View all the users in the Microsoft Entra tenant

view all the content in Microsoft SharePoint sites

read all the content in Microsoft Exchange mailboxes

perform eDiscovery of Microsoft 365 Copilot prompts

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

The correct answer is View all the users in the Microsoft Entra tenant. In the exhibit, John is assigned the Global Reader role. Microsoft documents that the Global Reader role is intended for users who need to view administrator features and settings in admin centers that a Global Administrator can view, but without edit permissions. That makes it appropriate for read-only visibility into tenant-wide directory and admin information, including users in Microsoft Entra. The other answer choices are not supported by the Global Reader role. Microsoft distinguishes admin-center visibility from access to content in workloads such as SharePoint sites and Exchange mailboxes. Global Reader is a read-only administrative role, not a content access role for reading all documents or mailbox items. Likewise, performing eDiscovery of Microsoft 365 Copilot prompts requires Purview eDiscovery permissions or role group membership, not merely the Global Reader role. Microsoft documents eDiscovery permissions separately in Purview role groups. Therefore, based on the assigned role shown, the valid completion is that John can view all the users in the Microsoft Entra tenant.

NEW QUESTION 25

A user named User1 creates a Microsoft 365 Copilot agent named Agent1 and shares the agent to a user named User2. What occurs if an admin blocks Agent1?

- A. Agent1 is accessible to User1 and User2, and no other users can install Agent1.
- B. Agent1 is removed from User1 and User2, and no users can install Agent1.

- C. Agent1 is accessible to User1 and User2 until the users manually uninstall Agent1. No other users can install Agent1.
- D. Agent1 is removed from User2, and User1 can continue to use Agent1.

Answer: B
