## Exam Questions AB-900

Microsoft 365 Copilot and Agent Administration Fundamentals (beta)

**NEW QUESTION 1**

**HOTSPOT**

A user named User5 navigates to <https://myapps.microsoft.com>. After entering their username and password, User5 receives the displayed message on their mobile device.

Use the drop-down menus to select the answer choice that completes the statement based on the information presented in the graphic.

Use the drop-down menus to select the answer choice that completes the statement based on the information presented in the graphic.

**Answer Area**

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

Are you trying to sign in?

Contoso Ltd.  
User5@sk2508.onmicrosoft.com

Enter the number shown to sign in.

Enter number here

YES

NO, IT'S NOT ME

I CAN'T SEE THE NUMBER

Use the drop-down menus to select the answer choice that completes the statement based on the information presented in the graphic.

Answer Area

User5 is using  for multifactor authentication (MFA).

NEW QUESTION 2

HOTSPOT

Select the answer that correctly completes the sentence.

Answer Area

Restricted SharePoint Search enables you to restrict access to Microsoft SharePoint sites without preventing users from  they have permission.

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Answer Area

Restricted SharePoint Search enables you to restrict access to Microsoft SharePoint sites without preventing users from  they have permission.

NEW QUESTION 3

HOTSPOT

You want to view the administrative actions taken by a service administrator in Microsoft 365. For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statements	Yes	No
You can use Search & intelligence in the Microsoft 365 admin center.	<input type="radio"/>	<input type="radio"/>
You can use Audit in the Microsoft Defender portal.	<input type="radio"/>	<input type="radio"/>
You can use Audit in the Microsoft Purview portal.	<input type="radio"/>	<input type="radio"/>

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

Statements	Yes	No
You can use Search & intelligence in the Microsoft 365 admin center.	<input type="radio"/>	<input checked="" type="radio"/>
You can use Audit in the Microsoft Defender portal.	<input checked="" type="radio"/>	<input type="radio"/>
You can use Audit in the Microsoft Purview portal.	<input checked="" type="radio"/>	<input type="radio"/>

**NEW QUESTION 4**

You need to identify files and emails that contain social security numbers (SSNs) and credit card numbers. What should you use in the Microsoft Purview portal?

- A. Information Protection reports
- B. Data explorer
- C. Information Protection policies
- D. Activity explorer

**Answer:** B

**Explanation:**

The correct answer is B. Data explorer. Microsoft Learn states that Data explorer in Microsoft Purview shows a current snapshot of items that have been classified as a sensitive information type in your organization. Microsoft's sensitive information type documentation specifically lists examples such as social security numbers and credit card numbers, which means Data explorer is the appropriate portal feature for identifying files and emails that contain those data types. Data explorer is designed to help administrators see where sensitive data exists across supported Microsoft 365 locations. The other options are less appropriate for this task. Information Protection reports focus more broadly on label and protection reporting. Information Protection policies are for configuring classification and protection behavior, not for finding existing files and emails containing SSNs or credit card numbers. Activity explorer is primarily used to review user and policy-related activities, such as label changes or DLP events, rather than to provide the direct sensitive-data inventory view requested here. Since the question asks to identify the files and emails containing specific sensitive information types, Microsoft's documented answer is Data explorer.

**NEW QUESTION 5**

HOTSPOT

Select the answer that correctly completes the sentence.  
 Microsoft Entra Privileged Identity Management (PIM) provides time-bound role activation.

Microsoft Entra Privileged Identity Management (PIM) provides

▼

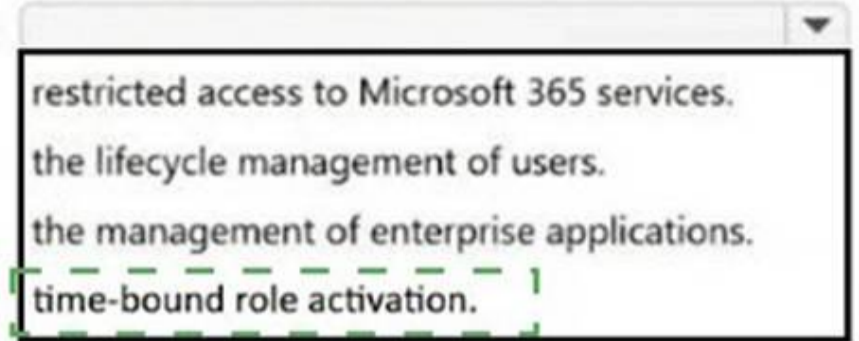

- restricted access to Microsoft 365 services.
- the lifecycle management of users.
- the management of enterprise applications.
- time-bound role activation.

- A. Mastered
- B. Not Mastered

**Answer:** A

**Explanation:**

Microsoft Entra Privileged Identity Management (PIM) provides

**NEW QUESTION 6**

Your organization has a Microsoft 365 subscription. All users are assigned a Microsoft 365 Copilot license. You need to prevent the users from generating images by using Copilot. What should you use?

- A. the Microsoft Defender portal
- B. the Microsoft Purview portal
- C. the Microsoft 365 admin center
- D. the Microsoft Entra admin center

**Answer:** C

**Explanation:**

The correct answer is C. the Microsoft 365 admin center. Microsoft Learn documents a specific Copilot image generation setting in the Microsoft 365 admin center under Copilot > Settings > Copilot actions > Copilot image generation. Microsoft states that when this scenario is allowed, users can ask Copilot to create, design, and edit images. When it is not allowed, Copilot does not generate images and instead responds with stock or brand images. This directly matches the requirement to prevent users from generating images by using Copilot.

The other options are incorrect because Microsoft does not document this control as being managed from Defender, Purview, or Entra for this scenario. Microsoft also separately notes that organizations can control access to Designer image generation through policy, but the admin experience for managing the Microsoft 365 Copilot scenario itself is explicitly surfaced in the Microsoft 365 admin center. Therefore, for an exam question focused on where an admin should go to disable image generation in Copilot, the best and documented answer is the Microsoft 365 admin center.

**NEW QUESTION 7**

Your organization has a Microsoft 365 subscription.

You need to evaluate your organization's Identity Secure Score.

Which two factors affect the score? Each correct answer presents a complete the solution. NOTE: Each correct selection is worth one point.

- A. the SharePoint site permissions
- B. the number of global administrators
- C. passwords that are never expired
- D. the location of the users

**Answer:** BC

**NEW QUESTION 8**

Your company is evaluating Microsoft 365 Copilot pay-as-you-go billing instead of purchasing a Microsoft 365 Copilot license. In which scenario can pay-as-you-go billing apply?

- A. generating a recap of a Microsoft Teams meeting
- B. using a custom agent that is grounded in work data
- C. performing multi-step reasoning by using the Researcher agent
- D. using the AI assistant to edit a document in Copilot in Word

**Answer:** B

**NEW QUESTION 9**

Your organization has a Microsoft 365 subscription.

Which two tasks can you perform by using the Exchange admin center? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Create a mail flow rule.
- B. Add a custom domain.
- C. Assign a Microsoft Exchange license.
- D. Create a shared mailbox.

**Answer:** AD

**NEW QUESTION 10**

Your organization has a Microsoft 365 subscription. All users are assigned Microsoft 365 Copilot licenses.

Some users report receiving Copilot responses that contain information from a Microsoft SharePoint site named Finance. The users report that the information is commercially sensitive.

You need to prevent Copilot from providing responses that contain information from the Finance site.

What should you do?

- A. From Microsoft Purview, create an Information Barrier (IB) policy.
- B. From Microsoft Defender, create a data connector.
- C. From Microsoft Entra, create a Conditional Access policy.
- D. From the Finance site, configure permissions.

**Answer: D**

**NEW QUESTION 10**

HOTSPOT

Select the answer that correctly completes the sentence.

Answer Area

When you need to add a domain to a Microsoft 365 subscription, you must verify the domain by

adding a public DNS record.

confirming your business address.

Uploading a certificate

uploading a webpage.

- A. Mastered
- B. Not Mastered

**Answer: A**

**Explanation:**

Answer Area

When you need to add a domain to a Microsoft 365 subscription, you must verify the domain by

adding a public DNS record.

confirming your business address.

Uploading a certificate

uploading a webpage.

**NEW QUESTION 12**

A user named User1 is responsible for quarterly sales reporting.

User1 needs to identify performance trends, generate visual insights, and create a summary of anomalies across multiple files that contain various datasets.

What should you use

- A. the Researcher agent in Microsoft 365 Copilot
- B. Microsoft 365 Copilot Search
- C. Copilot in Excel
- D. the Analyst agent in Microsoft 365 Copilot

**Answer: D**

**NEW QUESTION 15**

HOTSPOT

You have a Microsoft SharePoint site named Site1 and a security group named Group1.

You need to prevent all users that currently have access to Site1 from accessing the site content unless the user is also a member of Group1.

Which settings should you configure? To answer, select the appropriate settings in the answer area.
