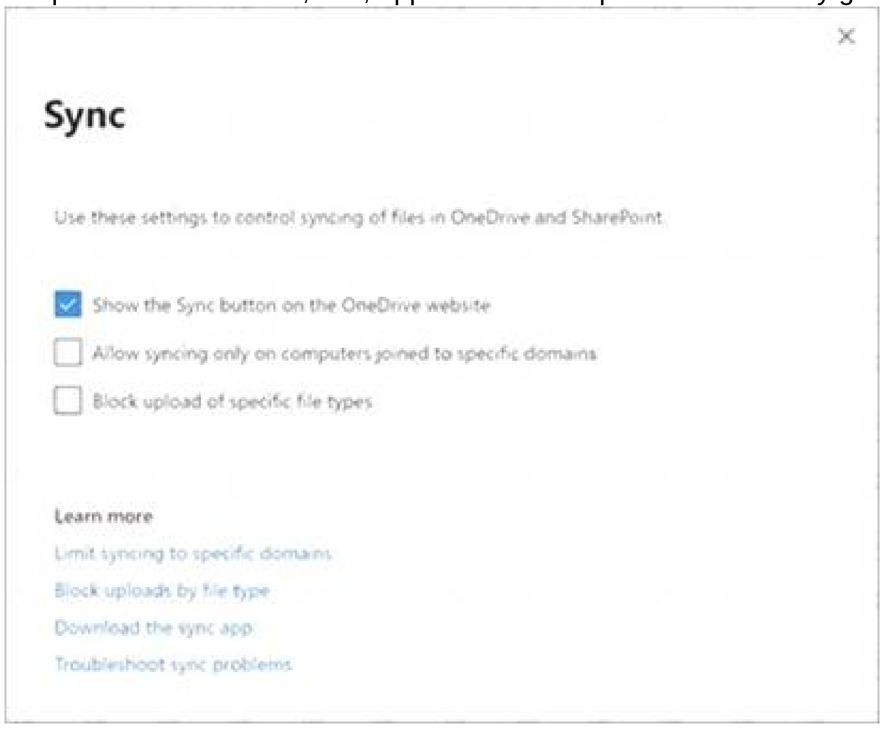
Explanation:
Graphical user interface, text, application Description automatically generated
Box 1: Set a timeout in the Power Platform admin center.
To enforce users to reauthenticate after a pre-determined period of time, admins can set a session timeout for their individual environments. Users can only remain signed in the application for the duration of session. The application signs out the user when the session expires. Users need to sign in with their credentials to return to customer engagement apps.
Note: Configure session timeout
- In the Power Platform admin center, select an environment.
- Select Settings > Product > Privacy + Security.
- Set Session Expiration and Inactivity timeout. These settings apply to all users. Incorrect:

Configure inactivity timeout
- In the Power Platform admin center, select an environment.
- Select Settings > Product > Privacy + Security.
- Set Session Expiration and Inactivity timeout. These settings apply to all users. Box 2: Enter the restricted file types in the SharePoint admin center.

To block uploading of specific file types
- Go to the Settings page of the new SharePoint admin center,

- Select Sync.

Graphical user interface, text, application Description automatically generated



- Select the Block upload of specific file types check box.
- Enter the file name extensions you want to block, for example: exe or mp3.
- Select Save.

NEW QUESTION 197
- (Exam Topic 3)
You are designing a Power Virtual Agents chatbot.
You observe that the environment you plan to use does not appear as an option in the Power Virtual Agents user interface.
You need to ensure that you can create the chatbot in the environment that you want to use.
What should you do?

A. Create an environment in a supported region.
B. Convert the environment to a sandbox environment.
C. Change the region for the environment.

Answer: A

Explanation:
The environment doesn't show up in the drop-down menu of Power Virtual Agents
Your environment might not show up in the drop-down menu due to one of the following:
The environment doesn't have a database created. To resolve this issue, go to admin.powerplatform.com to create a database in your environment.
The environment is created in an unsupported region.

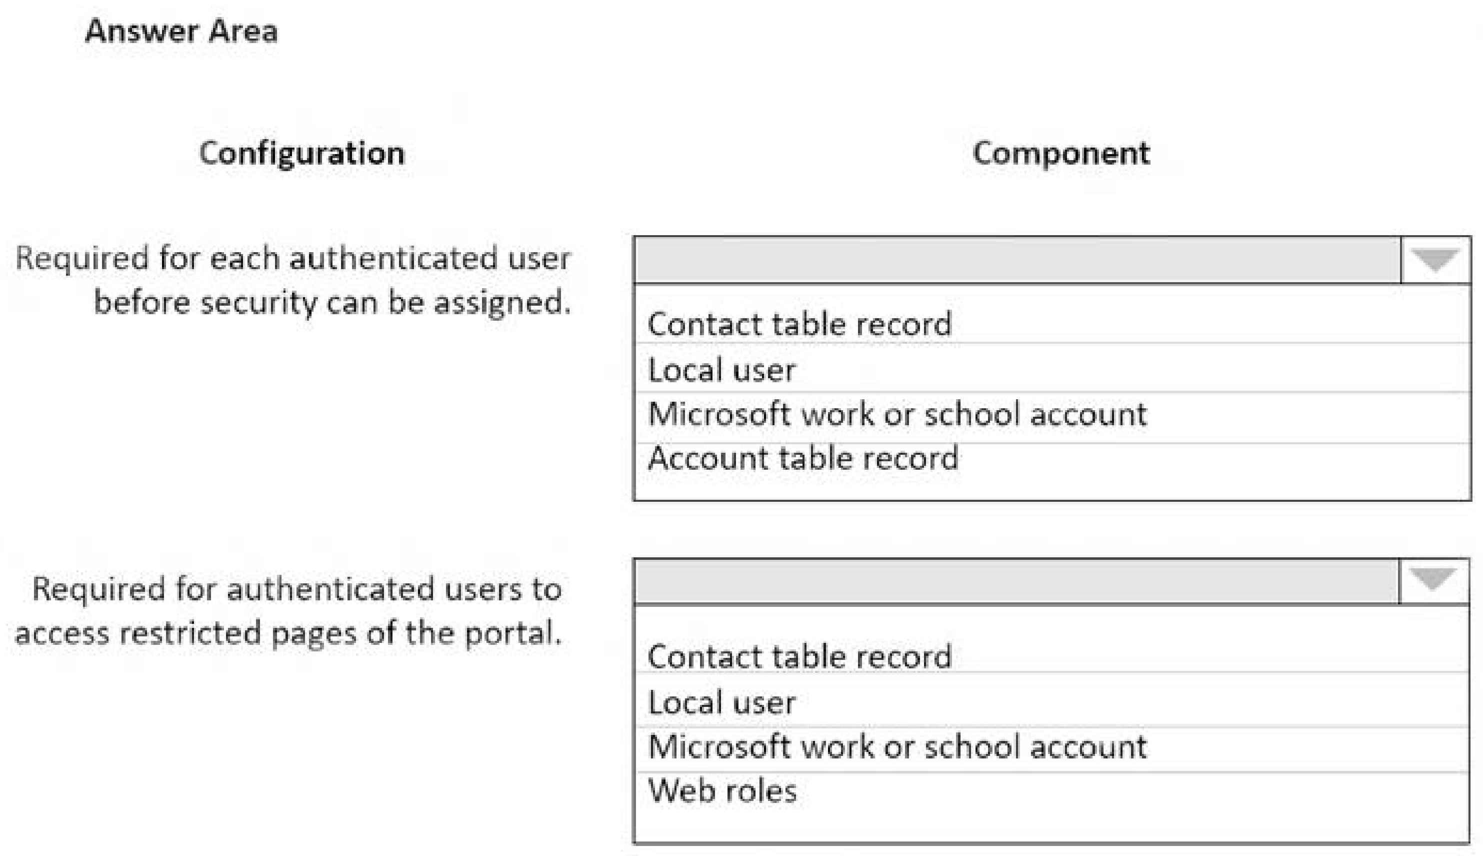
NEW QUESTION 201
- (Exam Topic 3)
A company is configuring a Power Apps portal using Microsoft Dataverse. The company requires the following:

- Only authenticated users must be able to sign into the portal.
- Authenticated users must have varying degrees of access to the different parts of the portal.
- Users must enter one of several external identities when creating an account during the open registration process.

You need to configure user authentication and permissions.
Which component should you use? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

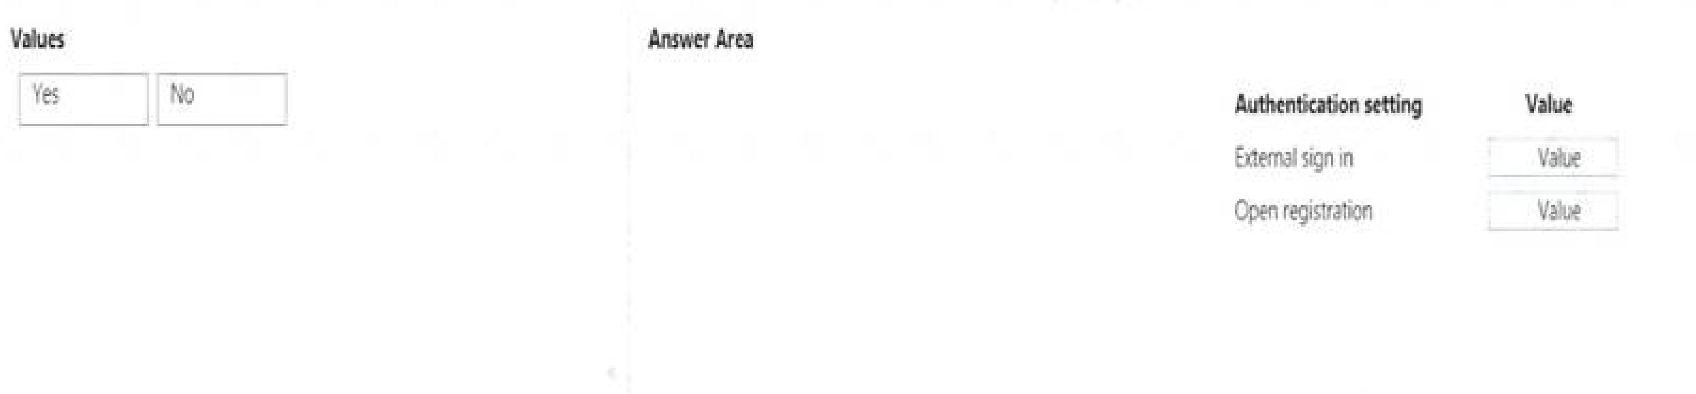


A. Mastered
B. Not Mastered

Answer: A

Explanation:
Box 1: Contact table record
In Power Apps portals, each authenticated portal user is associated with a contact record in Microsoft Dataverse.
Box 2: Web roles
Portal users must be assigned to web roles to gain permissions beyond unauthenticated users. Reference:
https://docs.microsoft.com/en-us/powerapps/maker/portals/configure/configure-portal-authentication

NEW QUESTION 204
- (Exam Topic 3)
A company has a portal. Users sign into the portal by using a social media account.
The company wants to replace the existing portal with a Power Apps portal. users must sign up for access to the portal by using a Microsoft account and a unique invitation code that will be provided to the users.
You need to configure authentication for the home page.
Which values should you use? To answer, drag the appropriate values to the appropriate authentication settings. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.



A. Mastered
B. Not Mastered

Answer: A

Explanation:
NO NO

NEW QUESTION 207
- (Exam Topic 3)
You are creating a new business process flow to qualify leads.
You create an action. The action is not available inside the Action Step. You need to make the action available to the Action Step.
Which two steps must you perform? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

A. Activate the action.
B. Select Run as an on-demand process
C. Add at least one step to the action.
D. Ensure that the entity for the action matches the corresponding entity for the business process flow stage.

Answer: CD

Explanation:

https://docs.microsoft.com/en-us/business-applications-release-notes/april18/microsoft-flow/add-action-business

NEW QUESTION 211
- (Exam Topic 3)
You use Power BI Desktop to configure Power BI reports.
You need to create a canvas app that displays user account information and include the app in a Power BI report.
Which three actions should you perform? Each correct answer presents part of the solution.
NOTE: Each correct selection is worth one point.

A. From the Power Apps Insert menu, add a Power BI tile
B. From the Power BI Desktop menu, insert a Power Apps visual and include the required fields in the Power Apps data
C. Publish the report to the Power BI service
D. Connect to Common Data Service from Power BI Desktop

Answer: BCD

Explanation:
Step 1 (B): Here’s how we embed PowerApps into a Power BI report:
- Download and login to the Power BI desktop application
- Click on (…) and select “Import from the marketplace.”

Step 2: Open Power BI desktop and use “Get data” to connect with the Common Data Service data source. Step 3: Publish the report to Power BI service.

NEW QUESTION 213
- (Exam Topic 3)
You have a canvas app that allows users to view, select and purchase products. The app uses a Gallery control to display products and checkboxes that allow users to select products.
When users select items from the product catalog, they move to a different screen to complete a purchase. Users must be able to clear all product selections when they click the button.
You need to configure the button. What should you do?

A. Use the Reset (Control) formula and pass the gallery control as a parameter to the Reset formula.
B. Use the Reload(control) formula and pass the gallery control as parameter to the Reload formula.
C. Use the ForAall( ) function to iterate through each item of the Gallery and clear user selections.
D. Set the OnCheck value to populate a collection and the OnUncheck value to remove the item from the collectio
E. Clear the collection when the user selects the button.

Answer: D

Explanation:
https://debajmecrm.com/quick-tip-resetting-controls-inside-gallery-in-canvas-app/

NEW QUESTION 217
- (Exam Topic 3)
You create a Power Platform help Desk solution.
You need to create a dashboard that displays information on help desk cases that are handled each week. Which dashboard components should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Requirement	Component type
Add a tag chart by using opened cases.	System chart Personal dashboard Area chart
Add a stacked column chart shared with your team.	System chart Personal dashboard Area chart
Add a Microsoft Power BI visualization.	System chart Personal dashboard Area chart
Add a chart from a view that a user creates.	System chart Personal dashboard Area chart
Add a doughnut chart that shows cases by owner.	System chart Personal dashboard Area chart

A. Mastered
B. Not Mastered

Answer: A

Explanation:
Box 1: Area chart Box 2: System chart
System charts are organization-owned charts, which makes them available to anyone with access to read the data running the app. System charts can't be assigned or shared with specific app users.
Box 3: Personal dashboard Box 4: Personal dashboard Box 5: Area chart
Reference:
https://docs.microsoft.com/en-us/powerapps/user/add-powerbi-dashboards https://docs.microsoft.com/en-us/powerapps/maker/model-driven-apps/create-edit-system-chart

NEW QUESTION 218
- (Exam Topic 3)
Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.
After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.
You are a Dynamics 365 Sales administrator for a software company. The sales team wants to attach a large number of supporting documents to customer records, but management does not want to incur the cost of additional storage.
The company does not have any Office 365 application integrations enabled. You need to recommend a storage solution that keeps storage costs low. Solution: Enable OneDrive for Business.
Does this meet the goal?

A. Yes
B. No

Answer: B
